

# Membership Card

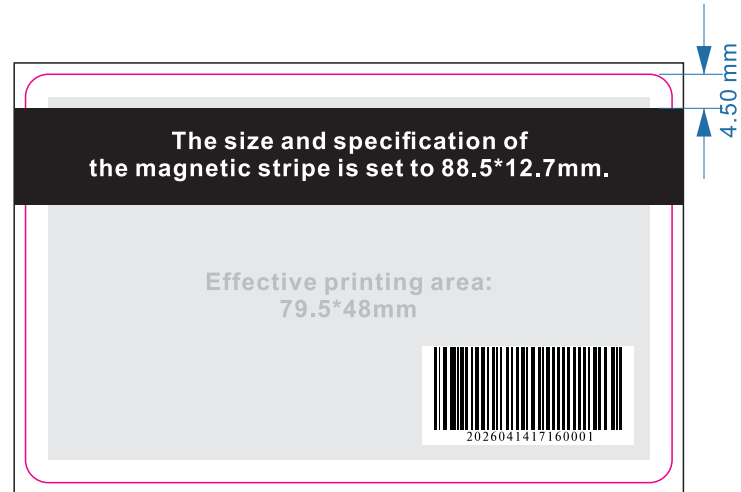

— Bleed line      The number of raised digits can be up to 16.  
— Finished line      (Too many digits may cause the card to bend)

The size of the large embossed code is 18-point font, positioned at least 6mm away from the finished product edge. It can only be printed horizontally in one row, and only numbers are allowed, with a maximum of 16 digits. The thickness of the card cannot exceed 0.76mm. The card must be of standard size, 85.5\*54mm, and its position should refer to the above picture!
