

LINKWELL ELECTRIC is a professional company engaged in low voltage electrical products for switchgear board and automation industry , such as panel ventilation fan filter,heater, thermostat,control transformer,terminal blocks,wiring duct and other panel accessories.

Through our decades' efforts and development LINKWELL now becomes a group company with several factories by entirely holding or partly holding ,not only self-production but also few trading,in order to provide one- stop-solution of panel accessories for panel builder.

Our main markets are European countries, Americans, Middle East, South Asia and China, you can find us in more than 100 countries all over the world, well-known with good reputation in the market for the sake of our sustainable quality and competitive prices, kind and prompt services to clients,our main partners are those reputable companies like: ABB,SIEMENS,SCHNEIDER ROCKWELL automation,CHINT.

LINKWELL ELECTRIC policy is to offer a full support to Clients:

- pre-after sales assistance
- customized products
- fast delivery
- monitoring customers' satisfaction

Rather than a supplier, LINKWELL ELECTRIC aims to be a Client's industrial PARTNER

our company always pays special attention to protecting the benefits of clients' so that both of us can gain the better benefits from the relations between us.

We warmly look forward to establishing, reinforcing and expanding long term fruitful relationship with the reliable clients all over the world.

Let's get busy and pull together to create a better future!

Innovation Quality Global

COMPANY MISSION

To win respect of "Made in China" from the world

COMPANY VALUE

Realize the dream for employees
Create value for customers
Take responsibilities for the society

COMPANY VISION

To be a global and well-known brand,
one stop solution supplier for electrical cabinet components

APPLICATION AREA

- **Wind power:**
Wind power is the conversion of wind kinetic energy into electrical energy. As a clean and renewable energy source, wind energy is receiving more and more attention from all countries in the world.
- **Charging pile:**
The Chinese government actively promotes the application and development of new energy vehicles, and the replacement of power stations as an important supporting infrastructure necessary for the development of electric vehicles has very important social and economic benefits.
- **Automatic robot:**
The cutting-edge technology of the industry is AI (Artificial Intelligence), an intelligent robot. Automation is the general trend of the future society, and it is more and more closely related to communication engineering and CS (computer science).
- **Photovoltaic:**
The main principle of photovoltaic power generation is the photoelectric effect of semiconductors. When a photon is irradiated onto a metal, its energy can be completely absorbed by some electron in the metal.
- **High and new technology industry:**
The high-tech industry mainly includes three major fields: information technology, biotechnology and new materials technology.
- **Cabinet and electrical complete set:**
As an important supporting infrastructure for the development of electric vehicles, charging and replacing power stations have very important social and economic benefits. LINKWELL ELECTRIC products are widely used in the charging pile industry, making the equipment more stable and efficient in operation.
- **Infrastructure**
Provide all-round service for customer's system integration solution.
