

PEC2005G2 Pharmaceutical Metal Separator

Application

It is applicable to the pharmaceutical industry, such as tablets, capsules, pills etc.

Product features

1. Processing speed can reach about 15000 pellets per minute (Depend on product's size)
2. It can handle a variety of categories of drugs, in order to save space, it take a more compact frame design
3. The food grade PVC material is used in the automatic sorting device;
4. The detection sensitivity is higher than the industry standard, the highest can be detected is 0.3mm metal ball;
5. The sensitivity can be adjusted according to the characteristics of the product, and the number of detection and elimination can be recorded in real time; Manual clear record
6. All stainless steel structure, waterproof, anti vibration, strong adaptability to the environment and temperature changes, easy to clean;
7. Modular component replacement, it' s easy to maintain
8. Multi language function selection (Chinese, English, Japanese, etc., other languages can be customized according to demand);

Metal Detector, Metal Separator, Check Weigher, X Ray Inspection System

Specification parameters

Item	parameter
Adjustable angle	30° ~ 40°
Input port size	200mm * 100mm
Pipe diameter	Φ40mm
Sensitivity (without product)	FeΦ ≧ 0.3mm
	Non-FeΦ ≧ 0.5mm
	SUSΦ ≧ 0.5mm
Power supply	Single phase 220V 50/60Hz.
Material	SUS 304

Notes: The sensitivity in the table is the test block falling freely through the detection of the pipeline, the actual detection sensitivity may be different according to the characteristics of the product or the working environment, it should be based on the actual detection sensitivity;

This verification confirms that the product meets the requirements of the following standard.
The conformity was demonstrated based on following standard(s) listed by European Commission as harmonized with MACHINE DIRECTIVE 2006/42/EC.

EN 60204-1:2018

The verification has been carried out in accordance with individual rules and conditions agreed with the applicant. Evaluation has been carried out in accordance with:

Test report(s) No.: MK22120070-P01S03
Test conducted by: TMC Testing Service Limited
Verification issue date: December 27, 2022

Notes:

This verification refers to the above mentioned product and its conformity in regards of above mentioned standard(s) was proven on test sample.

This verification does not imply meeting all essential requirements, a assessment of the series-production or any other restricted Notified Bodies conformity assessment procedure appropriate for the product.

This verification holder shall use this verification in connection to Verification of Compliance and technical data relevant for the product the verification was issued.
