PRODUCT MANUAL FOR CIRCULATING WATER TREATMENT EQUIPMENT

Features:Efficient,Perfect,Excellent

Service tenet:Quality First,Customer First

Business Philosophy:Integrity,Professional,Service,Win-win

We have been focusing on the design, development, and production of circulating water treatment equipment, providing customers with system solutions and equipment solutions

CONTENTS

■ Integrated water purifier.....01	■ Sand tank filter.....19-24
■ Integrated copper silver ion purification system...03	■ Sand tank fittings. 25-26
■ Buried integration.....05	■ Circulating water pump. 27-30
■ Automatic backwash controller.....07	■ Hydrotherapy equipment. 31-34
■ Copper silver ion sterilizer.....09	■ Underwater light. 35-38
■ Dosing pump. Salt chlorine generator.....10	■ Protein skimmer. 39
■ Multi-parameter on-line water quality monitor.....13	■ Degassing tower. 40
■ Low pressure UV sterilizer.....15	■ Quicksand filter. 41
■ Medium pressure UV sterilizer.....16	■ Oxygen cone. 42
■ Ozone adsorption tank.....17	■ Swimming pool accessories. . 43-46
■ Lentil filter.....18	■ Swimming pool diagram. 47-48

Integrated pool water purifier series

Professional water treatment equipment solutions

Take it home and escort
your pool water quality

→ Good equipment,
let you enjoy the beauty of the water

Product Features

- Equipped with filters, water pumps, disinfectors, electric valves, etc
- Configuration can be selected according to needs
- Equipped with automatic filtering/backwashing, disinfection, and water quality monitoring functions
- Equipped with fault protection and alarm functions
- Monitor and display water quality status such as pH/ORP and temperature
- Small footprint; Easy to install, labor-saving, and easy to operate with peace of mind
- Suitable for private villa swimming pools, homestay swimming pools, massage pools, etc

Strong water purification

YOUR PERSONAL POOL BUTLER

Water quality manager

Save time, effort and worry

Model & size

Copper silver ion purification and filtration system

PROTECTING WATER QUALITY

No toxic side effects
safe and reliable

Good for pool water quality

Function

The system integrates circulation, filtration, disinfection and automatic backwashing control of sand tank. The operation is simple and intelligent. Suitable for all kinds of landscape pools, swimming pools, rainwater collection and water parks, especially suitable for private villa pool, small pool, SPA pool, baby pool ect.

Advantage

1. The filter can be selected according to the size of the water;
2. Optional manual valve/electric valve group control mode;
3. The matching pump has a suction range of 2.5 meters to solve the installation problem of ground type/above the level
4. The disinfection equipment is preferred copper silver ion sterilizer, non-toxic side effects, long-term sterilization and bacteriostasi;
5. When the pressure gauge with monitoring operation pressure is matched with the electric valve group, the combined use of the intelligent controller can control the automatic backwashing function of the sand cylinder, which is simple, intelligent and convenient, and has strong operability

Model & size

Model	Device configuration			Qmax (m3/h)	inlet/outlet (inch)	Overall Size (mm)
	FilterSize	PumpSize	Cu-sg ion size			
LDH0815/40	Φ 800*1500	1.5HP/220V	CS-40/5kg	10~15	2"	1500*750*1160

LDH0815/80	Φ 1200*1500	4HP/380V	CS-80/9kg	30~35	2"	1800*1050*1460

Basic functions

1. Cycle and filter
2. Timed automatic backwash
3. Copper and silver ion disinfection
4. Water flow switch protection

Function

This system integrates circulation, filtration, and disinfection, with simple operation and intelligent control. Suitable for various specifications of garden landscape pools, swimming pools, rainwater collection, and water sports, Garden and other occasions, especially suitable for private villa swimming pools, homestay small swimming pools, SPA pools, baby swimming pools, etc.

Advantage

- ◆ Filters can be selected according to the size of the water body;
- ◆ The matching water pump has a suction head of 0.5~2.5 meters, solving the installation problem of ground type/above horizontal level;
- ◆ The preferred disinfection equipment is a copper silver ion disinfectant, which has no toxic side effects and long-term bactericidal and antibacterial properties;
- ◆ Pressure gauge with monitoring operational pressure

Integrated pool water purifier series

Professional water treatment equipment solutions

Intelligent backwash buried filtration system

Function

Integrated water treatment system with circulating filtration, disinfection and automatic control backwash functions. The system adopts integrated combination, convenient installation, saving time and labor; Intelligent controller set a variety of modes and time periods can be selected, applicable to different requirements; The intelligent controller adopts microcomputer control to realize fully automatic operation.

