LK SERIES

WATERPROOF DISTRIBUTION BOX (IP65)

LK Series lighting box is in line with IEC-493-1 standard, attractive and durable, safe and reliable, which is widely used in various places such as factory, mansion, residence, shopping center and so on.

LK SERIES WATERPROOF DISTRIBUTION BOX (IP65)

- Panel is the ABS material for the engineering, high strength, never change color, the transparent material is PC.
- Cover push-type opening and closing
Face covering of the distribution box adopts the push-type opening and closing mode, the face mask can be opened by pressing lightly, the self-locking positioning hinge structure is provided when opening.
- Wiring design of the power distribution box
The guide rail support plate can be lifted to the highest movable point, it is no longer limited by the narrow space when installing the wire. To install easily, the switch of the distribution box is set up with the wire groove and wire pipe exit-holes, which are easy to use for a variety of wire grooves and wire pipes.

ADVANCED PLASTIC WATERPROOF BOX

ADVANCED
PLASTIC WATERPROOF BOX

Product feature

1. The connecting bolts of LK-AGS junction box are made of injection molding, which have sufficient strength when connected to the boxRupture.

2. The four-sided sliding mode is designed to combat the influence more effectively

IP level: IP67

Impact level: IK08

Temperature range: ABS-40 ~+70°C, polycarbonate (PC) : -40~+110°C

Flammability: ABS 94-HB; Polycarbonate (PC) : 94-V-0,5VA,HB

Characteristic

- ABS acrylonitrile tributadiene styrene polycarbon
- PC/ABS acrylonitrile butadiene styrene
- PC: polycarbonate
- Note: Transparent/grey

Engraving/printing/custom development services

- Engraving treatment service
Meet the various needs of customers, through the accumulation of experience on the basis of precision hole machining technology
- Screen printing and letter engraving services
Exquisite screen printing and letter engraving process, make your products more outstanding
- Non-standard custom development services
According to customer requirements, provide a variety of procedures, the development of non - standard client

GLASS PANEL INTELLIGENT LIGHTING BOX

Injecting soul into every detail, LINKWELL innovative large flat glass panel information box is an artist's passionate work dedicated to reproducing pure texture combined with cutting-edge technology, drawing inspiration from nature, allowing every eye to freeze and enjoy a wonderful and diverse warm life

GLASS PANEL INTELLIGENT LIGHTING BOX

The distribution box is a tempered glass covered metal box, mainly used for:

- The electrical installation, supporting, and renovation building electrical distribution system.
- The installation method is the combination of metal box and plastic cover, which is particularly suitable for concealed installation of distribution boxes in buildings and decoration projects.
- The fashionable appearance design is suitable for high-end residential, hotel, and office buildings that showcase modern lifestyle taste
- Products that meet the standards have first obtained 3C certification and meet the standards of GB17466.1 and GB17466.24
