

Forever Medical

Portable Electrocardiograph ECG EKG 12 Lead Machine

FEATURE:

1. Clear: 10.1 inch (1020 ×600) color RFT LCD with touch screen rapid preview of ECG waveform before printing
2. Informative: Seamless connection with HIS, WLAN/LAN connection for data transmission via ftp. Data output in format of FDA-XML, DICOM, DAT, BMP, JPG, SCP
3. Professional: ECG algorithm certified by AHA/MIT/CSE database& 30 years application. Particular ECG analysis as per age difference
4. Simple: One touch operation via touch screen or key strike. Compatible with external VGA, PC keyboard, mouse and bar code scanner
5. With simultaneous 9/12 lead acquisition, real time waveform freezing
6. Applicable to recording of Z-fold/roll type. Multiple print our format of 3/4/6/7/9/12 channel
7. Portable design
8. Separate ECG recorder, accurate pacemaker detection.

Leads	9/12 leads simultaneous acquisition
Sampling rate	16000Hz/ channel/ second
A/D resolution	24 bits
HR range	30-300 bpm
Time constant	≥3.2s
Polarizing Voltage	+/- 600mV
Input Impedance	≥50M
Frequency Response	0.01-300Hz
Noise Level	≤12.5uV (p-p)
DFT Filter	0.01/0.05/0.32/0.67 Hz
EMG Filter/ Low pass	25/35/45/75/100/150/270/300 Hz
Pacemaker Detection	Amplitude: +/-750uV--+/-700mV, width 50us-2.0ms, Sampling Frequency: 16000 HZ
LCD Display	10.1 inch TFT color LCD (1020*600) with touch screen
Power Supply	AC input with external power adaptor of 100-240V, 50/60Hz rechargeable lithium battery (4400mAh) supporting 400 exams
Recording Speed	5/6.25/10/12.5/25/50mm/s
Recording Paper	Z-fold 210*295mm*100 sheets, Roller type 210mm*20/30m
CMRR	≥120dB

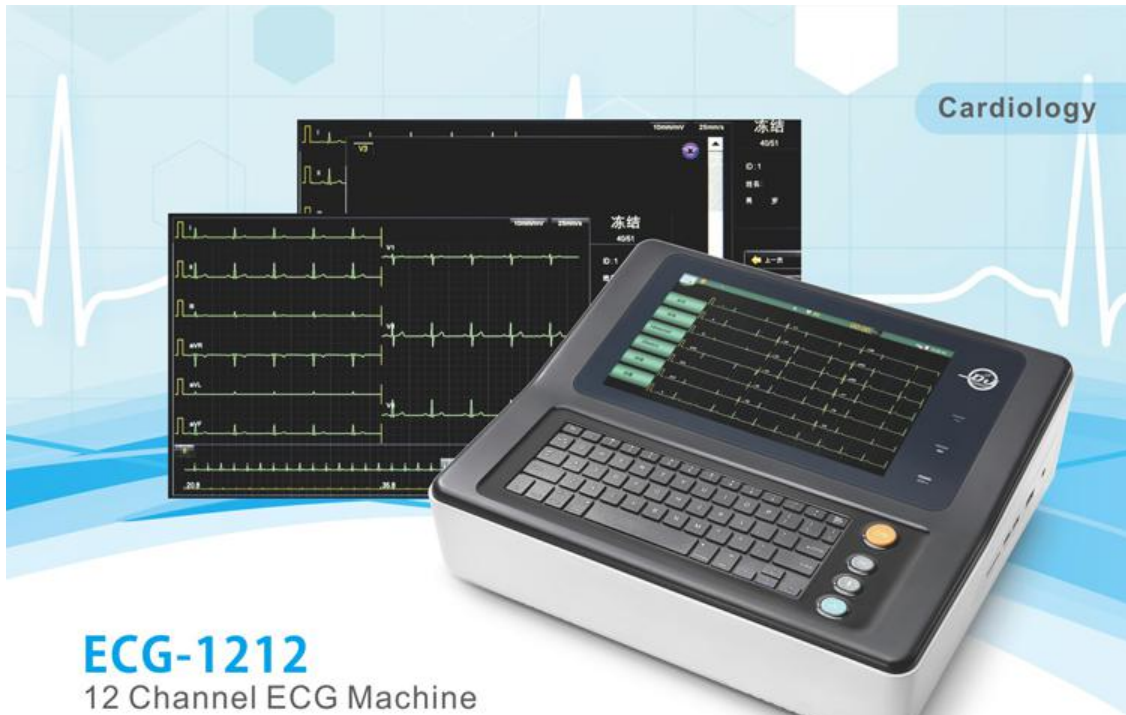

One touch operation via touch screen or key strike. Compatible with external VGA PC keyboard, mouse and bar code scanner With simultaneous 9/12 lead acquisition real time waveform freezing

Seamless connection with HIS, WLAN/LAN connection for data transmission via ftp. Data output in format of FDA-XML, DICOM, DATBMP, JPGSCP Separate ECG recorder, accurate pace maker detection.

Forever Medical

ECG-1212

12 Channel ECG Machine

Clear

10.1 inch (1024x600) color TFT LCD with touch screen
Rapid preview of ECG waveform before printing

Professional

ECG algorithm certified by AHA/MIT/CSE database & 30 year application
Particular ECG analysis as per age difference

Informative

One touch operation via touch screen or key strike
Compatible with external VGA, PC keyboard, mouse, bar code scanner

Simple

Seamless connection with HIS
WiFi/LAN connection for data transmission via ftp
Data output in format of FDA-XML, DICOM, DAT, BMP, JPG, SCP

- * Software upgradeable via USB port
- * Memory of 1000 exams supporting USB copy
- * Intelligent self test & adjustment

Forever Medical

- * Networking capacity with external printer
- * Advanced tools for data management