Advantage

Circulating water treatment, aquaculture, swimming pool water treatment, aquarium, rainwater collection water treatment, garden landscape treatment, etc.

Automatic backwash controller

Product Features

- Can switch between manual/automatic modes as needed
- Running status display for easy management;
- Adjustable filtering and backwashing time
- Fault operation alarm function;
- Easy to operate and understand;
- Suitable for any size of four position electric valve group;
- Optional 485 communication function; Intelligent microcontroller mode, stable and reliable

Automatic backwash controller

PROTECT THE WATER QUALITY OF YOUR SWIMMING POOL

COPPER AND SILVER ION GENERATOR

Maintenance-free
Non-toxic side effect
Long-term bactericidal and algal inhibition

Safe/Stable/Efficient

 Copper silver ion disinfectant

Copper ions and silver ions produced by the electrode are released into the water to kill bacteria and viruses, non-toxic side effects, long-term sterilization; Safe and reliable time segment control, humanized design

Advantage

Pool ecological disinfection, keep the use of chemical chlorine to a minimum so that your pool water environment is safe, odorless, non-toxic, does not irritate eyes, skin, clear and odorless

CM SERIES

CS SERIES

[Microcomputer controller]

Microcomputer intelligent design, simple operation. Automatic/manual design, convenient and fast with the control of the sand cylinder automatic backwash function, easy to use, operation more worry

CM-40	1kg	40m ³		
CS-40	5kg	50~80m ³	Adjustable	
CS-60	7kg	80~120m ³		
CS-80	9kg	120~200m ³		

Automatic backwash controller

Product Introduction

Automatic dosing pump has the function of injecting chemicals into the pipeline system. It is a microprocessor-controlled, digital display electromagnetic diaphragm metering pump; the metering pump is compatible with most chemicals and has a long service life; the dosage can be adjusted through the flow control plus and minus buttons, and the operation is simple; and the design work is done at the same time. The status display light allows you to check the working status at any time. It is easy to use, simple to operate, and the operation is stable and reliable.

- ◆ Flow rate is adjustable; flow rate digital display
- ◆ Set up exhaust port, safe and considerate design
- ◆ Suction lift up to 3 meters
- ◆ The medicine nozzle is made of PVDF material, which is super corrosion-resistant and extends the service life.
- ◆ Permanently lubricated ball bearing motor

Product Introduction

Economy: Cheap salt is used as raw material to generate pure chlorine online without purchasing chemical chlorine, saving chemical storage, dosing pumps and water quality monitors.

Advancement: Among the existing chlorine disinfection methods, it has higher purity, better performance, and is safer and more reliable than the chlorine contained in liquid chlorine, granular and powdered chemical chlorine, chlorine tablets and chlorine pills.

Practicality: Water disinfection and water softening are carried out at the same time, without irritation to eyes and skin.

Reliability: The human body contains salt, the human body consumes salt, and table salt is the main raw material for softening water. This system is the most natural and safest way to disinfect.

Pool Controller

Conventional artificial dosage is unstable and contains insufficient chlorine/bromine, making it easy for bacteria and algae to breed. Using a fully automatic monitor, it consumes less than 1 kilowatt hour of electricity per day, does not require manual labor, and automatically controls water quality. It is an ideal product for commercial and household swimming pools. Applicable to different chemicals, varieties include: chloride salt, liquid chlorine. Use the button to select to turn on or off the ORP or PH function. The screen displays the probe status, making it easier to understand problems with the probe. Commonly used disinfectants in domestic swimming pools: liquid chlorine, sodium hypochlorite, calcium hypochlorite and chlorine tablets.

Water quality monitor monitors PH/(residual chlorine)

Multi parameter water quality monitoring and control instrument

The multi-parameter water quality detector includes an RS485 interface and supports the modbus protocol. It can be connected to a large water quality screen for remote real-time monitoring, and can be viewed on both PC and mobile devices. It can store half a year's water quality data, and can be connected to the water quality monitoring platform of the Health Supervision Bureau. It can also push SMS alarms on mobile phones.

