ABOUT CAILYN PACKAGING

Delivering Integrated Packaging from Concept to Shipment

Cailyn is a dedicated manufacturer specializing in the production of flexible packaging bags, corrugated boxes, and labels/stickers.

With our in-house factory and professional team, we provide complete packaging solutions that cover every stage — from design and material selection to production and final shipment.

As a true one-stop packaging partner, we serve businesses across industries with diverse needs. Whether you require functional packaging, branded cartons, or high-quality labels, we ensure precision, efficiency, and consistency in every order.

Our goal is to be our customers' most trusted packaging supplier by combining tailored solutions, advanced production capabilities, and reliable service.

CAILYN PACKAGING:FULLY CERTIFIED

Why Choose us?

Professional Service

End-to-end packaging services from design prototyping to final delivery. Our expert team tailors solutions to your product protection needs, brand positioning, and budget – eliminating multi-vendor coordination and ensuring seamless project execution.

Sustainable Solution

FSC-certified materials ensure product safety and low-carbon footprint. Customizable biodegradable/recyclable solutions enhance your sustainable commitment and appeal to eco-conscious consumers.

Factory Direct Pricing

Benefit from factory-direct pricing supported by our automated production facilities. By eliminating middleman markups, we offer competitive pricing while maintaining premium print quality and flexible order quantities.

Rotogravure Printing

Quick turnover, low cost and high production quality best option to mass production.
MOQ:5000PCS
Production lead time:15 days

COFFEE BAG MATERIAL

Environmental protection is the theme of today's world. We also choose environmentally friendly material.

Recyclable Bags

Low-density LDPE is a popular option thanks to its affordability and high barrier properties. LDPE is flexible, durable, light weight and can be easily reused and recycled(#4)

Compostable Bags

Biodegradable packaging is made from organic materials such as wood pulp, plant starches and cellulose. Our biodegradable coffee bags are made from kraft paper, rice paper, PLA, PBAT and NK film

Foil Bags

Aluminum foil offers superior protection against light and moisture effectively preserving the freshness of your coffee beans and powder for an extended shelf life.

Semi Transparent Bags

Semi-transparent bags beautifully showcase the quality of your coffee beans while the 2 or 3-layer laminated film provides an excellent barrier against moisture and securely locks in the coffee's rich aroma.

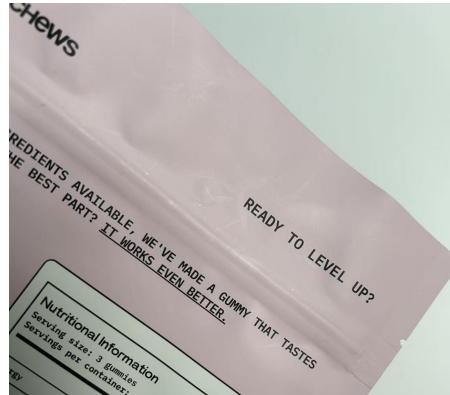

HOW CAN YOU SEAL BAGS?

Quality Resealable solution will keep your products protected from external factors and prolong their shelf life.

Sider Zipper

The side zipper features a sleek design and opens fully for easy coffee filling, while the integrated resealable strip ensures convenient daily use for consumers.

Resealable Zipper

The key advantage of the resealable zipper is that it can be opened and closed multiple times, offering great convenience to consumers.

Tin Tie

An easy and practical way to ensure coffee stays fresh and flavorful. Choose from a wide range of colors to match the design and shape of your coffee bags

Velcro zip lock

The precision-designed tear notch provides a clear starting point for easy and neat tearing along the pre-defined line.

DRIP COFFEE FILTER BAG

Regular filter bag

The hanging ear hook design makes it simple to use and convenient to make a good tasting coffee in less than 5 minutes.

Round Filter Bag

Engineered for maximum flavor extraction, ultimate on-the-go convenience, and a secure fit for any mug. Perfect Single Cup. Anytime, Anywhere.

Special Shape Filter Bag

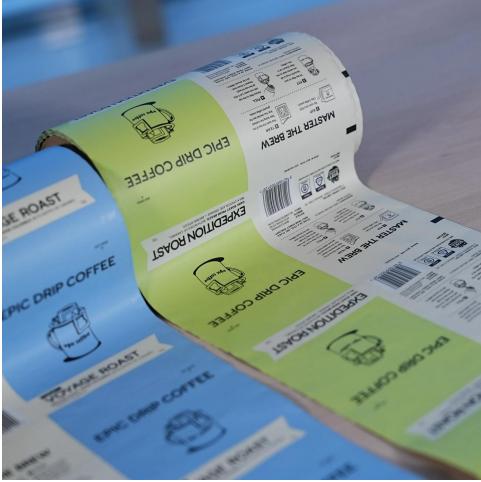

A Design That Powers Your Brand, The innovative form itself serves as a silent testament to superior quality, elevating perceived value and justifying the price.

Filter Roll

Hanging ear filter rolls offer a strategic advantage by delivering radical cost efficiency, agile on-demand production, and a unique canvas for brand identity.

Rolling Film Packaging

Roll film

Laminated rolls offer an advantage by delivering radical cost efficiency, agile on-demand production, and a unique printing for brand identity.

Filter Roll

Hanging ear filter rolls offer a strategic advantage by delivering radical cost efficiency, agile on-demand production, and a unique canvas for brand identity.
