BLACK MAMBA

/ BASS ROD /

NEXT-GEN T1100G

The carbon fiber combines the two - fold contradiction of high elasticity and high strength by using sintering technology that controls fiber structure at the nano-level.

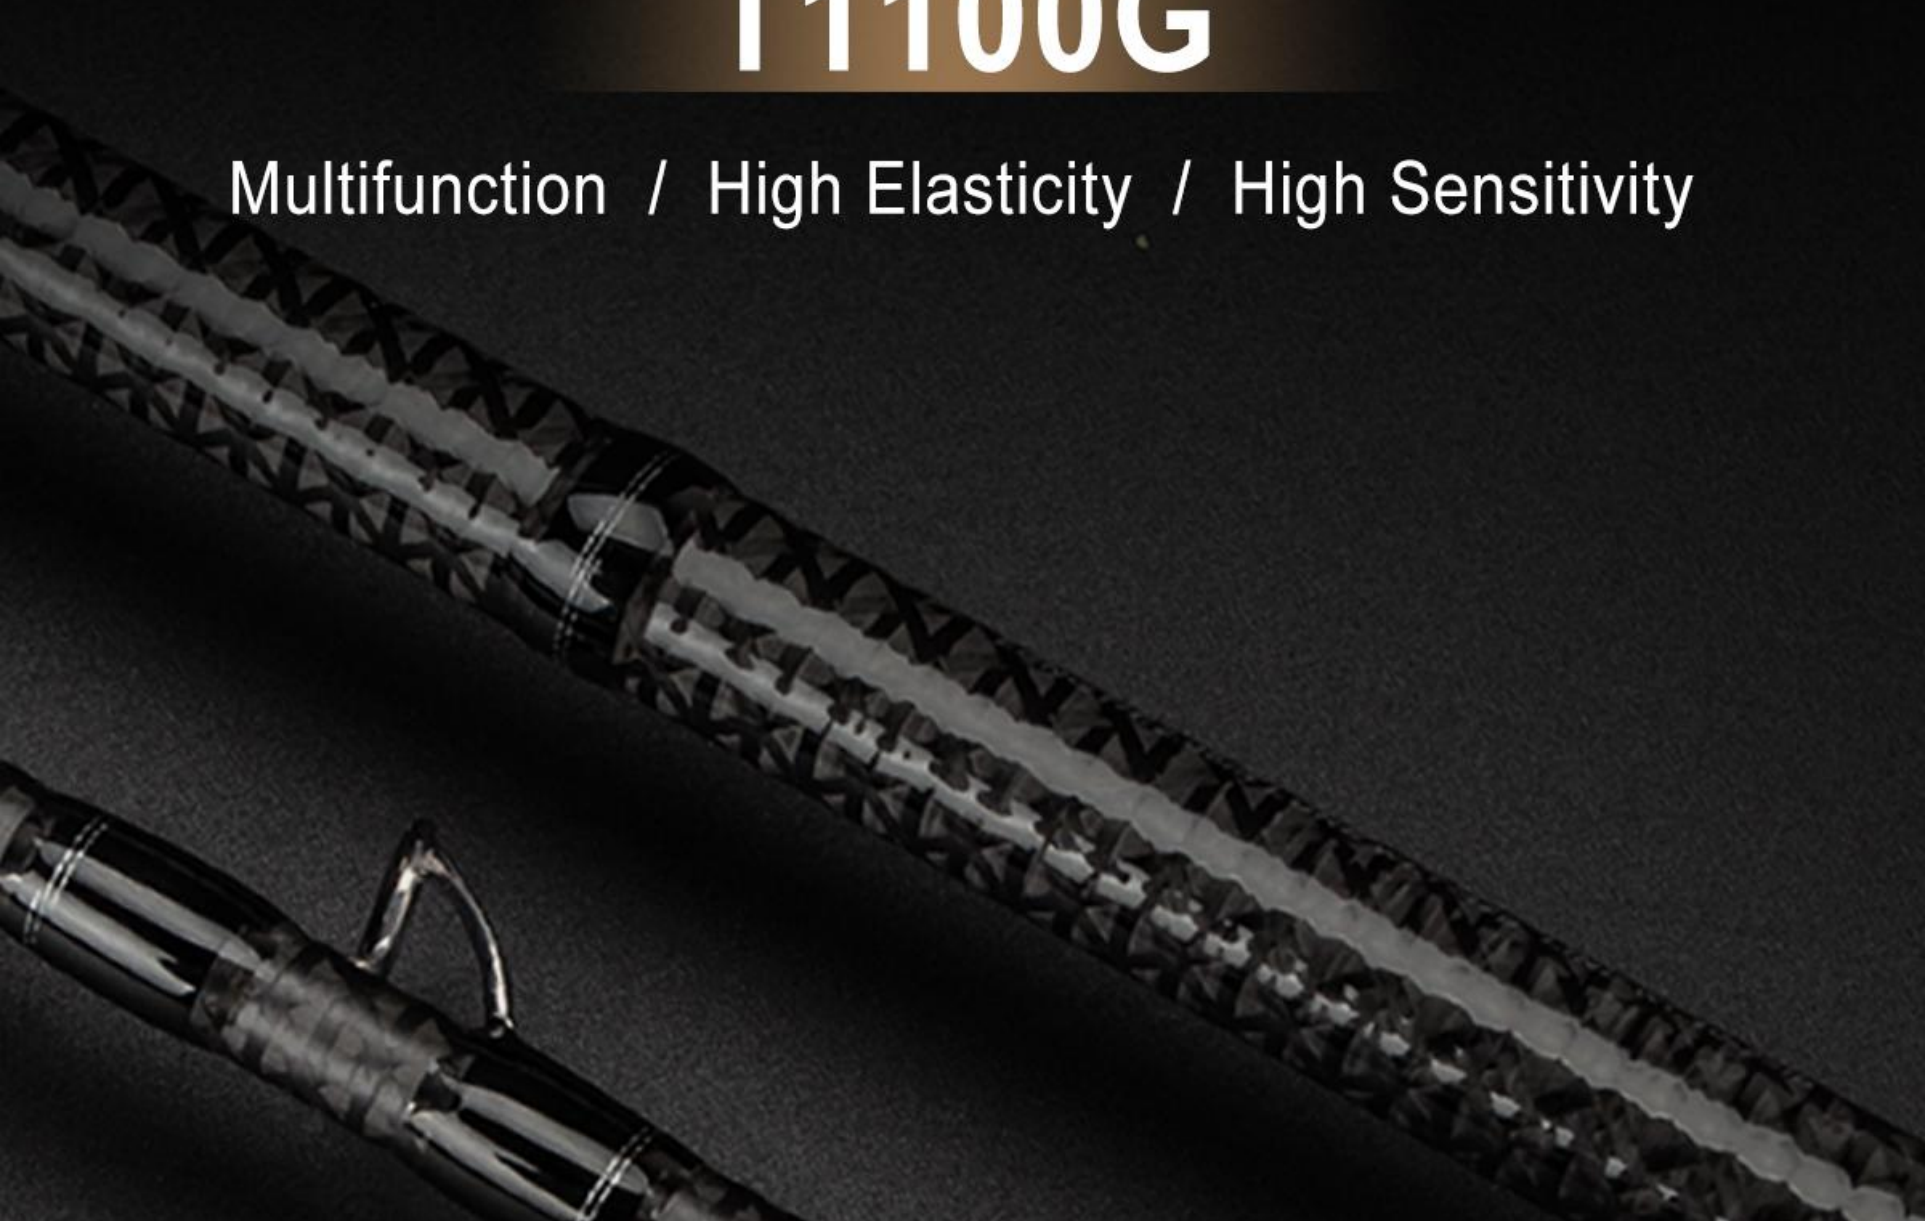
T1100G

Using T1100G combined with other high - performance materials and advanced fishing - rod - manufacturing techniques, here come the revelutionary Blackmamba Bass Rod.