Water quality monitor

Function

The online water quality monitoring system can monitor various indicators closely related to the water quality and hygiene indicators of the swimming pool, such as water temperature, pH, ORP residual chlorine, turbidity, TDS, etc. in real-time. It can control the dosing pump that needs to be adjusted for each indicator, achieve automatic monitoring, automatic dosing, and control the monitoring indicators of the swimming pool water quality to be within the limits specified in relevant standards, to prevent excessive dosage caused by manual dosing.

Advantage

1. Adopting a system integration installation method combined with 485 remote network communication technology and APP mobile online monitoring functions.
2. The network communication module can transmit monitoring data in real-time to the network port specified by the customer, such as the data receiving port of the supervisory department.
3. The APP version allows users to remotely and real-time monitor water quality and make timely adjustments to the operation of the swimming pool.

Measurement parameter	Unit	Measuring range	Precision

Low pressure ultraviolet sterilizer

Function

UV-sterilization almost takes effect for all of the microorganisms, bacteria, viruses and algae. Fast sterilization, sterilization rate, the general microorganisms and bacteria can kill within a few seconds; environmentally safe and no secondary pollution, pure physical sterilization, does not produce any other side effects, low operation and maintenance costs, continuous high flow disinfection, installation fast, simple, small footprint.

Application scope

Swimming pool, water park, a large swimming pool circulating water purification
Landscape water, artificial lakes, natural lakes, fish ponds, aquaculture water purification Water, sewage, waste water treatment etc.

OZONE DISINFECTION COMPANION

Function

The ozone adsorption tank is mainly used to focus and concentrate excess ozone, green algae and organic matter in the water on the surface of activated carbon, and can effectively reduce the color of the water. Activated carbon filter is a commonly used water treatment equipment. It can absorb residual chlorine that cannot be removed in the front-stage filtration. It can effectively ensure the service life of the downstream equipment, improve the quality of the effluent, prevent pollution, and also absorb small particles leaking from the front-stage. Molecular organic matter and other pollutants have obvious adsorption and removal effects on odors, colloids, pigments, heavy metal ions, etc. in water. It has the advantages of good adsorption performance, high mechanical strength, good chemical stability and strong regeneration ability.

Application scope

Factory breeding plants, seawater circulating culture or nursery, seafood temporary culture, ocean halls and aquariums, etc., sewage treatment, etc., garden landscape water treatment, swimming pool circulating water treatment.

* Order the pressure standard and filter material according to the work needs of the equipment.
* For reference only, size change, subject to order.

BASKET FILTER

EASY TO INSTALL AND MAINTAIN

REMOVE HAIR/IMPURITIES

Product Features

Feature :

- ◆ Marine-grade fiberglass resin into the nature of a body, super anti-corrosion, durable
- ◆ Built-in filter basket , 304 / 316L stainless steel /titanium alloy for you choosing.
- ◆ The top of the structure, easy to open and clean
- ◆ GB flangeconnection, easy installation
- ◆ The bottom of the venting means provided
- ◆ Can be customized in different working pressure

PoolFilter Series

PROFESSIONAL WATER TREATMENT EQUIPMENT SOLUTIONS

WINDING SAND CYLINDER, DEEP FILTER, HORIZONTAL FILTER

HORIZONTAL SAND TANK FILTER

- ◆ Purification and filtration for large swimming pool, water park, Jacuzzi and Waterscape project
- ◆ Purification of industrial waste water, sanitary sewage
- ◆ Pre-treatment of drinking water
- ◆ Treatment of agricultural irrigation water
- ◆ Seawater, freshwater and aquaculture water treatment
- ◆ Hotel, high density of aquatic market
- ◆ Aquariums, aquatic organisms living laboratory system
- ◆ The disposal of wastewater from Aquatic Products processing plants before discharge.
- ◆ Recirculating aquaculture system processing factory

SAND CYLINDER FUNCTION VALVE

It's made of high-strength ABS material, With flexible operation, simple valve handle, has six -way functions:

- ◆ **Filter:** Normal filter and clean the water
- ◆ **Backwash:** Discharge the filter hidden dirt plot
- ◆ **Ring:** Exclude dirt in the sewage pipe
- ◆ **Recirculate:** Does not pass through the filter , water recycling
- ◆ **Waste:** Does not pass through the filter , the direct discharge
- ◆ **Close:** The function in the filter to close

