Roni Biotechnology

# About US

**Ningbo Roni Biotechnology Co., Ltd** was founded in 2017. We are a manufacturer specialized in skin care products like face care, hand & foot care, body care, beard care and so on. We have a general investment of RMB 20 million. As a professional cosmetic supplier, we have excellent teams who focus on product development & design, quality control & inspection and company running. We have 100,000 level of GMP clean production workshop. We are certified with cosmetics GMP quality management system as well as BSCI, and has obtained Disinfectant Production Permit. We can provide OEM/ODM/OBM services. We also provide product customization services, like private label, packaging, color, texture, formula and so on. Roni's products conform to the EU, the United States and other related standards. And the annual output can reach 12 million bottles. **We** can provide customers with quality assurance documents such as MSDS, COA, batch inspection report, package material description, product stability report, etc. Besides, we can provide the CAS number and INCI name of cosmetic raw materials. Every year, our company invests over 5% incomes as research and development special funds. We always stand the angle of our clients, continuing to optimize and improve each production detail.

**For production**, Roni has built standard progresses, including “air-depositing bacteria” and “countertop colony” testing with the unit of a month, as well as the colony testing on production staff hands and production water. We believe in making all production processes orderly to ensure quality.

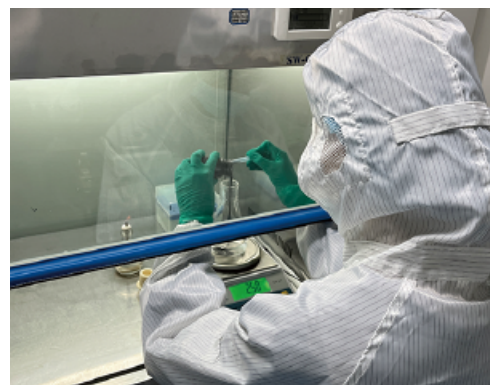

**Roni, making beauty easier.**
