

# High speed and high precision Laser Cutting Machine X1390 激光切割机

High Speed, European Standard and Outstanding Quality

高速、欧洲标准、卓越品质

80W /100W/130W/150W non-metal standardized engraving and cutting solution

80W /100W/130W/150W 非金属标准化雕刻切割解决方案。

## Processing industry and materials 行业和材料

Acrylic, plexiglass, advertising signs, craft gifts, crystal jewelry, paper cutting technology, bamboo carving technology. Printing plate making, garment leather, embroidery, decoration, photo frame making and other industries.

亚克力、有机玻璃、广告牌、工艺礼品、水晶首饰、剪纸工艺、竹雕工艺。印刷制版、服装皮革、刺绣、装饰、相框制作等行业。

## Advantage 优势

### • Transmission structure 传动结构

High precision slider group transmission structure, improve the motion performance and accuracy of the machine, enclosed beam make the traction of the machine more uniform, higher stability, dust-proof and noise-free.

高精度模组传动结构，提高机器的运动性能和精度，封闭横梁使机器牵引力更均匀，稳定性更高，防尘无噪音。

### • Touch industrial computer 触摸工控电脑

Configure touch screen industrial control computer, support wifi communication, can be used directly, no need to install software, more efficient and convenient, instead of laptop computers.

配置触摸屏工控电脑，支持wifi通讯，可直接使用，无需安装软件，更加高效便捷取代笔记本电脑。

### • Built-in water chiller 内置冷水机

Updated to a built-in water chiller, no installation required, saving time and effort.

升级为内置式冷水机，无需安装，省时省力。

## Detail display 细节展示

## Technical Parameters 技术参数

Model 型号	X1390
Laser Power 激光功率	80W、100W、130W、150W
Working Area 工作区域	1300mm×900mm
Laser Type 激光类型	CO2 sealed-off layers of glass tube (CO2封离式玻璃管激光器)
Control and Drive 控制与区域	stepper motor and high subdivision driver (步进电机与高细分驱动器)
Kvw 工作电压	AC220V 50Hz
Positioning Accuracy 加工精度	0.05mm
Total Power总功率	≤2500W
Machine Size(mm) 机器尺寸(mm)	1885×1422×1028

## Optional 选配

Honeycomb table , CCD
