产品推广手册

## 启立文化COMPANY CULTURE

服务宗旨:品质第一、客户至上  
Services tenet: Quality first, customer first

经营理念:诚信、专业、服务、共赢  
Business philosophy: Integrity, professional services, win-win

服务特色:高效、完善、精益求精  
Feature: Efficient, perfect, excellent

## 公司简介COMPANY PROFILE

广州启立环保设备有限公司成立于2015年,专注研发养殖、景观水循环净化等设备,国内首家专业鱼池过滤设备生产厂家;致力于锦鲤养殖事业研究与实践,为您提供一站式鱼池、水处理设备及整体解决方案!工厂位于广州市白云区,公司获得高新技术企业、ISO 质量体系、CE、Rohs 认证等。拥有独立的设计研发部门、多条完整自主的生产线;严格按照科学而现代的生产方式,保证高品质产品的稳定输出,专业售后团队;高效地为客户提供优质产品。

业务覆盖全球,拥有数千个应用场所,提供终身技术支持;承接鱼塘净化设计、景观水系统、水处理解决方案及制造,并提供 OEM 和 ODM 合作!

Guangzhou Qili Environmental Equipment Co.,LTD. was founded in 2015, focus on research and development of aquaculture and landscape water treatment, the first manufacturer of KOI pond filtration equipment from China.Dedicated to the research and practice of koi breeding area, provide one-stop fish ponds, water treatment equipment and overall solutions!

The factory is located in Baiyun District, Guangzhou city. We obtained high-tech enterprises, ISO9001 ,CE, Rohs certificate. With Independent design and development departments, a number of complete independent production lines; Strictly in accordance with scientific and modern production methods to ensure the stable output of high-quality products, professional after-sales team; efficiently provide customers with quality products!

Business covers all the country, with thousands of application sites, provide lifelong technical support; undertake fish pond purification design, landscape water system, water treatment solutions and manufacture, and provide OEM and ODM cooperation!

## ▷ PUMP FREQUENCY CONVERSION PUMP

- P1 DCP-521 变频水泵
  - P2 DCP-522 变频水泵
  - P3 ACP-631变频水泵
  - P4 ACP-632 AC正弦波水泵
  - P5 ACP-532 变频水泵
  - P6 XP-502 高级潜水泵
  - P7 X-501高级静音水泵

# SENIOR SUBMERSIBLE PUMP

## 高级潜水泵

XP-502

安全静音、高效节能、水陆两用

Safe and silent, highly efficient and energy-saving, amphibious

- Energy saving and power saving, long operation life.
  - Safe and ultra-quiet.
  - Suitable for all kinds of aquatic plants and fish farming filtration.
  - Applied to aquariums or fountain display.
  - Amphibious water inlet connection pipes can be used on land.
- 
- 节能省电，使用寿命长。
  - 安全、超静。
  - 适用于各种水草及鱼类养殖过滤。
  - 应用于水族箱及喷泉造景。
  - 水陆两用，进水口连接水管可在陆地使用。

# DRAGON FISH FOR INTELLIGENT CONSTANT TEMPERATURE HEATER

## 龙鱼专用 智能恒温加热器

- LED double digital power protection and over-temperature water from 36 °C, automatic off thermal protection.
- The heating temperature can be set during 20-34 °C. With a tolerance of less than ± 1°C.
- With plastic anti-collision jacket, external temperature control.
- 100% pure nickel-chromium heating wire does not rust.
- Remote control, dual probe temperature control safer.
- LED双数字式+离水断电保护超温36°C,自动断热保护。
- 温度可以设定, 调温范围20-34°C, 控制温差±1°C。
- 配塑料防撞护套, 触摸式外置调节温度。
- 采用100%纯镍铬发热丝不生锈。
- 分体式控制, 双探头控温更安全。

# X-218

### Feature

产品特点

**离水断电**

Leaving the water power off

**超温保护**

Overtemperature protection

**配防撞护套**

collision avoidance sheet

**原装进口 IC 芯片**

# AUTO FISH FEEDER

## 自动喂食器

- Manual or automatic feeding operation
- Multiple feeding periods
- Replaceable Barrel
- Various Kinds of installation
- 手动或自动喂食
- 多个投喂时段
- 可替换料筒
- 多种安装方式

X-100

X-200

### 产品特点

- 从每日4次到每两日1次自动投喂，多达6个不同自动投喂时段
- 有110ml和240ml两个不同容量的料斗
- 配合不同支架可夹在鱼缸壁或置于鱼缸顶部使用
- 出料口大小可调节，自由控制每次喂食量
- 自定义模式下可以自由设置每天最多6次自动投喂时间

### Feature

- From 4 times a day to 1 time every 2 days, there are 6 different periods of automatic feeding
- With 2 different capacities --110ml and 240ml hopper
- With different supports, it can be clamped on the tank wall or put on the top of the tank
- The size of the feeding mouth can be adjusted, and the feeding amount can be controlled freely every time
- The automatic feeding time can be set up to 6 times per day in the custom mode

# ULTRA SLIM

## 低水位过滤器

Low water filter

流量可调 / 滤棉可换 / 高效除油

Flow adjustable / replaceable filter cotton / efficient oil removal

- Slim design, ultra-quiet.
- wave modeling outlet design, effectively increasing water oxygen capacity.
- supporting special filter cotton, long-term repeated use.
- regulating valve designed to effectively regulate water flow, power-free water.
- with a oil removal device, the effect is superb.
- 超薄设计，超静音。
- 波浪造型出水口设计，有效的增加水的氧容量。
- 配套专用过滤棉，可长期反复使用。
- 调节水阀设计，有效调节水流量，停电免加水。
- 配有除油装置，效果俱佳。
