

# Jingjiang Huading Machinery Manufacturing Co., Ltd

# 16 Years

**Coupling  
manufacturers**

Jingjiang Huading Machinery Manufacturing Co., LTD, Established in July 2008, is a science and technology-based company specialized in designing and manufacturing transmission parts and all kinds of auxiliary non-standard equipment and accessories.

**With 16 years of dedicated expertise in crafting superior couplings and related accessories, Huading is proud to offer high-quality products bolstered by exceptional craftsmanship and customer delight.**

# **Our Team**

**Huading has gained a foothold in the international market with high - quality and low - cost products, gradually becoming well - known. More customers bring big - brand drawings to us for processing. We have done an excellent job and been recognized, thus becoming a "big - brand substitute" in the coupling industry.**

## **Our Positioning**

**After years of accumulation, we have numerous excellent cases. For instance, we have successfully replicated KTR, MAINA, VOITH, GWB, FLENDER, ELBE, RENK, MAINA, FALK and CMD .The full recognition from our customers has also boosted our confidence in our positioning.**

# Main Products

Huading has decades of experience in the steel industry and can manufacture any product accessories.

No other company can replace Huading's professionalism in the papermaking industry. With so many years of experience, we have accumulated a lot of resources and can provide customers with a unique service experience.

Huading has its own unique technology in the mining industry, and its excellent quality has made Huading famous in the mining industry.

Huading has accumulated more than 15 years of experience in the oil industry, has accumulated countless experience in the oil industry,

# Other Products

Within China, Huading is the sole company that has obtained the German BV certification. Our products are widely used in ships and yachts and have been fully recognized by customers.

Huading Company has developed a coupling product suitable for cooling tower fans. This product uses carbon fiber material, which is lightweight and more corrosion-resistant, and is deeply loved by customers.

Huading's features are far from being restricted to its established products. Provided that you offer the drawings, we are able to transform your ideas into actual products, and this is also what makes us unique.
