CDPH (Hainan) Company Limited

01

COMPANY OVERVIEW

CDPH (Hainan) Company Limited is a subsidiary company and formerly the export department fully owned by Beijing Chengdong International Modular Housing Corporation (CDPH). We have our own 70,000 sqm super factory in Hebei near Tianjin port, with advanced technology and facilities to support production under CE and US standard. Chengdong is a Chinese public listed company with industry experience in prefabricated building since 1998!

Excellence through integrity is our motto since the establishment of Chengdong. We are proud of our quality and expertise in providing one-stop solutions to our customers.

An example for you to know CDPH: Not every factory can fulfill OEM projects for major leading US modular housing companies since 2014 with stable high quality supply to the US market, which proves our top quality!

If you're seeking an absolutely safe and quality house, with years of after service support guarantee, CDPH is your reliable choice!

Factory Introduction

Our factory is 140 kilometers away from the Beijing Municipal Administrative Center, covering a total area of 70,000 sqm with more than 300 staff.

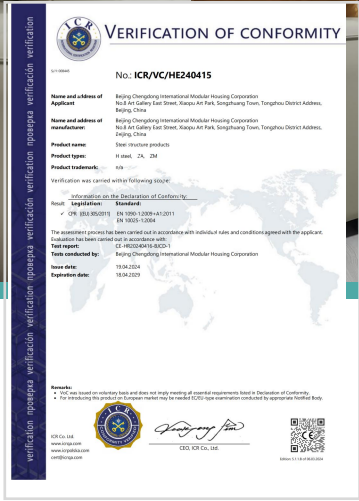

The core positioning of the factory is as a base of prefabricated housing production, processing, warehousing and logistics. It adopts automated welding robots for the production of core components which is an advanced technology in Chinese mobile housing industry. Its production workshop utilizes the assembly line layout for the cold bending, welding, grinding, spraying, and decoration of the main profiles. The factory also has a material laboratory capable of independent testing of the performance of core main materials.

Our factory serves as a manufacturing center, cost center, service center, quality center, and image center.
