Stainless Steel Lever on Rose

features:

- * Stainless steel tube lever, material grade 304
- * Rose substructure: steel, steel with tap, plastic
- * Profile spindle: 7mm,8mm,9mm available
- * Rose concealed with bolt through fixings
- * Surface: SSS (satin brushed), PSS (polished), BK (black), PVD
- * Versions: BB (key hole), PZ (cylinder hole), WC (toilet)
- * According to EN1906

Art: 2K2001 Security Alu Door Handle

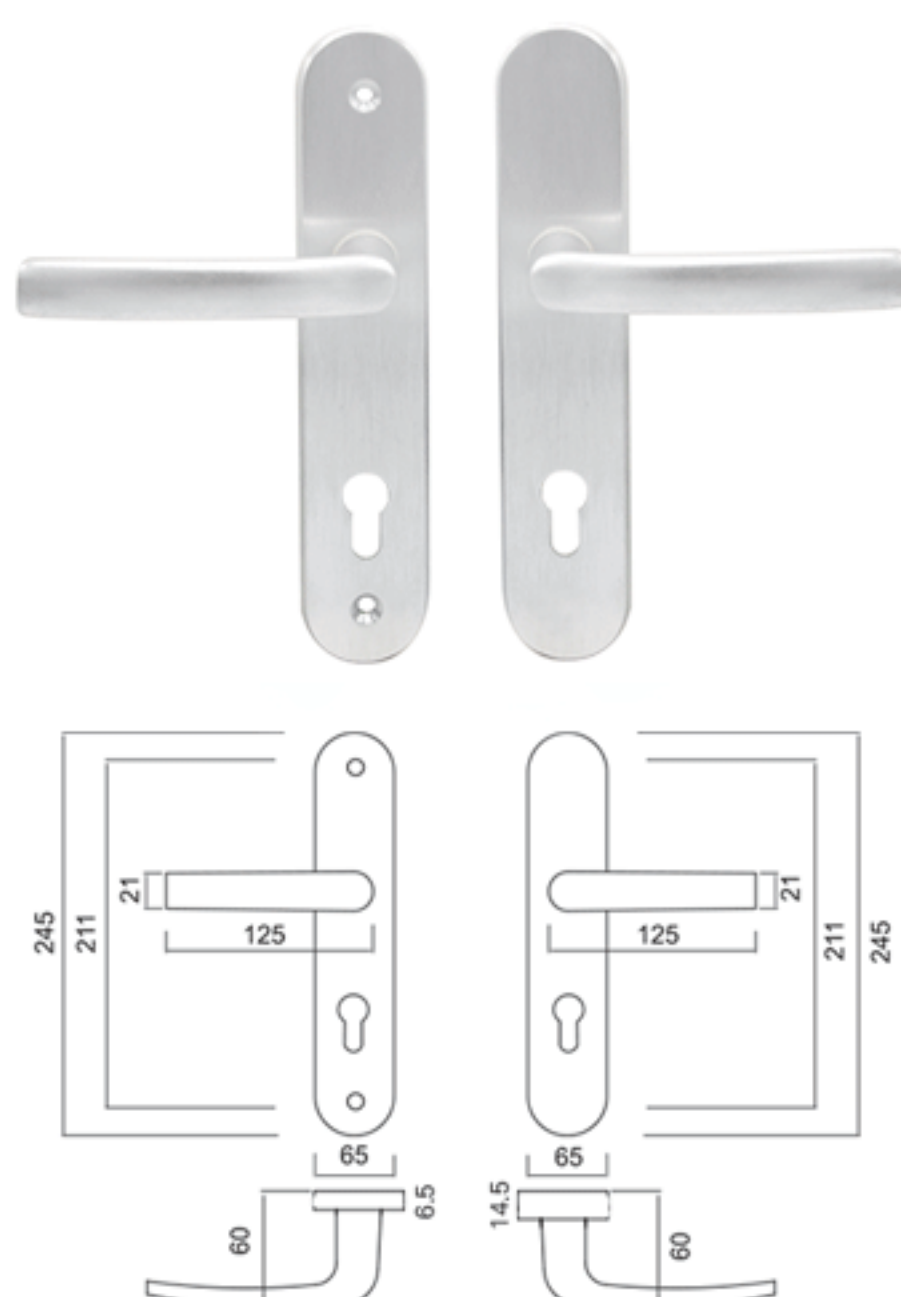

features:

- * Alu lever on solid profile shield
- * Outside fixed knob on heavy duty solid profile shield. Cylinder hole with cylinder safeguard armored metal block fixture(Knob could change left or right before assembling)
- * Inside swivel handle with normal thickness solid profile plate
- * Supplied with 8mm half spindle
- * Supplied with concealed bolt fixings
- * Surface: Silver (SAA/F1), Champagne (CAA/F2), Gold (GAA/F3), Brown (BAA/F4), Black (BK),Stainless steel color (SSA/F9)
- * According to EN1906, SKG

