

HAN EPOXY

— WUHAN JIANGLING TECHNOLOGY CO.,LTD —

Specification of Epoxy Resin 170

Product Name:	Epoxy Resin 170
Quality Standard:	Tech grade
Description:	170 is a BPF epoxy resin with low viscosity and high levelling properties. It is generally used in solvent-free coating and perfusion application. Good toughness and adhesion can be used in building and electronic insulation materials .

1. The physical and chemical properties

Test Ttem	Specification
Color , G	0~1
Epoxy Equivalent,g/eq	160~180
Viscosity@25°C (cps)	2000 ~ 5000

2. Storage and packaging

Stored in a dry place and the temperature is maintained below 30°C ,it can be sealed for 12 months.

Package:220kg/ iron drum.