Material: silicone
No.: 619404

Product name: 1.5-inch water distributor (including plum blossom washer)
Material: silicone
No.: 619405

Product name: 1.5 inch flange rubber ring
Material: silicone
No.: 619418

Product name: 2 inch flange rubber ring
Material: silicone
No.: 619419

Product name: 10CM/1.5" filter tube
Material:ABS
No.: 619406

Product name: 15CM/1.5" filter tube
Material:ABS
No.: 619407

Product name: 15CM/2" filter tube
Material:ABS
No.: 619416

Product name: 20CM/2" filter tube
Material:ABS
No.: 619417

Product name: 1.5-inch multi-function valve union
Material:ABS+PVC
No.: 619410

Product name: 2-inch multi-function valve union
Material:ABS+PVC
No.: 619411

Product name: Sand cylinder sand discharge valve
Material:ABS
No.: 619403

Product name: Flange sand cylinder oval top cover kit
No.: 619420

Water Pump Series

Professional circulating water treatment equipment manufacturing

FA WATER PUMP

Pump body made of high strength engineering plastic, Used for all types of swimming pools, industrial water, water park, wave pool, Jacuzzi and fountains etc.

Feature:

- ◆ Rust protection, to prevent direct contact with the water motor, IPX5 waterproof standard
- ◆ High performance can ensure high efficiency circulation. built-in thermal protection and over-current protection device
- ◆ Improved vacuum seal to prevent leakage, insulation performance is good
- ◆ Industry standard motor, can work long-running, low power consumption
- ◆ Equipped with hair collector to achieve a pre-filter effect
- ◆ Can connect to metric or imperial pipes

Working conditions

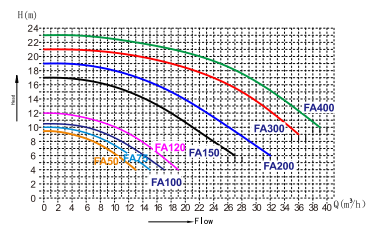

Medium temperature: 5-50°C

Max.working pressure: 0.3MPa

Product Size

FUP WATER PUMP

Pump body made of high strength engineering plastic. Used for all types of swimming pools, industrial water, aquarium, water park, wave pool, Jacuzzi and fountains etc.

