Corporate culture

Greensee does not seek rapid development, but relies on sincerity and strength, single-mindedness, dripping through stones, which is also the cornerstone of Greensee's corporate culture. In addition, Greensee advocates a positive and healthy life, integrates it into our daily work and life, spurs and leads us forward.

LEARNING

For 20 years, employees have gone china and abroad to learn advanced experience every year.

The company organizes further education and training for employees, and regularly holds reading clubs within the company, which enables us to maintain a forward-looking vision and walk in the forefront of the industry.

RUNNING

The company encourages employees to run and clock in every day. In addition, the "21-day Challenge" running event is held every year, Organized the Vanke City Music Run, and participated in the "Songya Lake Half Marathon".

The reason why we attach so much importance to running is to remind everyone to pay attention to your health and maintain a running posture, and strive to be the first.

Gensheng has been working for 20 years, from simple processing to intelligent manufacturing, from experience construction to installation method structure; from the separation of manufacturing and assembly to the dynamic linkage of the factory; from responding to demand to leading the market; from small to large, from regional to national, from learning to go beyond...

During the period, we worked together as a team, received social support and customer trust.

In the meantime, we also realized that "less is more" and "slow is fast", we rely on sincerity and the power of time, and we are single-minded, dripping water through stone. All Greensee people should be deeply grateful and remembered.

Just like mountain climbing, what Greensee has just arrived is like a snow line. Above the snow line, the thinner the air and the greater the dangers, The thinner the air, the greater the danger. Only by stepping out continuously can you finally appreciate the beauty of the snow line, the beauty of the sky, and the prosperity of the landscape.

greensee stretches and lasts for 20 years, we have been unswerving and dedicated to producing doors and windows;

Greensee is recognized by all sectors of society and brings comfort and security to tens of thousands of families every year.

Good doors and windows can promote the livability of buildings and improve people's well-being.

So please let us become better together in the name of time and life.

HE HAI YIN

GREENSEE CHAIRMAN