TORAY NEW GENERATION CARBON FIBER

T1100G

Multifunction / High Elasticity / High Sensitivity

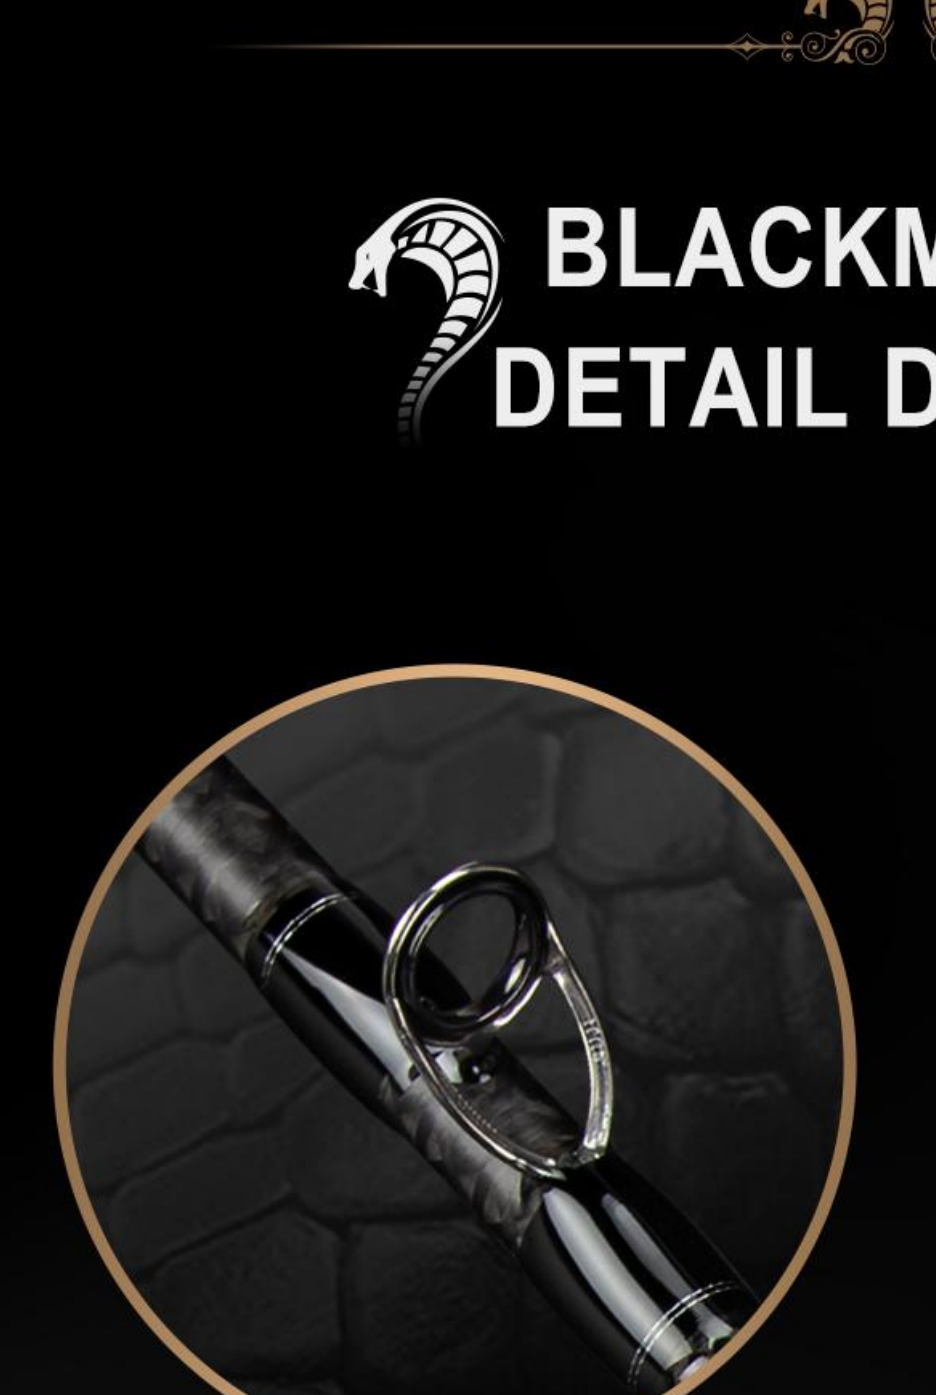


X45 CARBON FABRIC

In general, the strength and elasticity of carbon fibers are trade-offs, in which one increases and the other decreases.

T1100G is a cutting-edge material for fishing rods which improves lightness, high sensitivity, far