This Attestation of Compliance is issued on a voluntary basis for electrical equipment below the voltage limits of EMC Directive 2014/35/EU. The essential requirement are fulfilled accordingly based on the technical specifications applicable at the time of issuance. See also notes overleaf. It is only valid in connection with the test report number: ZKT-25063014978C.

This Certificate of Conformity is based on single evaluation of the submitted sample(s) of the above mentioned product. It does not imply an assessment of the whole product and relevant. Directives to be observed.

# Product Introduction

The Taxi Top LED screen is a car roof sign for taxis, primarily installed on various vehicles such as cabs, cars, and buses as terminal carriers. It is constructed from an energy-saving LED module that boasts higher brightness, a dynamic program, an extended service life, and a more flexible way to update advertisements.

As a new transmitter in the mobile media field, it can display advertisements in an innovative and attractive manner, ensuring that your advertisements are seen by a vast audience.

# Product Parameters

| Pixel Pitch            | 2.5T           | 3T             | 4T            | 5T            |
|------------------------|----------------|----------------|---------------|---------------|
| Pixel Pitch            | 2.5mm          | 3mm            | 4mm           | 5mm           |
| Cabinet Size           | 960mm x 320mm  | 960mm x 320mm  | 960mm x 320mm | 960mm x 320mm |
| Module Size            | 320mm x 160mm  | 320mm x 160mm  | 320mm x 160mm | 320mm x 160mm |

| Refresh Rate           | ≥3840Hz        | ≥1,920Hz       | ≥1,920Hz      | ≥1,920Hz      |

# Product Features

- The product is designed to offer high reliability. Our advertising is available 24/7, in all weather conditions.
- The vehicle battery is sufficient to power the LED sign, reducing energy consumption.
- The product boasts high brightness, with a luminance of 5000 nit and above. Our taxi top LED sign is highly visible in sunlight.
- The device is capable of playing a variety of media resources, including text, photos, animations, and videos.
- The vehicle can be tracked and located via GPS modules.
- The high-quality acrylic cover ensures the surface of the taxi top LED sign remains clean and free from contamination.

# Installation Guidance

- 1 install bracket, base, screws and key.
- 2 3 install the screen at the central part of the bracket and make it tight.
- 4 put at the top.
- 5 use the key to open the lock, pull the lock hook to the dent park of the side.
- 6 7 8 put up and down to make it tight for the hook
- 9 turn on the sign after installaion.
