What Our Beginnings Looked Like

Since 2005, Suzhou Ocan Polymer Material Co.,Ltd. has established itself as an extraordinary plastics company with a defined niche in the global marketplace. We are dedicated in delivering various plastic products with high quality to your specifications and at highly competitive pricing.

Suzhou Ocan Polymer Material CO,.LTD.
No.68 Shiyang Road New&high-tech Development
District Suzhou City 215151,China

Our History

Suzhou Ocan Polymer Material Co., Ltd. is located in the New&High development district of Suzhou with registered capital 35million. OCAN is mainly engaged in R&D, manufacturing and sales new materials such as PET. Currently, our product are well sold at home and aboard, obtained the general customers consistent approval and praise.

Our Mission

"Honesty""Pragmatic""Innovation""Win-Win"
" These are our philosophy and service aim. Hope we can establish a stable and long term business relationship to make our business develop together.

Our Vision

Establish OCAN as an extraordinary plastics company with a defined niche in the global marketplace.

Factory Direct Supplier

21 production lines
Annual output of 50000 tons and more
Highly competitive price

Professional Experience

18 years of experience in plastic industry
Own independent R&D labs
4 professional sales teams
Annual sales of 400 million and more

Attentive Service

24 online contacting service
Completed after-sales service

Quality Assurance

Imported materials from LG enterprises
Strict quality control
200+ skilled workers

What Our Present Looks Like

Suzhou Ocan Polymer Material Co., Ltd. located in Jiangsu, China, is a company mainly engaged in manufacturing PVC&PET Sheets and Rolls with high quality. The major products of Ocan are widely applied in printing, packaging, vacuum forming, stationary, decoration and other industrial areas. Currently, Ocan has held 4 factories, 21 advanced production lines and 200+ workers, which contributes to the annual capacity achieving 40000 tons.

Since 2005, Ocan has established itself as an extraordinary plastics company with a defined niche in the global marketplace. The clients we've served are from more than 59 countries including Europe, South America, South Asia, East Asia, the Middle East. So if you are interested in Ocan or any of our products, pls feel free to contact us. We are looking forward to forming successful business relationships with new clients around the world in the near future! We will be continuously striving to provide you the best service and high-performance products.

Series

PVC Sheet and Roll

PVC sheet and roll is commonly used for blister, folding box, vacuum forming, thermoforming and bending, because it has high optical clarity and excellent plasticity. When $d \leq 3\text{mm}$, luminousness $> 88\%$, Our products are of high transparency, without any crystallization point or fisheyes and of good impact resistance. We can add PE protective films for our products. Main Application: Folding box, Vacuum forming, Thermo forming, Printing, Drum Wrap, Electron packaging and Building materials etc.

We Present

Our Certifications

Our products are of high quality and meet all industry standards and regulations including ISO9001, ISO14001, SGS, RoHs, REACH and 6P tests.

ISO 14001

ISO 9001

As a reputable manufacturer of high-quality PVC sheets and rolls, I do believe that our products and services will meet your needs and exceed your expectations.

A range of certifications to ensure the safety and durability of the plastic products.

Key Certifications

ISO 9001/ISO 14001: These certifications confirm that our products meet international quality standards and that our manufacturing processes are efficient and effective.

RoHS: Our products are compliant with the European Union's Restriction of Hazardous Substances Directive, which restricts the use of certain hazardous materials in electronic and electrical equipment.

REACH testing is a type of chemical analysis that is used to evaluate the safety and potential risks associated with chemical substances. This testing is conducted in accordance with the European Union's REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulations.

Overall, our plastic products are certified and tested to offer our customers the highest quality and safest products possible. We are committed to continually improving our products and processes to ensure that we meet the evolving needs of our customers.

We would like to explore the possibility of supplying PVC and PET to your project and would be happy to provide you with a competitive quote. Thank you for considering our proposal. We look forward to the opportunity to work with you.

TEAM

OUR TEAM MEMBERS IN OCAN POLYMER

Team of Workers

Our plastic factory is composed of a team of around 200 workers, who are responsible for mixing, producing, and packaging PVC, PET, and other plastic product lines.

In addition to our production team, we also have a dedicated research and development team that focuses on developing new and complex products.

Our factory is committed to providing high-quality plastic products to our customers, and our skilled workers and advanced production technology ensure that we meet this goal every day. Whether you need custom plastic products or standard items, our team can provide you with the solutions you need.

We value our workers and are committed to providing them with a safe and comfortable working environment, as well as competitive wages and benefits. We believe that by investing in our workers, we are investing in the success of our factory and the satisfaction of our customers.

In short, our factory's success is due in large part to the hard work and dedication of our workers. We are proud to have such a talented and committed team, and we look forward to continuing to work together to achieve even greater success in the future.

Together, We Create a Unique
Working Atmosphere
in Ocan Polymer

Sales Team

Our foreign trade team is dedicated to providing exceptional service to our customers. We understand the importance of being available 24/7 to address any issues that may arise and work tirelessly to find solutions that meet our clients' needs.

Beyond our commitment to service, we also strive to build friendly relationships with our customers in our daily interactions.

Our team understands that success in business is not just about completing transactions, but about fostering trust and building lasting partnerships. With our customer-centric approach, you can trust that we will always go above and beyond to ensure your satisfaction.

At our company, we understand that building strong relationships with our clients is essential to our success. That's why our sales team works closely with each client to develop customized solutions that are tailored to their unique needs and preferences. Whether you're looking to source products from overseas or expand your business into new markets, our team is here to help you every step of the way

Team of Operations and Graphic Designers

Our operations team works tirelessly to ensure that the platform is running smoothly and efficiently, with minimal downtime and maximum uptime. Our graphic design team creates stunning visuals, graphics, and other design elements that enhance the user experience and make our platform stand out from the competition. Together, our operations and graphic design teams are the backbone of our online platform, ensuring that it remains a reliable, user-friendly, and visually stunning destination for our customers.