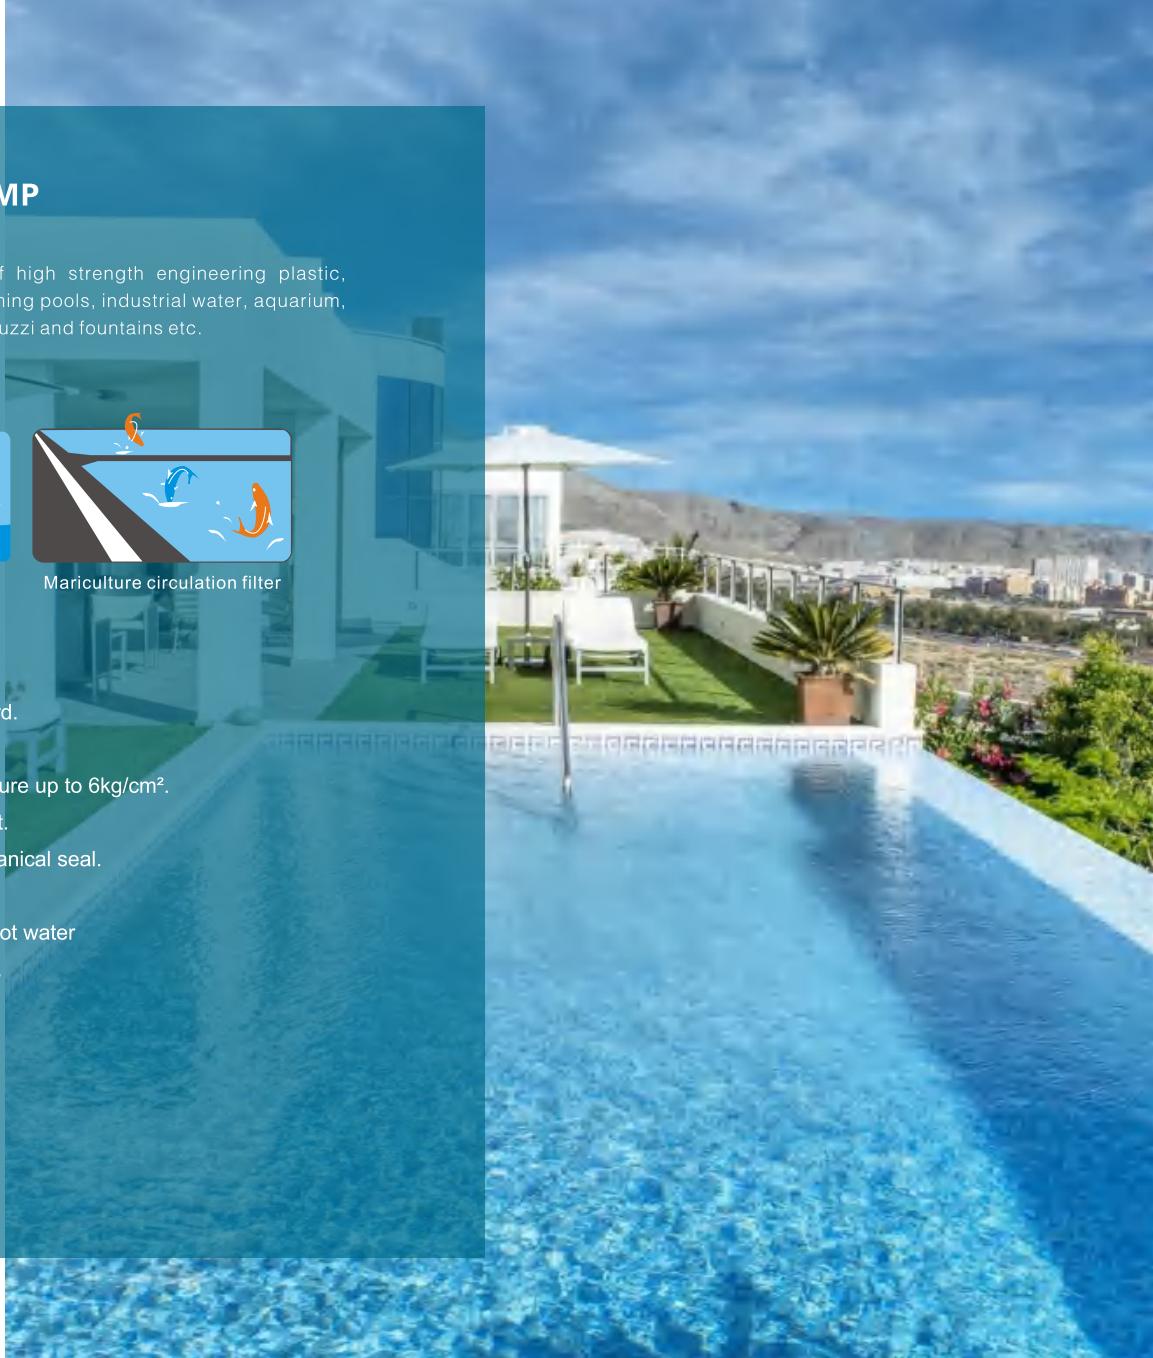

Recirculation of water in swimming pool equipment

Mariculture circulation filter

- Ip55 waterproof standard.
- Big flow rate.
- Maximum working pressure up to 6kg/cm².
- 316 stainless steel shaft.
- Graphite/ceramic mechanical seal.
- Motor speed 1450 r.p.m
- Suitable for maximum hot water temperature up to 70°C.

FPP WATER PUMP

The plastic multi-functional circulation pump allows the use to be no longer limited. One pump has multiple uses. It can meet the needs of seawater, nitric acid, hydrochloric acid, sulfuric acid, leaf base and other different chemical materials. It has super and strong sealing, safety and efficiency. Corrosion has always been one of the most troublesome hazards to certain liquid-transporting chemical equipment. According to relevant statistics, 60% of damage to specific liquids and chemical equipment is caused by corrosion. Therefore, the selection of chemical pumps for specific liquid transportation is crucial. The plastic multifunctional circulation pump is made of super strong polypropylene PP material, which is stronger and more corrosion-resistant, more efficient and greatly reduces the cost of subsequent maintenance. At the same time, the product can also be equipped with specific materials according to the actual use environment and working conditions.