Euro Magnetic Door Lock 1K1167 Series

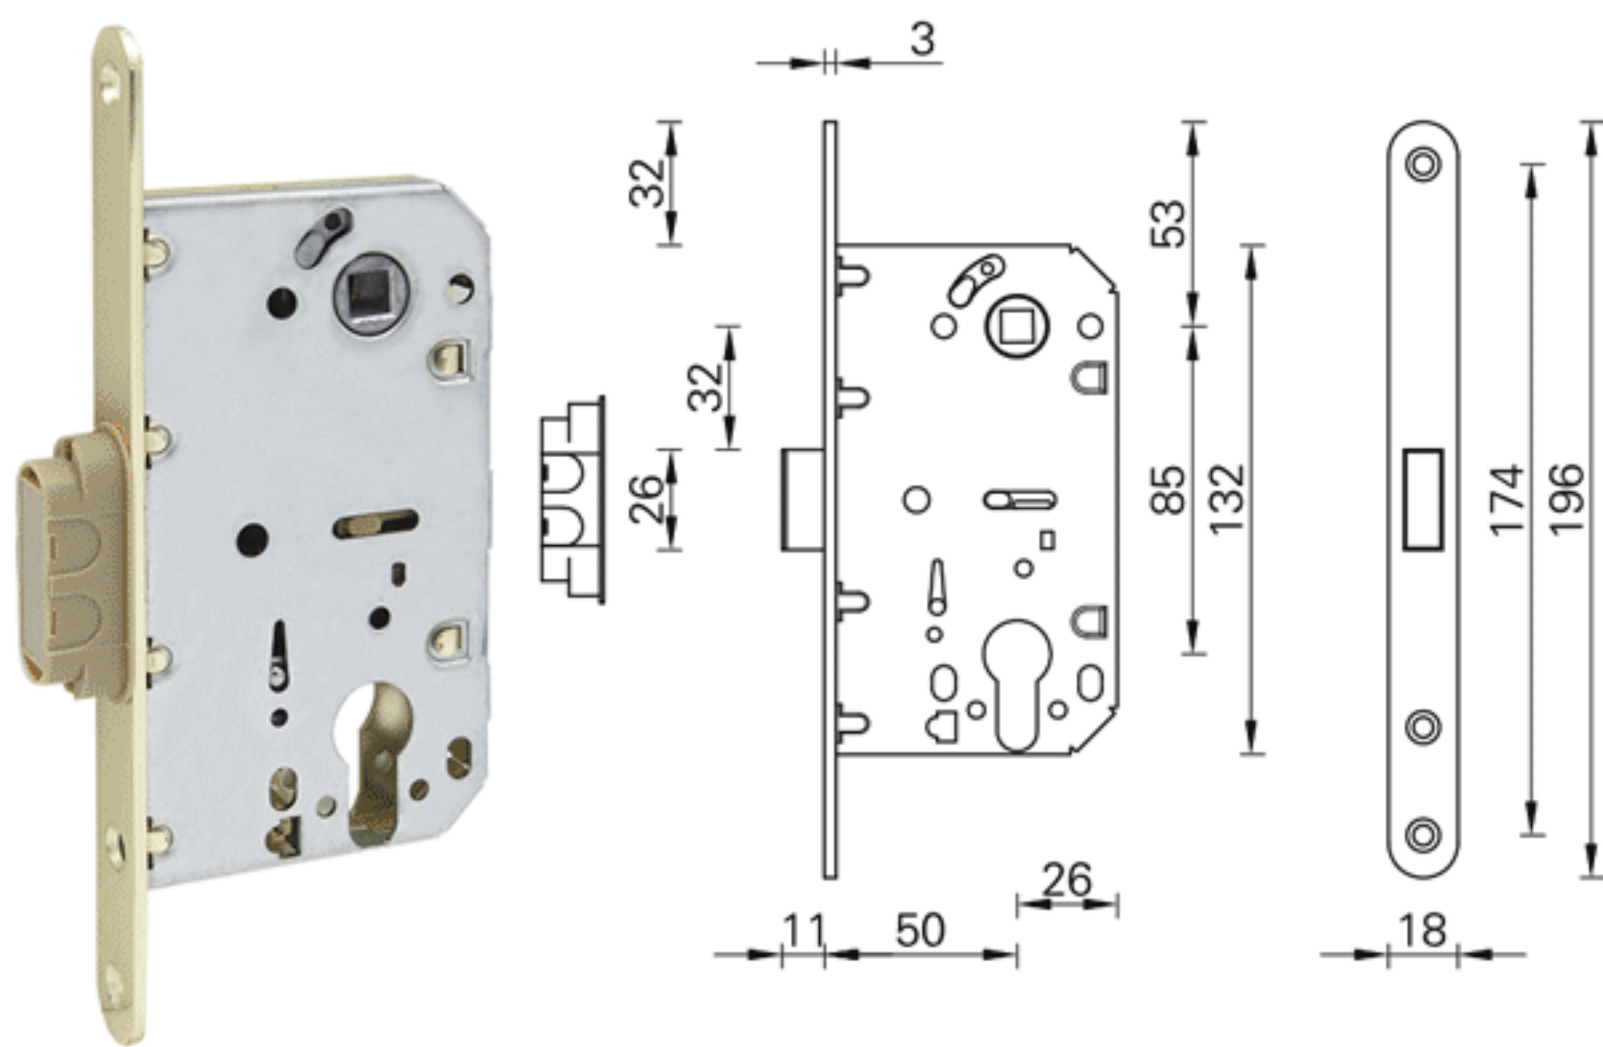

features:

- * 50mm backset, 90mm center
- * 8x8mm zamak follower
- * Case is made out of galvanized steel
- * Latch bolt made by nylon
- * Front plates made by steel or stainless steel
- * Supplied with 1pc zamac lever key
- * Fixing with nickel/brass plated screws

Model: 1K1167

Surface: SSS Grey BK GP BP

Euro Magnetic Door Lock 1K1168 Series

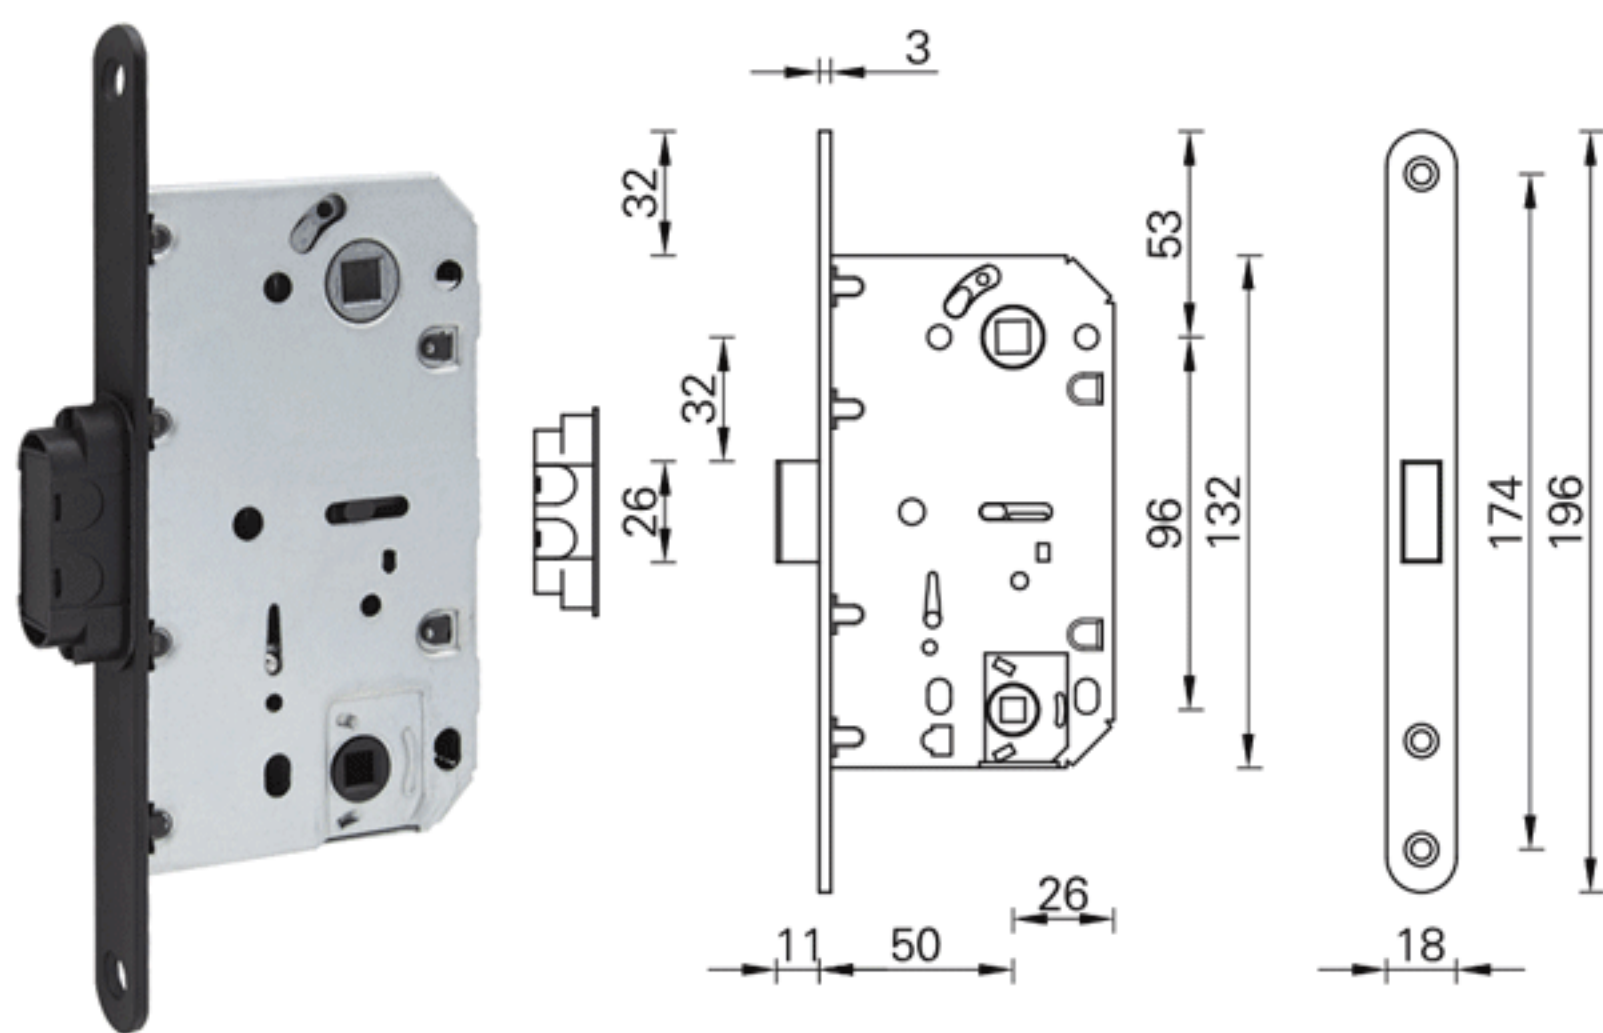

features:

- * 50mm backset, 85mm center
- * 8x8mm zamak follower
- * Case is made out of galvanized steel
- * Latch bolt made by nylon
- * Front plates made by steel or stainless steel
- * Suitable for euro profile cylinder
- * Fixing with nickel/brass plated screws

