

整體衛浴

VOLUMETRIC PREFABRICATED BATHROOM

展廳地址：廣東省佛山市順德區容桂街道龍湧口村培龍路2號
Exhibition Address: No.2 Pei Long Road, Long Yong Kou Village, Rong Gui
Street, Shunde District, Foshan City, Guangdong Province
400-080-5022 | www.remac.com.cn

品牌介紹 BRAND PROFILE

睿住建築科技致力於成為領先的綠色建築空間科技企業。以科技創新、研發為驅動，構建睿住天元設計科技產業，睿住住工綠色裝配產業協同發展的產業鏈體系，打造建築全生命週期數字化設計、全鏈條裝配式產品及服務整體解決方案。

採用獨特的「REMAC」模式，提供綠色空間「諮詢、研發、設計、生產、銷售、施工、運維」的全價值鏈業務場景服務。

REMAC SPACE is devoted to becoming a pioneering S&T enterprise in the field of green building space. By leveraging innovation in technology and research & development, REMAC SPACE is building an industrial chain system that synergizes REMAC TY's design technology industry with REMAC IOC's green assembly industry. To achieve this, REMAC SPACE will provide all-inclusive digital design solutions over the building's life-cycle, assembly products across the whole supply chain, and associated services.

By adopting the unique REMAC model, we offer full-value chain business scenario services that span the entire value chain, from green space consulting, R&D, design, production, sales, construction, operation and maintenance.

全時健康⁺ (24HH⁺)

FULL-TIME HEALTH

睿住建築科技重新定義人居方式, 通過人際和諧、身心健康、環境友好, 為消費者呈現全時段健康、全場景健康、全齡層健康的居住體驗。

REMAC SPACE redefines the way we live by presenting consumers with a living experience that promotes interpersonal harmony, physical and mental well-being, and environmental friendliness. We offer a living experience that is healthy throughout all hours, in every scenario, and for all age groups.

全流程“四化”服務一站式健康內裝品牌標準
Characteristic Full-process Service
One-stop Health-oriented Interior Finishing Brand Standards

- 精標準·設計標準化參數化**
Precised Standards - Parameterized Design
 - 建築、裝修設計一體化模數
Integration of Building and Interior Design Modules
 - BIM 模型協同設計
BIM Model Collaborative Design
 - 建築、設備、管線與裝修零沖突
Zero Conflict between Building, Equipment, Pipeline, and Interior
- 高品質·生產工業化** High Quality - Industrialized Production
 - 產品統一部品化

ADVANTAGES

優勢

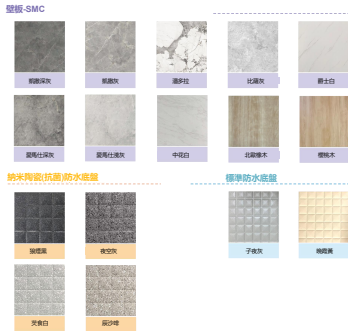

個性定制

Personalized Customization

百變飾面，風格自定

Versatile Finishes,
Customizable Styles

木質真石皆可按需搭配
飾面顏色款式自在配置
或簡或繁，滿足多元選擇
Wood or real stone, flexibly matched according
to your needs
Free configuration of surface colors and styles
Simple or elaborate, catering to diverse choices

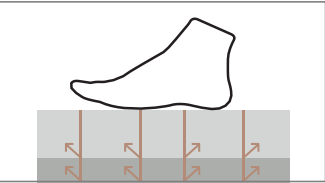

全生命週期全齡呵護

Thorough Care for All Ages

觸感細膩，老幼皆宜

Delicate Touch, Suitable
for All Ages

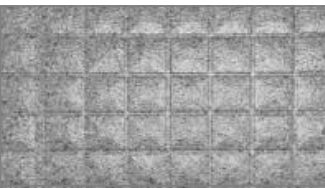

高科技材質膚感親切
有效阻斷熱量散發，保溫性能好
持久恒溫，沐浴前後都不怕著涼
High-tech materials, pleasant to touch;
Effectively blocks heat dissipation,
providing excellent insulation;
Sustained temperature, no worries
of getting cold before or after shower.

