**ESD SYSTEM ENGINEERING SOLUTION EXPERT**

# ABOUT US

LEENOL is a "Total Solution" Company to fulfill ESD requirements for factories and labs. LEENOL's product range covers LeeRack™ Handling Storage ESD Equipments, LeePak™ Packing Material, LeeBench™ Factory and Lab Furniture, LeePPE™ Personal Protection and LeePur™ Cleanroom Product and LeeStat™ Testing Equipment and Tools etc.

"LEENOL" can support customer to build their factory, plant with design and customization. We could help do grounding system, ESD Furniture Assembly as well. "LEENOL" are agent of ESD Ionizing Equipments, ESD Inspector and Testers, and so on. More than 200 types products are provided to support customer workshop.

LEENOL has its market office based in Shanghai city, including the International Trade Department with importing and exporting right. Our customers are widely distributed in Southeast Asia, Europe, Americas and Middle East etc. LEENOL has its manufacturing bases in both Northern and Southern of China, and also have many cooperative OEM enterprises. High Quality products are well accepted by global customers and end users.

LEENOL's products are made in accordance with IEC61340-5-1 and ANSI / ESD -20.20, and are strictly produced according to ISO 9001 system, SGS and ROHS standards. And LEENOL could also provide user designed products with high quality and short lead time.

We are also sincerely looking for global distributors and partners. We hope to make win-win success and grow together with you.

Summary

- Humanized design, Comfortable and Beautiful, in accordance with the theory of ergonomics, could improve the production efficiency.
- Modular design is changeable, with various accessories for random combination.
- Standard design could meet the needs of customizing products according to the demands.
- Superior Fire-proof table-board has the features of integral ESD, fireproofing and wearing-resisting.
- Structure-optimized design of the support chooses the durable superior cold rolled steel, hard and durable.
- After the process acid cleaning, phosphating, high pressure spraying with ESD powder, the metal surface is flat and beautiful.
- The feature of integral ESD could radically eliminate the threat of the static electricity to the products.

LEENOL (through the ISO9001 Quality System Certification, ISO140001 Environmental System Certification, OHSAS18001 Occupational Health and Safety System Certification, LEENOL products are comply with the National Military Standard GJB3007-2009, sefa8m-2016 Laboratory Grade Metal Cabinet Testing Standards EN14175-1:2003, en14175-2. 2003, en14175-3:2003, eN141754:2004 Standard, Aerospace Electronics Static Protection Technical Requirements Q/A-JA119-2013, China's National Military Standard GJB3007A European Union EN61340 Antistatic Standard, SJ/T11236 and the European Union EN61457:1995+2000 Electromagnetic Compatibility Standards National 3C and EU CE certification, all Leenol steel products, with a 3-years warranty period!

ESD Anti static Standard Adjustable Workstation

- Table Support + Back Panel + Cross Bean Combination, Convenient for dismounting
- Height adjustable range:670—1120mm
- Average Static loading:500kg, dynamic loading:300kg\*All the standard workstations
- Could add ESD castors, enhancing the loading ability of the workstations with the use of strengthened metal castors.