Model: 1K1168

Surface: SSS Grey BK GP BP

Euro Magnetic Door Lock 1K1169 Series

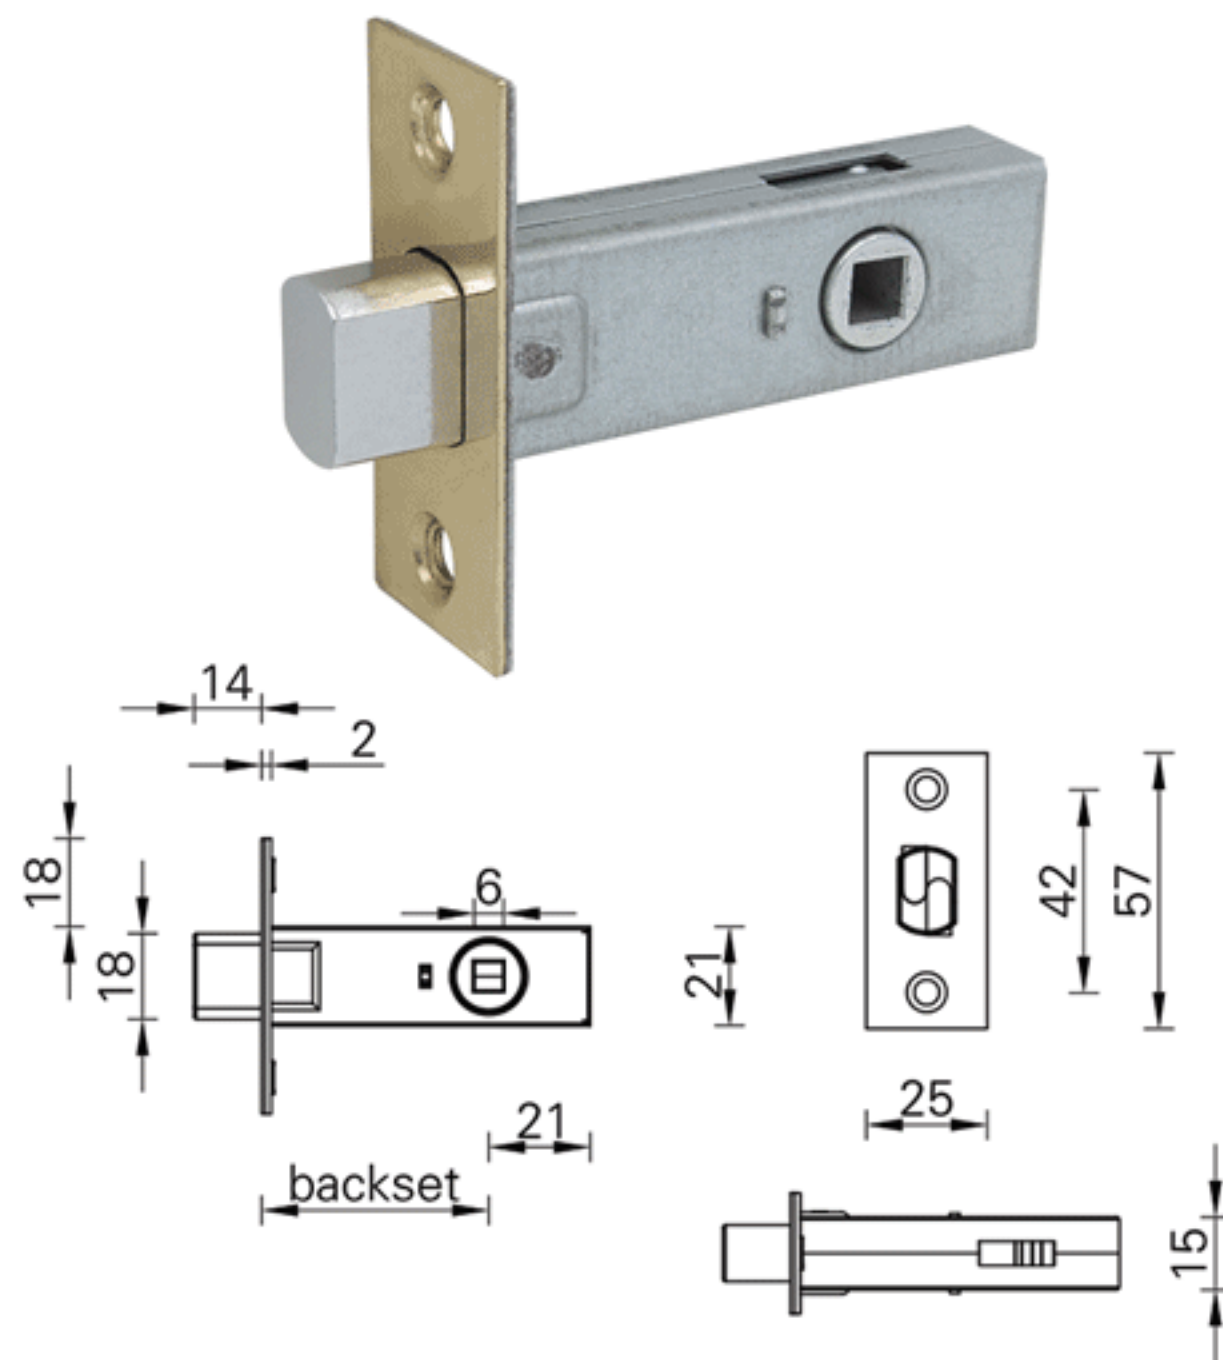

features:

- * 50mm backset, 96mm center
- * 8x8mm zamak follower
- * Case is made out of galvanized steel
- * Latch bolt made by nylon
- * Front plates made by steel or stainless steel
- * Suitable for bathroom door
- * Fixing with nickel/brass plated screws

