ABOUT USING:

Before making bread for the first time, water the basket with a kettle to moisten it, then dust it with flour, then pour off the floating powder and let it dry (do not wash it after drying). Before the next use, dust with flour. For the first few uses, sprinkle the basket with slightly more flour to make it easier to remove the dough.

ABOUT SMELL:

This product is made of imported natural Indonesian rattan. At the beginning, it may have a slight sour taste of natural rattan, which is normal. The taste will gradually disappear after a period of use. Please minimize the number of times to wash the basket. After washing, please dry the basket promptly to prevent mildew. Hand-made products cannot avoid burrs, gaps in joints, and slight deviations in color interfaces

ABOUT SHAPES:

Natural rattan pure manual preparation, each is slightly different, the surface may exist rattan silk warping, can be stripped by hand, does not affect the use. Because the rattan basket is not a rattan woven in the end, there will be obvious seams in the connecting place, and there may be a deviation of 3-5mm in the manual preparation size.