防滑親膚，踏實穩固

Anti-slip and Skin-friendly,
Steady and Secure

底盤獨特方格皮紋表面
1.4%排水坡度，加快地面幹爽
防滑凹凸塊設計，讓每一步都牢固
Chassis with unique square-grid surface
pattern;
1.4% drainage slope for quicker dryness;
Anti-slip convex-concave design, provid-
ing a firm grip with every step.

適老設計，無礙通行

Elderly-Friendly Design,
Unobstructed Passage

無礙地面避免長者磕絆
低位扶手設計穩固撐扶
開闊幹濕空間，輪椅也能自由進入
Unobstructed floor surface to avoid
Tripping for the elderly;
Low handrails for stable support;
Spacious wet and dry areas, Wheel
-chair accessible.

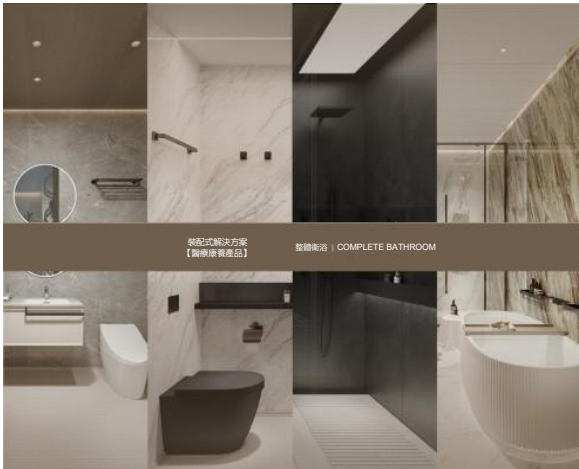

五感舒適

Sensory Comfort

創享五感，氛圍營造

Create Senses-favored Atmosphere

以視/聽/嗅/味 五感定制
涵蓋千餘款標準部品部件
輕鬆開啟沉浸式健康衛浴
Customized for Sight, Sound, Smell, Tou
-ch, and Taste;
Encompassing over a thousand standard
components;
Effortlessly immerse yourself in a healthy
and relaxing bathing experience,

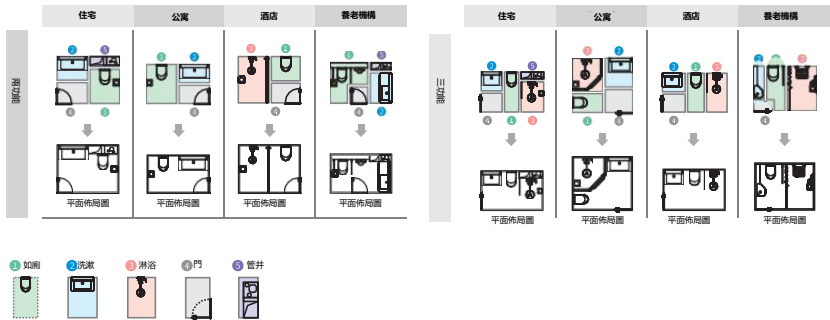

全業態產品解決方案

Integrated Solutions for All Formats

高級組合，隨心定制

Premium Combinations,
Customized to Desire

多樣模組組合裝配模式
突破戶型限制隨心換裝
以人為本煥新生活品質
Versatile modules to be combined
and assembled;
Break free from space limitations,
decorate at will;
Renew your quality of life with a
people-centric approach.