Model: 1K1169

Surface: SSS Grey BK GP BP

Combination Spring Latch Door Lock

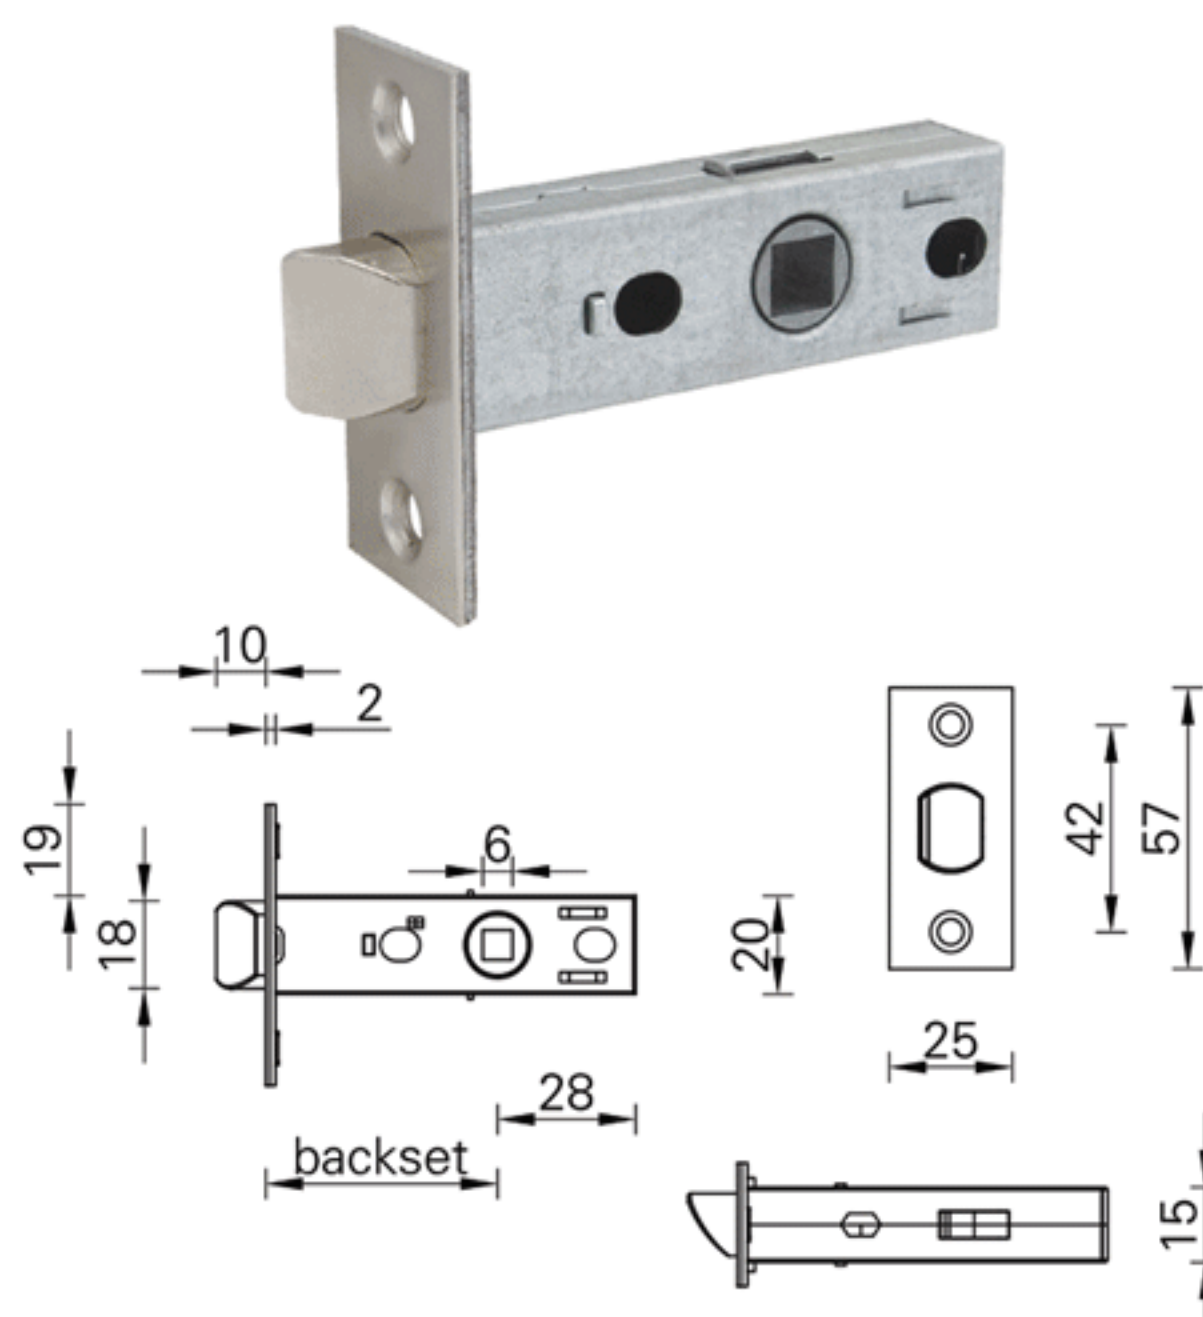

features:

- * 45mm,50mm backset
- * Lock case: galvanized steel sheet,screwless design, top and bottom cover firmly riveted together
- * Zinc alloy follower, 6x6mm, maximum swivelling angle of 90 degrees
- * Zinc alloy deadbolt, non-rebounding structure design, adaptable to left and right door installation, chrome plated
- * Square plate, inside and outside pieces riveted together,2mm thickness
- * Supplied with buckle plates, screws
- * Adaptable to ϕ 24mm ~ ϕ 28mm drilling installation

Model: 1K1183

Backset:

Euro Mortice Lockcase Tube Latch Series

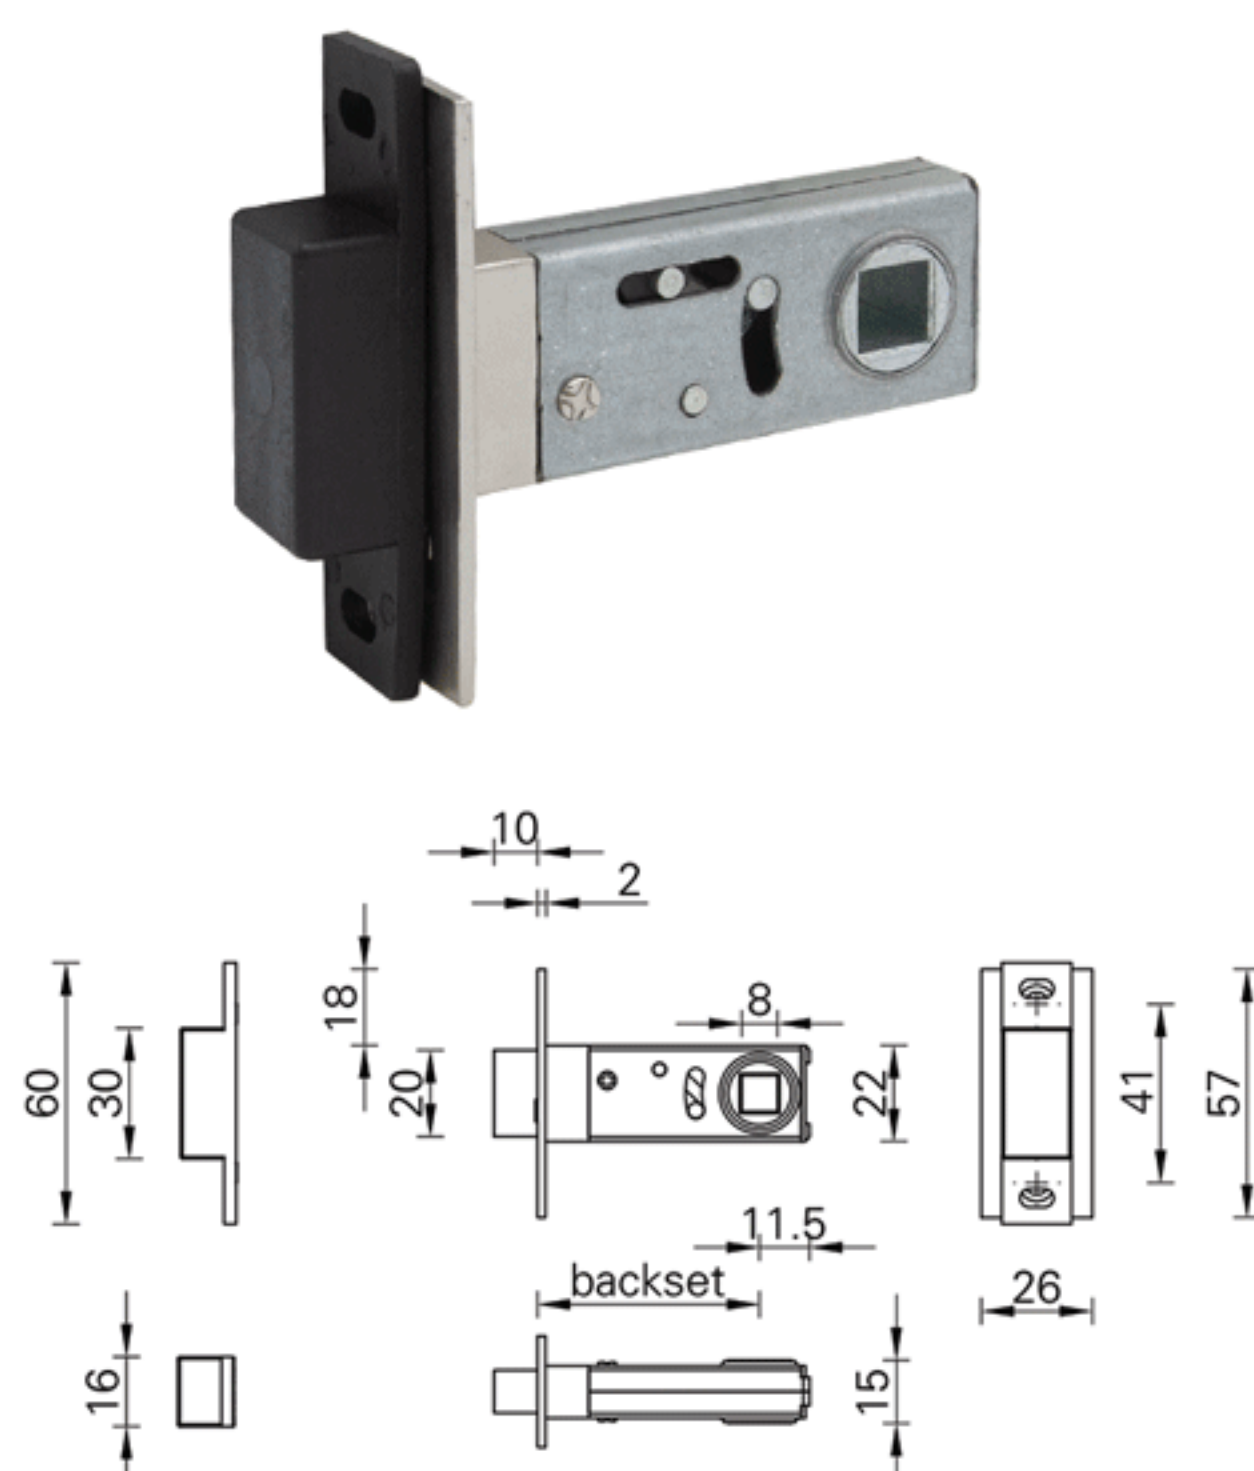

features:

- * 45mm,50mm backset
- * Lock case: galvanized steel sheet,screwless design, top and bottom cover firmly riveted together
- * Zinc alloy follower, 8x8mm, Maximum swivelling angle is ± 45 degrees, and left-right reversible installation is possible
- * Zinc alloy deadbolt, rebound structure design, chrome plated
- * Square plate, inside and outside pieces riveted together,2mm thickness
- * Supplied with buckle plates, screws
- * Adaptable to ϕ 24mm ~ ϕ 28mm drilling installation

Model: 1K1184

Backset:

Magnetic Mute Tube Bolt

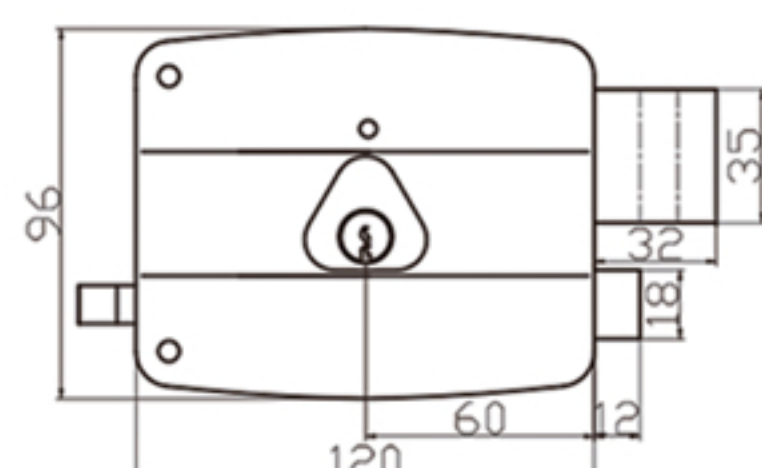

features:

- * 50mm backset
- * Lock case: 1.0mm thickness galvanized steel sheet,screwless design, top and bottom cover firmly riveted together
- * Zinc alloy follower, 8x8mm, maximum swivelling angle of 40 degrees, handles with return spring structure design
- * Magnetic deadbolt, embedded with strong suction permanent magnets, covered with black nylon strike box, adapts to left and right door installation
- * Square plate, zinc alloy,2mm thickness
- * Adaptable to ϕ 24mm ~ ϕ 28mm drilling installation

Model: 1K1185

Backset:

Rim Lock 1K1019

features:

- * 50mm,60mm,70mm backset available
- * Dead bolt with 3 turns
- * Case is made out of steel with powder coating
- * Solid brass cylinder with 3pc brass keys, long head with 6 pins
- * Lock and unlock with key
- * Right open or left open both available
- * Fixing with strike box and screws

Model: 1K1019

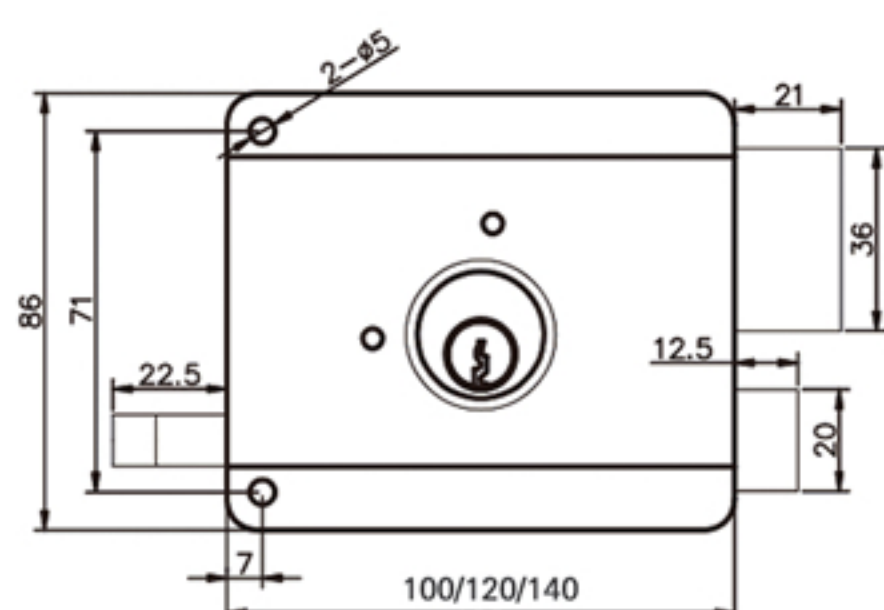

Backset:

Latchbolt:

Deadbolt:

Cylinder head:

Rim Lock 1K1022

features:

- * 50mm, 60mm backset available
- * Case is made out of steel with power coating
- * Solid deadbolt with 2 turns
- * Round shape solid brass front cylinder, and solid brass round rim cylinder with 6 pins
- * Suitable for apartment external door
- * Right open or left open available
- * Fixing with 3pcs brass keys, strike box and screws

Model: 1K1022

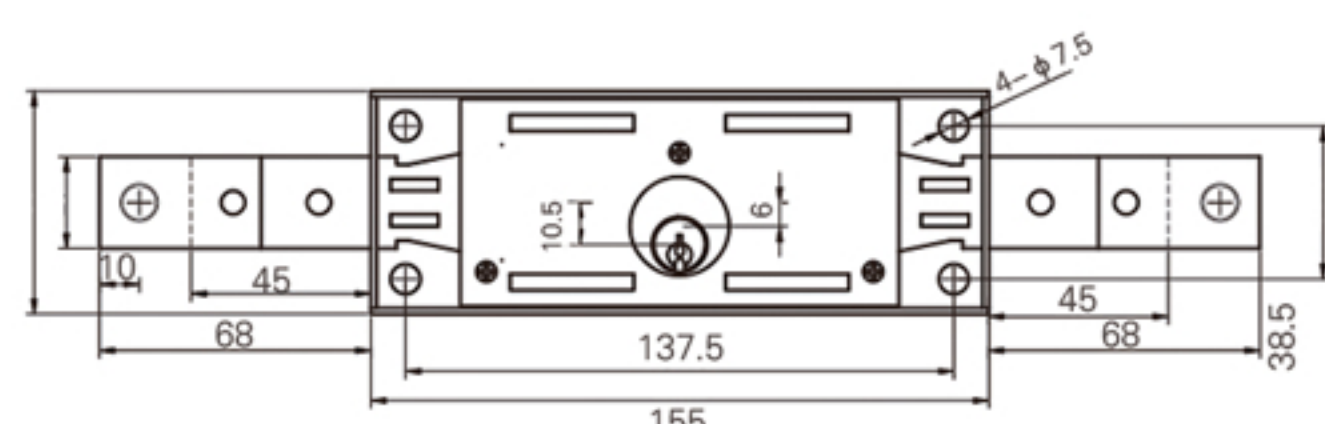

Backset:

Latchbolt:

Deadbolt:

Cylinder head:

Roller Shutter Lock 1K1148

Left

Right

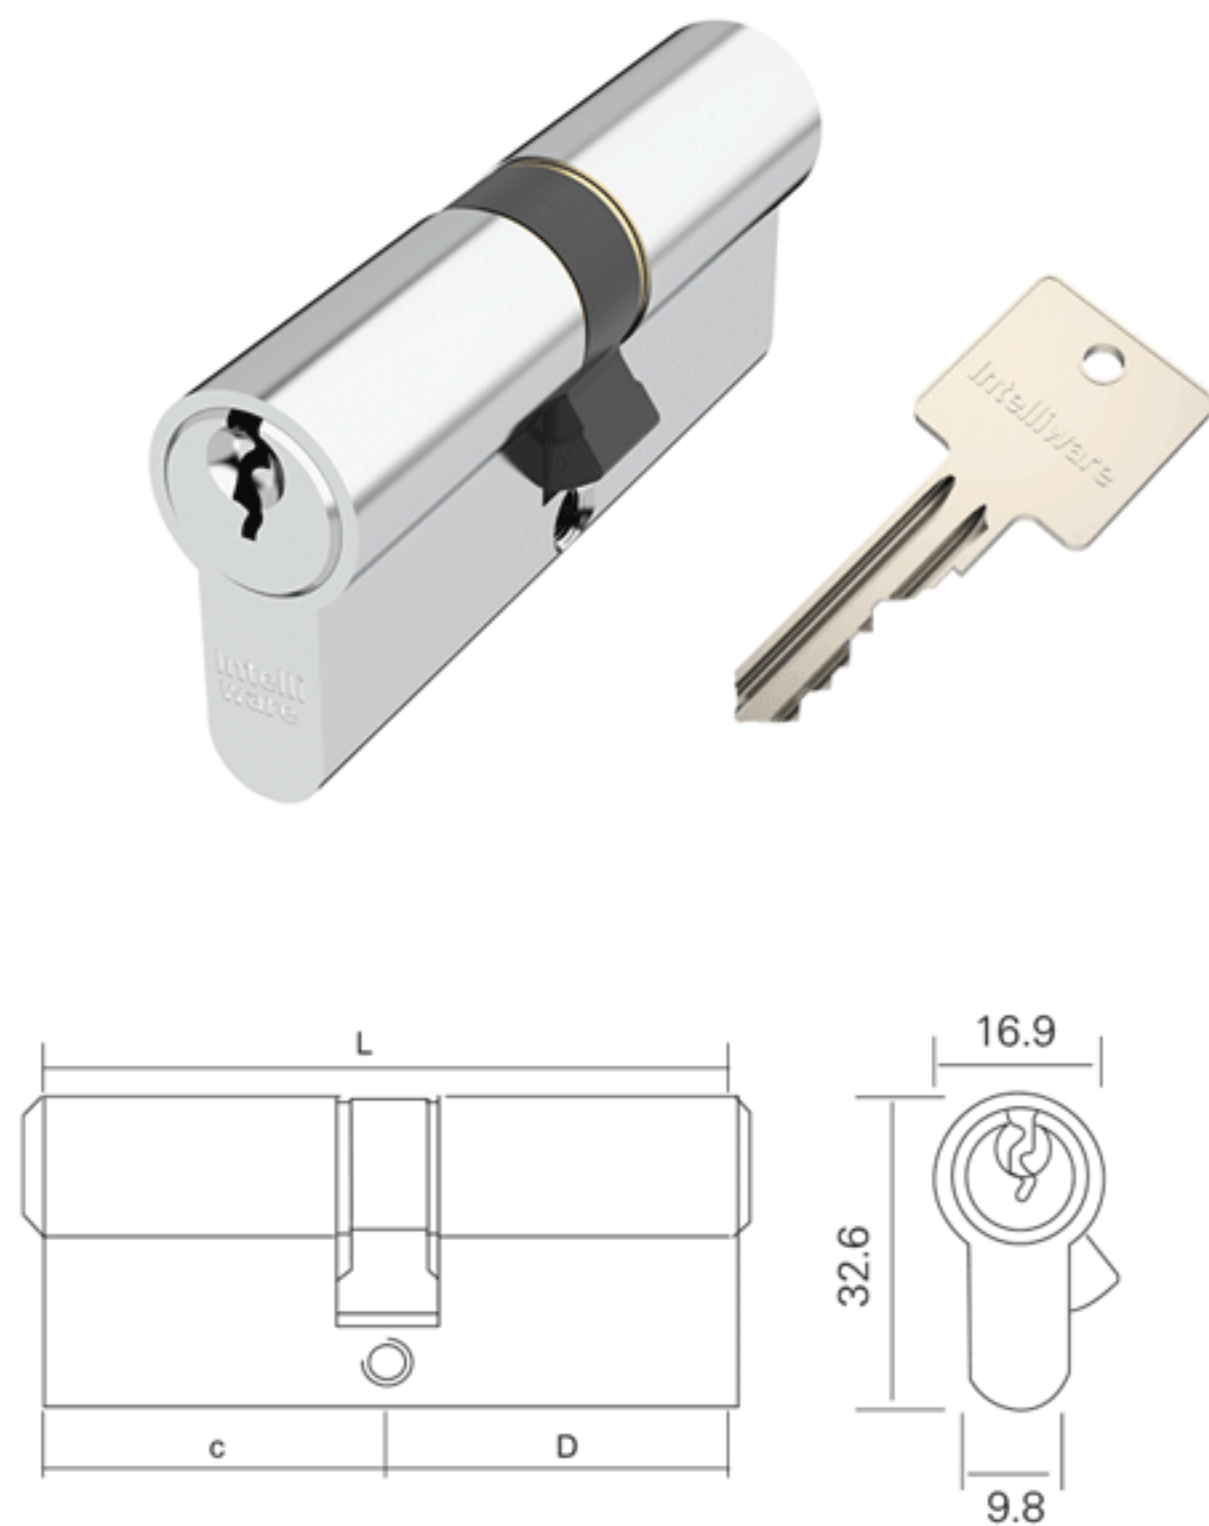

features:

- * Latch made out by galvanized steel , with 3 turn
- * Case is made out of galvanized steel
- * Solid brass cylinder with 3pc brass keys
- * Lock and unlock with key
- * Single right latch or single left latch also available
- * Fixing with screws

Model: 1K1148

Function:

Euro S Groove Brass Security Cylinder

features:

- * Cylinder and Pins are made out of solid brass.
- * Cylinder is with 5 or 6 pin.
- * Cylinder length is normal from 60mm to 120mm(longer size is also available)
- * Cylinder groove is European standard S series groove.
- * Supplied with 3pcs brass nickel plated S groove keys
- * Supplied with M5 x 50mm nickel plated steel bolt (longer bolt available)

Euro Half Cylinder–8 Position Cam/12 Position Cam

with tool free 8 position cam

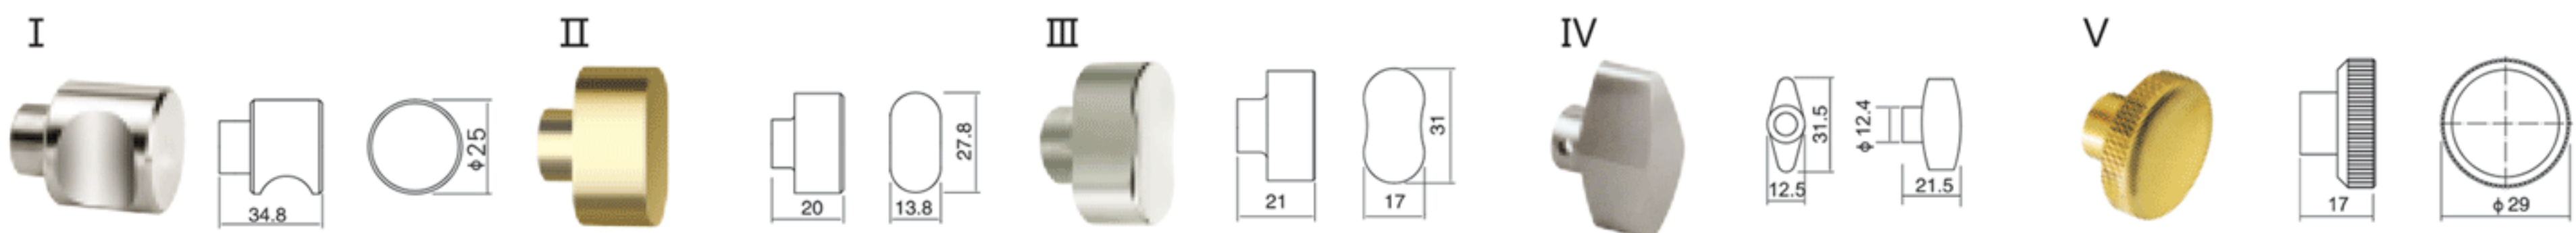

- Model : 1K2202
- features:**
- * Cylinder are made out of solid brass
 - * Cylinder cam is 8 position cam
 - * Cylinder is with 4 pins or 5 pins or 6 pins
 - * Cylinder groove is European standard S series groove or European flat series groove
 - * The popular surface treatment are nickel plated (NP), brushed satin nickel (BSN) etc.