long-casting ability, and ease of catching fish.

BLACKMAMBA DETAIL DISPLAY



GUIDE SYSTEM

Equipped with Fuji lightweight detangling titanium metal frame to enhance the performance of TORZITE magnetic rings.

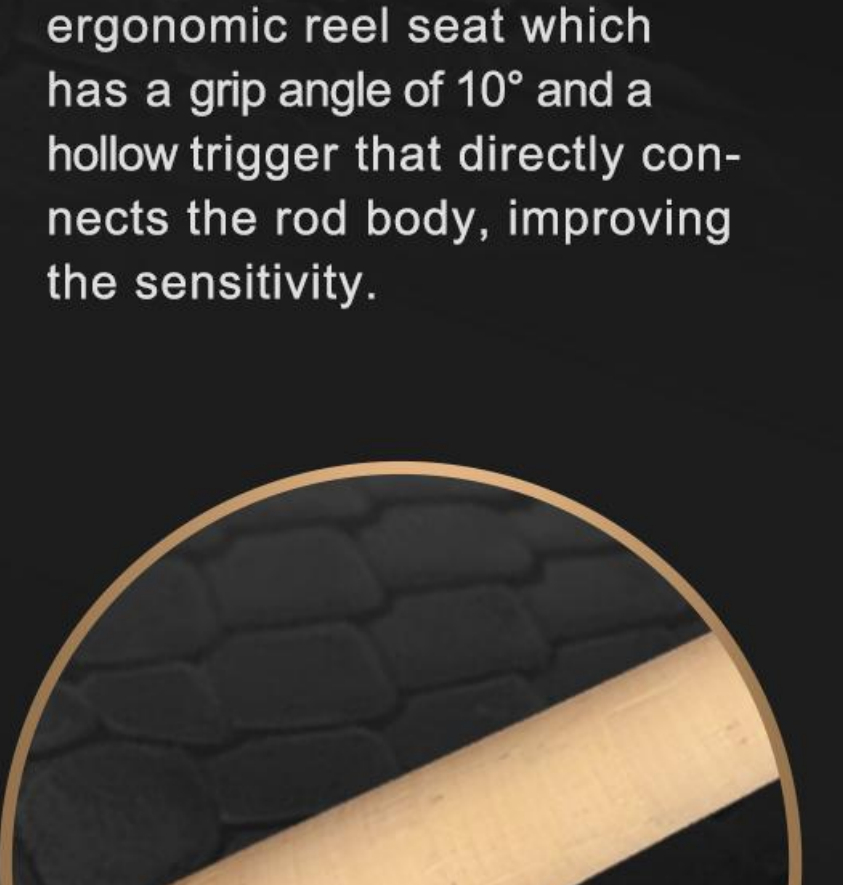
B69MHXF - ST and B66MXF models are equipped with T - KGTT top rings, T - KTTG (2- 8), and T - KWTG (9 - 10).