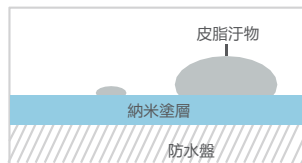

健康與美, 全時相伴
24H HEALTH AND BEAUTY
釋放身心的健康衛浴
Healthy Bathroom to Free Body and Mind

自然共處
Coexistence in Nature

安全的自在 Safe and Comfortable

特殊材質, 抗菌易潔 Special Materials, Antibacterial and Easy to Clean

高質量納米陶瓷噴塗層
質面高端, 觸感極佳
防潮防黴, 地面清潔更加方便
High-quality nano-ceramic coating;
Smooth and high-end surface,
excellent touchsensation;
Moisture and mildew resistant, easy
Floor cleaning.

一體成型, 杜絕滲漏 Seamless Integration, Say No to Leakage

SMC防水盤一體化模壓成型
26mm翻邊高度, 猶如碗狀容器
縱有積水也能滴水不漏
SMC integrated molded waterproof
chassis;
26mm flanging, like a bowl-shaped
container;
No leakage even with accumulated
water.

適宜的溫度 Appropriate Temperature

細緻結構, 隔音隔熱 Exquisite Structure, Soundproof and Insulating

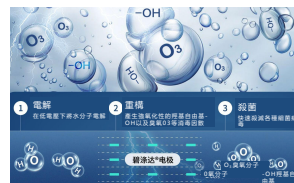

整體衛浴留存最佳空間間隔
防水盤/壁板/頂板/隔離分層
構造優異室內隔音保溫效果
Optimal space separation for Volumetric Prefabricated Bathroom
Waterproof chassis/wall panels/ceiling panels/partition layers;
Excellent interior soundproofing and insulation effects;

安心的呼吸 Easy Breathing

專利消毒, 安心用水 Patented Disinfection, Safe Water Usage

專配消毒殺菌專利技術
設備占地小, 高效效
隨時即享, 醫用級潔淨安全好水
Patented technology for disinfection and sterilization;
Compact equipment, high energy efficiency;
Enjoy clean and safe medical-grade water anytime;

健康品質·從心而至 Excellent Quality, Healthy and Hearty

HEALTHY / HEART

整體衛浴, 洞察當代家裝流行趨勢

採用防水盤與壁板、頂板組合構成整體健康衛浴空間

賦予整體衛浴個性化表達與多樣性功能

創造更多人性化的舒適享受

Volumetric Prefabricated Bathroom, insightful of contemporary home furnishing trends; Utilizing waterproof chassis, wall panels, and ceiling panels to form a complete healthy bathroom space; Infusing the bathroom with personalized expression and versatile functions; Creating more humanized and comfortable experiences.

整裝衛浴相對傳統衛浴施工的優勢: Advantages of Volumetric Prefabricated Bathroom over Traditional Bathroom Construction:

二次裝修成本降低30%
30% Reduction in Secondary Renovation Costs

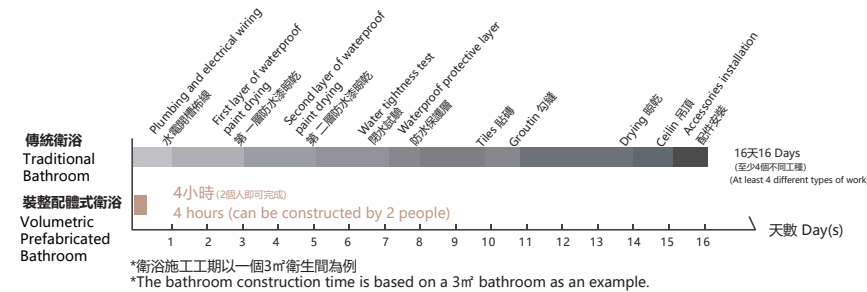

施工效率提高70%
70% Improvement in Construction Efficiency

材料節約30%
30% Material Savings

裝修垃圾減少90%
90% Reduction in Renovation Waste

住宅壽命延長50%
50% Increase in Residential Lifespan

居住環境提升100%
100% Enhancement of Living Environment

快速安裝
Quick Installation

施工便捷
Convenient Construction

工廠部品部件預制, 高標準工業化定制, 毫米級誤差, 工序簡單現場裝配, 以一個3㎡衛生間為例, 2個工人最快4小時即可完成。
Prefabricated factory-made components and parts, high standard industrial customization, millimeter-level precision, simple on-site assembly. Taking a 3㎡ bathroom as example, it can be completed in 4 hours by 2 workers at the fastest speed.