with usual 12 position cam

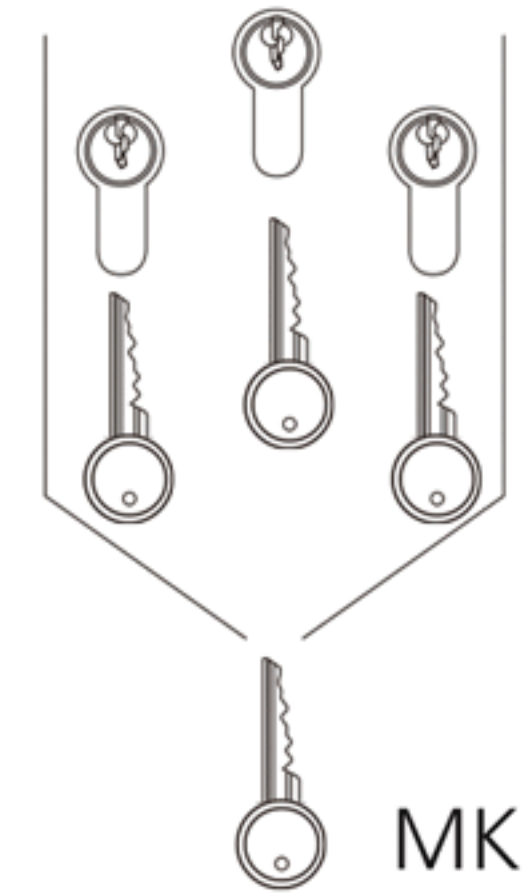

- Model : 1K2203
- features:**
- * Cylinder are made out of solid brass
 - * Cylinder cam is 12 position cam
 - * Cylinder is with 4 pins or 5 pins or 6 pins
 - * Cylinder groove is European standard S series groove or European flat series groove
 - * The popular surface treatment are nickel plated (NP), brushed satin nickel (BSN) etc.

Popular Thumb Turn Style

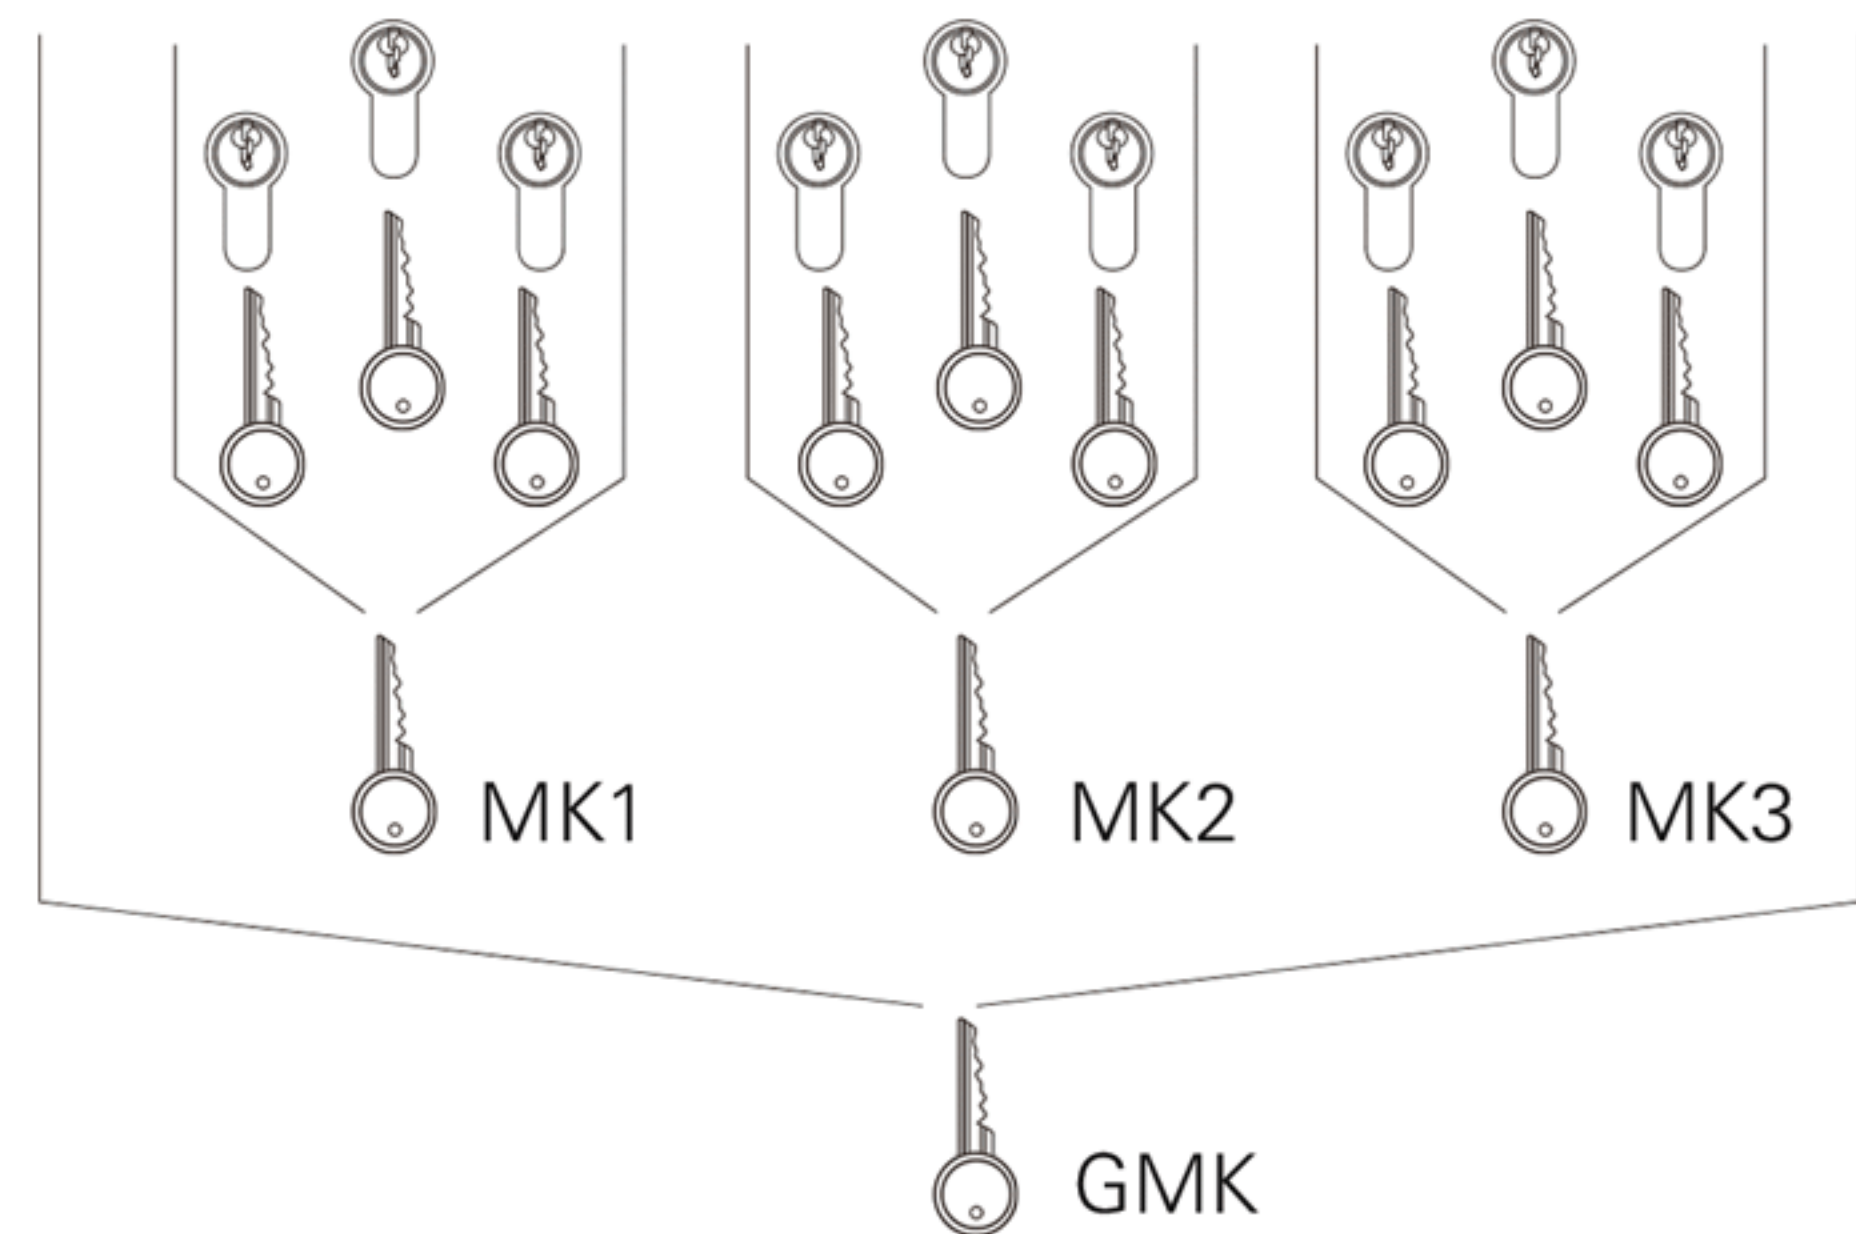

Master Key System

In a master key system, a master key opens all the cylinders in the system
Each cylinder also has its own unique key

