ABOUT

Since 2016

Sakes Auto Parts (Shanghai) Co., Ltd, is set up on April of 2016, with the headquarter addressed in Xiechun road, Shanghai city. The company is founded by several powerful regional dealer representatives with the aim to satisfy the demand of transformation and upgrading in the automotive aftermarket. We are a close interest community with a strategy layout target through the output of products and services to optimize the supply chain system, improve the service and close to consumers. We divided the market into different administrative areas, inject funds together, we have the same target and direction, as well as unified management.

With the Sakes brand, we aim to become a professional after-sales service provider in the automotive industry.

Relying on the independent brand “SAKES”, we set R&D(research and development), production, sales and service in one, and strive to build Star brand for auto parts. **The core products focus on Volkswagen and Audi**, we try to meet the demand of the parts models replacement, at the same time, we gradually expand transverse to high-quality products, “market oriented, innovation as the driving force” is our eternal theme.

Today, in auto parts market, numerous brands are competing, we uphold the philosophy of “integrity and service first, quality excellence, innovation lasting”, we adopt the “focus” product strategy, strict process control and efficient operation system, and continuous marketing, to constantly enrich the technology content. We are willing to seek common development and create brilliance, working together with people that have lofty ideals.