—頂板— - Ceiling Panel -

頂板採用彩鋼板或SMC材質材料相容性強大, 安全牢固頂部預留檢修窗設計讓組裝拆裝更加便捷更便於電器、管道安裝及維護

The ceiling panel is made of colored steel or SMC material with strong material compatibility to be safe and firm. The top is designed with reserved access windows to make assembly and disassembly more convenient, facilitating the installation, maintenance, and repair of electrical appliances and pipelines.

施工便捷

通風
Good
Ventilation

易檢修
Easy
Maintenance

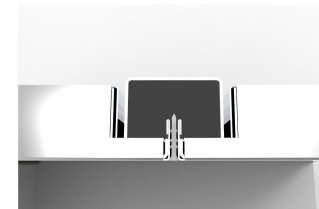

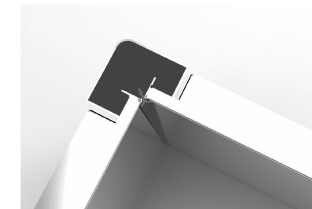

頂板安裝快捷、維護方便，與壁板、防水盤無縫銜接，形成穩定結構；暗藏式燈帶設計，光線柔和不刺眼，兼具美感與實用性。

Ceiling panel is quick to install and easy to maintain, seamlessly connecting with wall panel and waterproof chassis to form a stable structure. The concealed LED strip design provides soft and non-glare lighting, balancing aesthetics and practicality.

—壁板— -Wall Panel-

壁板採用四種性能優越且材料相容性高的材質大理石壁板、瓷磚壁板、彩鋼板壁板、SMC壁板飾面花色豐富，完美駕馭多樣裝修風格。

Wall panel uses four materials with excellent performance and high material compatibility: marble wall panel, ceramic tile wall panel, colored steel wall panel, and SMC wall panel. The surface finishes come in a variety of colors, perfectly suiting various decorating styles.

壁板之間的連接處採用了裝配式模組化密封結構，防水性高。

The joints between the wall panels are watertight with a prefabricated modular sealing structure.

— 納米陶瓷（抗菌）防水底盤 —

Nano Ceramic (Antibacterial) Waterproof Chassis

SMC防水盤經過數千噸壓機高溫高壓一次模壓成型，具有使用壽命長、重量輕、強度高、絕緣、隔熱等優點。
SMC waterproof chassis is molded in one step by a high-temperature and high-pressure press with thousands of tons, which has the advantages of long service life, light weight, high strength, insulation, and thermal isolation.

圓弧形邊角設計，全方位無死角，衛生清潔更方便。
The design of curved corners creates a fully accessible and hygienic environment.

防水盤表面方格皮紋設計，增加防滑摩擦力，提高安全性。
The surface of the waterproof chassis is designed with a grid pattern, increasing the anti-slip friction and enhancing safety.

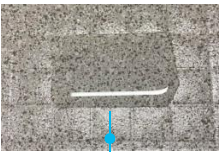

26mm防水盤翻邊結構設計，整個防水盤猶如碗狀容器，即便衛生間有積水也能確保不滲漏。
The 26mm raised edge structure of the waterproof chassis creates a bowl-shaped container, ensuring no leakage even if there is water accumulation in the bathroom.

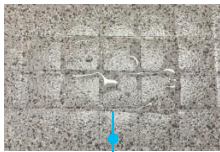

防水盤底部加強筋設計，保證防水盤的承重能力。
The bottom of the waterproof chassis is reinforced to ensure its load-bearing capacity.