General Master Key System

Similar to a master key system
Provides one general master key for several master key system

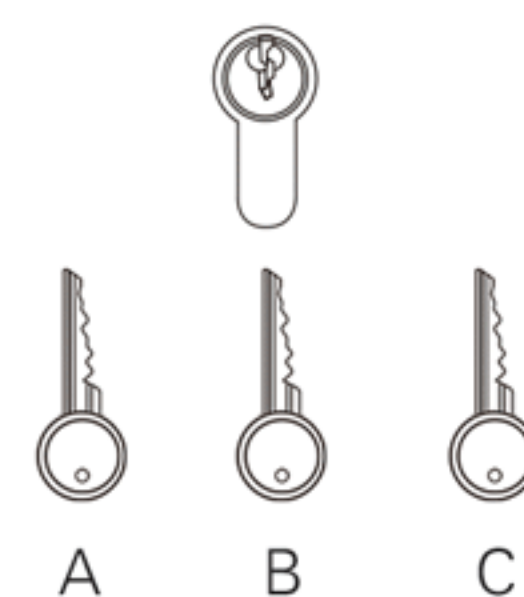

A.B Construction Key System

When B key is used, A key cannot open the cylinder again

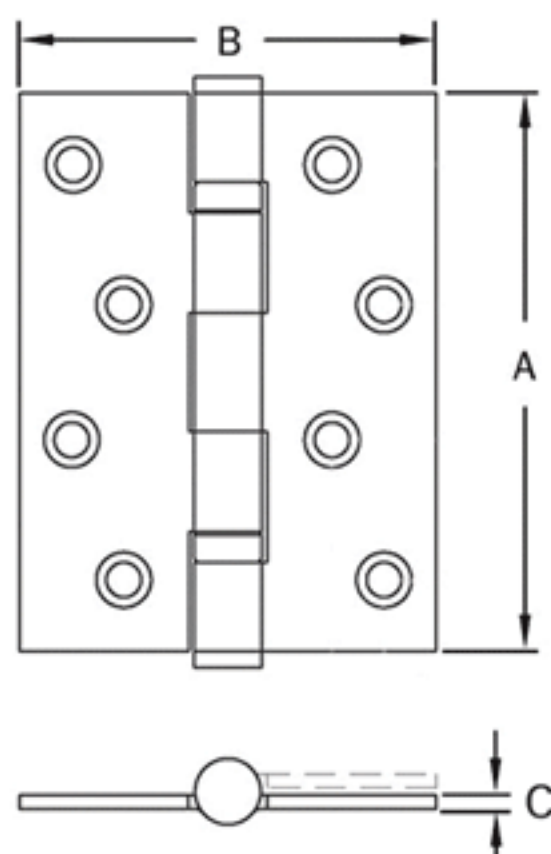

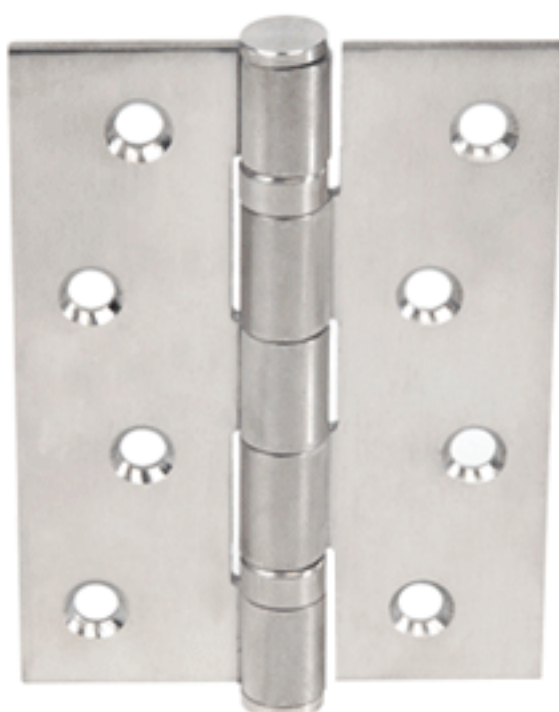

A.B.C Construction Key System

When B key is used, A key cannot open the cylinder;
when C key is used, A key and B key cannot open the cylinder any more

Square Butt Hinge With Ball Bearing

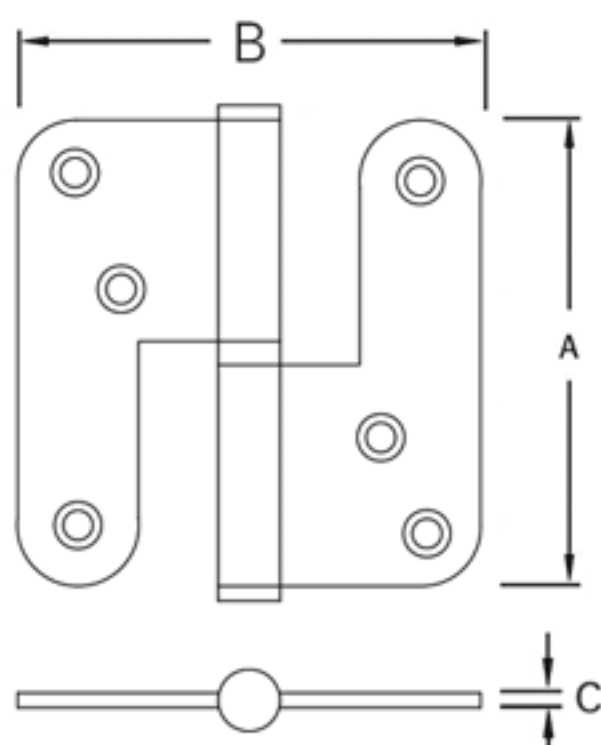

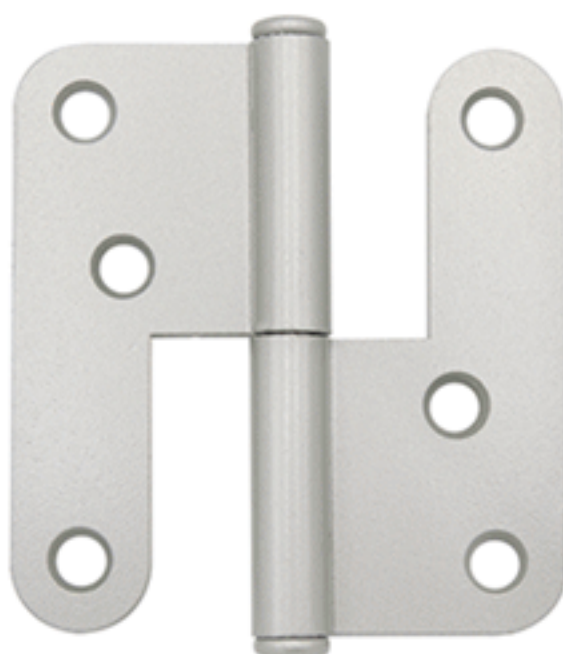

- features:**
- * Square butt hinge with flat head
 - * Supplied with 2 or 4 ball bearing
 - * Material in mild steel or stainless steel
 - * Accept special order of adding a grub screw in spindle tube
 - * Supplied with flat head screws
 - * Maximum load door weight: 80–120 kg
 - * Hinge according to EN1935 Grade 9/11/13 are also available

- surface available:**
- | | | | | | |
|-----|--------------------------|-----|-------------------------|-----|----------------------|