Application scope

- ◆ **ROTATION AXIS**
S.S316+40CRtempering steel(High strength and durability)
- ◆ **MOTOR MATERIAL**
Cold Rolled steel50ww600.(High efficiency and heat dissipation)
- ◆ **BEARING**
British imparts double-row BUT4205ATN9.(Wearabledouble-row, contact-type hermeticrub ber cover, polyimideholder, applied in allkinds of harsh environments)
- ◆ **MECHANICAL SEAL**
PTFE silicon carbide.(Strong anti-corrosion and anti-leak)

CARTOON IMPACT BATH AND SPA SERIES

P02 JINLONG SHAPE SHOWER NOZZLE

Model:PO2
 P/N:661102
 Material:FRP
 Total heightH1:1450mm
 The drainage outlet to the bottom distance
 H2:1100mm
 Bottom size:300(Width)*400(Thick)
 Package size:730*390*1520mm
 Weight: 25.3kg

P03 GOLDFISH SHAPE SHOWER NOZZLE

Model:PO3
 P/N:661103
 Material:FRP
 Total heightH1:1340mm
 The drainage outlet to the bottom distance
 H2:1100mm
 Bottom size:300(Width)*370(Thick)
 Package size:790*390*1380mm
 Weight: 25kg

P04 DOLPHIN SHAPE SHOWER NOZZLE

Model:PO4
 P/N:661104
 Material: FRP
 Total heightH1:1330mm
 The drainage outlet to the bottom distance
 H2:1100mm
 Bottom size:350Width*300(Thick)
 Package size:740*570*1380mm
 Weight: 23.5kg

CARTOON IMPACT BATH AND SPA SERIES

P07 ELEPHANT SHAPE SHOWER NOZZLE

Model: P07
 P/N: 661107
 Material: FRP
 Total height H1: 1320mm
 The drainage outlet to the bottom distance
 H2: 1060mm
 Bottom size: 410(Width)*410(Thick)
 Package size: 620*530*1430mm
 Weight: 21kg

P08 PENGUIN SHAPE SHOWER NOZZLE

Model: P08
 P/N: 661108
 Material: FRP
 Total height
 H1: 1300mm
 The drainage outlet to the bottom distance
 H2: 1100mm
 Bottom size: 400(Width)*330(Thick)
 Package size: 650*650*1390mm
 Weight: 21kg

P10 JET CLOWN

Model: P10
 P/N.: 661110
 Material: FRP
 Total height
 H1: 1150mm
 Package size: 1280*560*760mm
 Weight: 25kg

Used for landscape pool, children's wading pool, large and small swimming pools etc.

CARTOON IMPACT BATH AND SPA SERIES

MASSAGE BED

No.: 661504
 Specification: 1800*700
 Material: Acrylic
 Interface size: 1.5"
 Nozzle Quantity: 9
 Need supporting products: spa pump,
 spa switch, etc.
 Packaging: wooden frame + bead film

MASSAGE CHAIR

No. : 661503
 Specification: 1250*710*890
 Material: acrylic
 Interface size: 1.5' '
 Nozzle Quantity: 10
 Supporting products: Spa pump, spa
 switch, etc.
 Packaging: wooden frame + bead film

P-11 FOUR HEAD CLOWN

Used for landscape
 pool, children's wading pool,
 large and small swimming
 pools etc.

P-13 LONG-WAISTED CLOWN

Used for landscape pool,
 children's wading pool, large
 and small swimming pools etc.,

SPA MASSAGE / MASSAGE CHAIR

Based on the human body curve design, using of momentum and impulse forcemassage nozzle upward, just like a person help you massage, it can promote bloodcirculation, eliminate fatigue, relieve stress, speed up metabolism etc. Used for sauna pool, Jacuzzi spa surfing, spa, rest clubs etc.

