

Yaohai Bio-Pharma

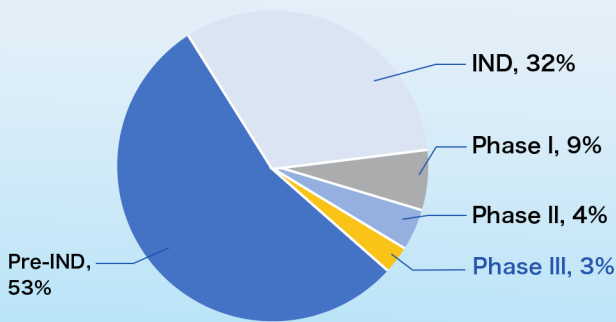

Microbial Biologics CRDMO

Yaohai Bio-Pharma provides CRDMO services such as R&D research, cell bank construction, process development, IND-CMC pharmaceutical research, GMP production of clinical samples, fill & finish, registration application, etc. to serve customers with solutions for the whole process from DNA to commercial production.

What We Do

Project Phase

Clinical Trials

- 9 in US
- 2 in EU
- 3 in AUS
- 2 in CAN

CRDMO Fields

- Therapeutics & Vaccines
- Human and Veterinary
- Aesthetic Medicine
- Diagnostics / IVD

cGMP Production Platform

7500 L Fermentation

BSL-2 Lab

Explosion-proof Facilities

Why Choose Us

15 Year Experience

EU QP Audit Passed

ISO Triple Certification

On-Site Station Available

Meets Global Regulatory Requirements: FDA, EMA, TGA, NMPA ...

One-Stop Solution

Recombinant Proteins

- GLP-1 / Insulin / GH / STH
- Single Domain Antibodies
- Cytokines / IFN / IL
- Growth Factors / CSF
- Enzymes

Vaccines

- DNA / RNA/ VLP
- Inactive Vaccine
- Live-attenuated Vaccine
- Subunit Vaccine
- Toxoid Vaccine

Nucleic Acid Drugs

- Plasmid DNA
- mRNA
- saRNA
- circRNA
- Long IVT RNA

Fill and Finish Capability

Dosage Form	Volumes	Accuracy	Batch Size	Annual Size
Vials (Liquid)	2-10 ml	±0.25%	60,000	10 million
Vials (Lyophilized)	2 ml, 4 ml		37,800	5 million
	7 ml, 10 ml	20,043	8 million	
Pre-Filled Syringes (PFS)	1 ml	±2%	20,000	8 million
Cartridges	3 ml		20,000	8 million

Biosynthetic Raw Material

Recombinant Collagen Type III

Aseptic Medical Aesthetic Materials

MOQ

10 g

Semaglutide, Tirzepatide

GLP-1 Agonists APIs

MOQ

1 g

Other Products

Botulinum Toxin

Conotoxin
