COMPANY PROFILE

Our Company established in 2023 and located in the Free Zone of Wuhan, China, has rapidly implemented a robust quality management system compliant with ISO13485 and obtained CE certification under the Medical Device Regulation (MDR). Our team possesses over two decades of extensive experience in medical devices and safety products. We offer comprehensive safety and first aid solutions to clients across Europe, the UK, and America.

Our primary facility, encompassing both workshop and warehouse, spans an area of 10,000 square meters. It is equipped with automated machinery for processing, packaging, and sterilizing medical devices, as well as assembling safety kits. Currently, our monthly output stands at 200,000 units. We are currently establishing a new subsidiary factory outside Wuhan city, covering an area of 50,000 square meters. This facility will specialize in manufacturing surgical dressings, warning vests, and first aid kits. Upon reaching full production capacity by June 2025, we anticipate a monthly output of one million units of various safety kits.

Tourniquet

Wound Closure Strips

Benefits effectively reduce the lateral tension on both sides of the wound, prevent the scar from widening and hyperplasia at the suture needle; effectively dilute the wound and reduce the chance of scar formation. Application it is used to provide binding force on wound dressings or limbs, so as to bandage and fix.

Emergency Bandages

Size: 4" and 6"

The Emergency Bandage or Israeli bandage is a specially designed, first-aid device that is used to stop bleeding from hemorrhagic wounds caused by traumatic injuries in pre-hospital emergency situations.

The Emergency Bandage is an elasticized bandage with a sewn-in non-adhesive pad.

A sterile non-adherent dressing to allow removing the bandage without reopening a wound.

A pressure applicator placed over the wound to stop bleeding by applying pressure.

It allows changing the direction of the bandage and wrapping it around the wound once in various directions.

Spin-on Tourniquet

Size: 2.5*40cm
Weight: 20G/piece

Bandages

First Aid Dressing Bandages

Material: Bandage and pad;
Bandage: Conforming bandage or gauze bandage;
Pad: Low adherent dressing, cotton covered with gauze or non-woven;
Size: 6x300cm (6x8cm)
8x400cm (8x10cm)
10x400cm (10x12cm)

Elastic Bandages

Elastic bandage is a "stretchable bandage used to create localized pressure" Elastic bandages are commonly used to treat muscle sprains and strains by reducing the flow of blood to a particular area by the application of even stable pressure which can restrict swelling at the place of injury.
Width: 5cm/6cm/7cm/7.5cm/8cm/10cm/15cm
Length: 300cm/400cm/450cm/500cm

Triangular Bandages

Triangular bandage is made from a strong type of cloth that has been cut into a right-angle triangle.
Material: Non-woven or Gauze
Size: 90x90x127cm. 96x96x136cm. 100x100x140cm

Non-woven Wound Dressing

Sterile wound dressing

The aim of a dressing is to promote healing of the wound by providing a sterile, breathable and moist environment that facilitates granulation and epithelialization. This will then reduce the risk of infection, help the wound heal more quickly, and reduce scarring.

Material: Spunlance non-woven or Gauze
Size: 5x5cm/7.5x7.5cm/10x10cm

Sterile Low Adherent Dressing

Low-adherent dressings are designed not to stick to the skin, resulting in minimum trauma when removed. They are most suited to abrasions, superficial cuts and lightly exuding wounds.

Size: 5x5cm/7.5x7.5cm/10x10cm

Sterile Adhesive Dressing

QUICK & EASY TO USE! Sticky around the edges but not in the middle, Island Dressings protect fresh cuts and scrapes without sticking to the wound, for good protection while healing
Size: 5x7.5cm/7.5x7.5cm/6x7cm/10x10cm, etc