P/N	Model	Material	Width of Spout(mm)	Height(mm)

DM UNDERGROUND LAMP

Product name: Underwater Underground Lamp
 Material: stainless steel lamp body
 Model: DM100/3W
 Specification: Medium 100 * H79MM
 Power: 3 * 1W/AC12V
 Color: RGB/white/warm white/cold white/blue

DM UNDERGROUND LAMP

Product name: Underwater Underground Lamp
 Material: stainless steel lamp body
 Model: DM120/6W
 Specification: $\phi 120 * H92MM$
 Power: 6 * 1W/AC12V
 Color: RGB/white/warm white/cold white/blue

DM UNDERGROUND LAMP

Product name: Underwater Underground Lamp
 Material: stainless steel lamp body
 Model: DM150/9W
 Specification: $\phi 150 * H94MM$
 Power: 9 * 1W/AC12V
 Color: RGB/white/warm white/cold white/blue

DM UNDERGROUND LAMP

Product name: Underwater Underground Lamp
 Material: stainless steel lamp body
 Model: DM150/12W
 Specification: $\phi 150 * H94MM$
 Power: 12 * 1W/AC12V
 Color: RGB/white/warm white/cold white/blue

FOUNTAIN LIGHT

Product Name: Fountain Light
 Material: Stainless Steel Lamp Body
 Model: DY160/9w
 Specification: $\phi 160 * H80mm$
 Power: 9 * 1w/AC12V
 Color: Rgb/white/
 Warm White/cold White/blue Light

Product Name: Yongquan Lamp
 Material: Stainless Steel Lamp Body
 Model: DY160/12w
 Specification: $\phi 160 * H80mm$
 Power: 12 * 1w/AC12V
 Color: RGB/white/
 Warm White/cold White/blue Light

PROTEIN SKIMMER

Product Benefits

- ◆ To increase the dissolved oxygen in the treated water, to increase the amount of dissolved oxygen in the water, to improve the efficiency of biological treatment,
- ◆ It can separate the organic matter before it decomposes into the toxic waste, thus lightening the burden of the biochemical system;
- ◆ Remove the harmful gas and stabilize the PH value of the water body.
- ◆ Combined with ozone, effectively remove suspended solids, protein and ammonia nitrogen in the water
- ◆ Foam collection cup can be cleaned to ensure clean collection cup
- ◆ Unique venturi design, equipment efficiency, bubble rich and delicate
- ◆ Equipment failure rate is low, easy to install, disassembly, maintenance, long service life

Application

Factory culture plant, seawater recirculating culture or nursery, seafood temporary culture, oceanarium and aquarium, sewage treatment, etc. .

Degassing tower

Product Benefits

- ◆ To kill bacteria and degrade organic matter in water;
- ◆ To increase oxygen content and dissolved oxygen content in water effectively;
- ◆ To remove part of residual ozone;
- ◆ To reduce carbon dioxide content in water by stone;
- ◆ Remove saturated nitrogen.
- ◆ Remove volatile organic carbon.

Quicksand filter

Product Benefits

Quicksand biochemical filter (commonly known as: fluidized bed filter, flowing sand filter or flowing sand), using the principle of imitating the river bed of nature, when the water in the filter flows upward, the fluid carrier sand particles will roll upward with the water flow, forming suspension, avoiding the blockage problem that often occurs in ordinary biological filters. The quicksand biochemical filter uses the surface area of quartz sand to culture nitrifying bacteria, so that the growth of nitrifying bacteria on the surface of the generation of reproduction cycle of nitrifying bacteria to biological filtration of aquaculture water to remove ammonia nitrogen treatment, so as to play a role in purifying water quality and establishing good water quality of fish ponds.

Application

Factory culture plant, seawater recirculating culture or nursery, seafood temporary culture, oceanarium and aquarium, sewage treatment, etc. .

Mixed oxygen cone

Product introduction

Mixed oxygen cones, also known as oxygen cones, are suitable for aquaculture, especially for high-density industrial aquaculture. Made of high quality FRP composite polyester material, it has good chemical corrosion resistance, sun protection and UV protection. The appearance is made of winding reinforced production technology, strong and safe. Oxygen cone is one of the main technologies used in industrial aquaculture to control dissolved oxygen in aquaculture water. With high dissolved oxygen efficiency, high dissolved oxygen saturation after mixing, reduce oxygen waste, compact volume, easy to operate.

Application

Large-scale industrial aquaculture farms, seawater nursery farms, large-scale temporary aquaculture bases, aquariums, aquariums, sewage treatment plants, gas and liquid dissolution or reaction in chemical industry.

Installation
