3. Product Description

Designed and developed as a breathable glove, MaxiFlex® Endurance™ incorporates raised micro dots to increase durability and offer more cushioning in highly repetitive applications requiring precision handling.

- **FEATURES**

- MicroFoam Nitrile coatings are compatible with light oils and will provide a good grip and excellent abrasion resistance
- Raised micro dots increase durability and offer more cushioning in highly repetitive applications requiring precision handling
- Touchscreen compatible to allow the user to operate a touch screen phone or device without removing gloves
- Knit Wrist helps prevent dirt and debris from entering the glove
- Latex free
- 360° Breathability - Patented micro-foam nitrile coating offers 360° breathability, making it the most breathable glove on the market today
- 25% Thinner - Than most foam nitrile gloves on the market while offering twice the mechanical performance
- Form, Fit and Feel - Mimics the "hand at rest", reducing hand fatigue and increasing comfort

- Latest Knitting Technology - Utilized to produce smooth and rounded fingertips, improving fingertip sensitivity
- Consistent Liner Penetration - From the nitrile, leaving only the soft liner resting against the skin
- Optimized Grip - The micro-cup finish allows for a controlled grip
- All ingredients used in the manufacturing and construction of this product are compliant with the REACH legislation
- This glove has been laundered prior to final packaging making it clean and safe for use
- The Oeko-Tex® Association has evaluated and certified this product as skin safe from the second it comes into contact with the skin
- The Skin Health Alliance has awarded professional dermatological accreditation following review of the scientific dossier behind this product