快速排水 Quick Drainage

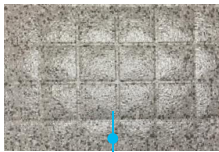

防水盤表面方格皮紋設計，破壞水張力，利於排水；防水盤表面預留1.4%的排水坡度設計，易排水，保證地面快速幹爽。
The surface of the waterproof chassis is designed with a grid pattern, breaking the surface tension of water and facilitating drainage. The surface of the waterproof chassis is pre-set with a 1.4% drainage slope design for easy drainage, ensuring a quick and dry floor.

水被引導進表面的溝裏
Water is guided into the grooves on the surface.

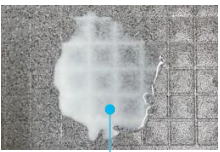

水錶面的張力被破壞，難以形成水珠，順著溝被排走
Surface tension of water is disrupted, preventing the formation of water droplets, and water is drained along the grooves.

防水盤表面恢復幹爽
The surface of the waterproof chassis returns to a dry state.

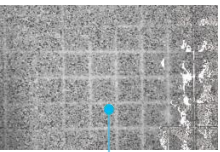

易清潔 Easy Cleaning

防水盤表面採用納米陶瓷噴塗，增加表面硬度及光潔度，同時具備良好的耐磨、耐汙、易清潔等其他材料難以獲得的優異特性。
The surface of the waterproof chassis is coated with nano-ceramic spray, increasing surface hardness and smoothness, while also creating excellent properties such as wear resistance, dirt resistance, and easy cleaning that other materials cannot achieve.

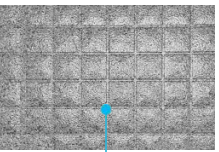

皮脂汙物
Sebum
Stains
納米塗層Nano Coating
防水盤Waterproof Chassis

洗澡產生的皮脂汙垢
Sebum and dirt that fall during bathing.

水 Water
納米塗層Nano Coating
防水盤Waterproof Chassis

自潔納米塗層的排水性，令水進入到皮脂汙垢的下麵
Self-cleaning properties of the nano-coating allow water to penetrate under the sebum and dirt.

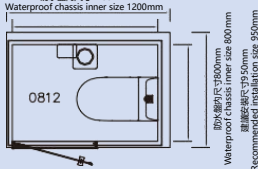

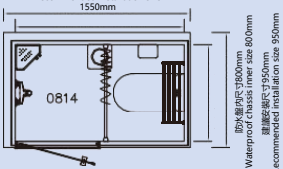

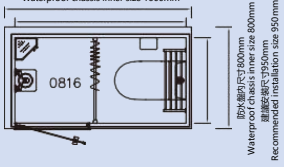

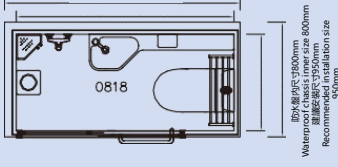

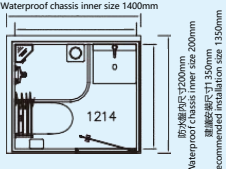

納米塗層Nano Coating
防水盤Waterproof Chassis

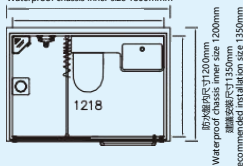

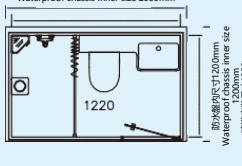

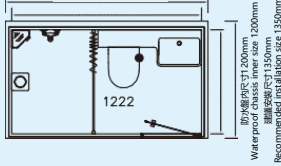

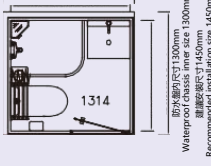

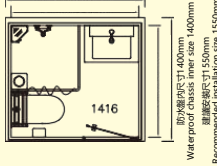

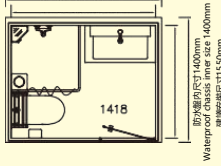

皮脂汙垢隨水流被沖走
Sebum and dirt are flushed away with the water flow.