REEL SEAT

Equipped with a FUJI - ECS ergonomic reel seat which has a grip angle of 10° and a hollow trigger that directly connects the rod body, improving the sensitivity.

REEL SEAT SCREW CAP

Equipped with a FUJI - KD-PS/ASH screw cap and hollow - out aluminum parts, which are lightweight, firm and tight.



CORK GRIP

Equipped with AAA - grade cork, which is lightweight and provides a comfortable and soft grip.

BUTT

Blackmamba means Never Say Die.

TORZITE OFFICIAL INTRODUCTION

Torzite can fully utilize the performance of rod and line.Featuring being lighter and more durable together is theeternal pursuit of FUJI. It has been 43 years since thedevelopment of the SIC ring in 1981. And the supreme ceramicring [TORZITE] surpassing the SIC ring represents the birth ofthe next-gen ceramic ring.

BLACKMAMBA TECHNICAL PARAMETERS

CASTING B66MXF

LENGTH:1.98 | WELGHT:105G
LURE WT:5-35G | LINE WT:10-20LB

Introducing the Blackmamba B66MXF which features strength, lightness elasticity and sensitivity. It can detect complex underwater structures and cope with unknown fish conditions in the wild environment, and also has the ability to cast small lures. We use TORAY® M40J + 24T X45 carbon fabric for the whole rod, and TORAY® T1100G+M40J + QUATTR0 four - axis in the middle and rear sections, forming the hidden internal power of the whole rod, which can be released when needed.
This is the Blackmamba B66MXF.

MODEL	ROD LENGTH	GRIP LENGTH (mm)	# PIECES	ROD WEIGHT (g)	LINE RATING (#)	TIP DIAMETER/ BUTT DIAMETER (mm)	ROD ACTION	LURE WEIGHT (g)	LINE WEIGHT (lb)	CARBON FIBER CONTENT
B66MXF	6'6"	240	1	105	0.8-1.5	1.6/11.6	XF	5~35g	10~20	99%

⑤ Toray X45

CASTING B69MHXF-ST

LENGTH:2.06 | WELGHT:103G
LURE WT:7-42G | LINE WT:10-25LB

Introducing the Blackmamba B69MHXF-ST, designed to elevate your angling experience when you are fishing in the rapids or targeting bass and other predators. To achieve a genuine light grip, a backward-shifted center of gravity, excellent sensitivity and a strong backbone，we have incorporated the TORAY® T1100G + M40J + M46J + QUATTRRO four-axis + 24T X45 process into the solid tip section of the rod. This not only ensures the rigidity of the fishing rod but also endows it with good elasticity, eliminating any unsmoothness during long-distance casting.

MODEL	ROD LENGTH	GRIP LENGTH (mm)	# PIECES	ROD WEIGHT (g)	LINE RATING (#)	TIP DIAMETER/ BUTT DIAMETER (mm)	ROD ACTION	LURE WEIGHT (g)	LINE WEIGHT (lb)	CARBON FIBER CONTENT

⑤ Toray X45

CASTING B65M-MLXF

LENGTH:1.96 | WELGHT:99G
LURE WT:3-35G | LINE WT:6-16LB

Introducing Blackmamba B65M-MLXF，designed to have excellent control for small-and-medium-sized soft-bait fishing rig and extraordinary sensitive touch feedback.The overall weight of the rod is relatively light, so its hand feel and grip are excellent.

MODEL	ROD LENGTH	GRIP LENGTH (mm)	# PIECES	ROD WEIGHT (g)	LINE RATING (#)	TIP DIAMETER/ BUTT DIAMETER (mm)	ROD ACTION	LURE WEIGHT (g)	LINE WEIGHT (lb)	CARBON FIBER CONTENT

CASTING B70HXF

LENGTH:2.13 | WELGHT:112G
LURE WT:7-56G | LINE WT:10-30LB

In order to fish big predators under deep water and structures, the strong Blackmamba B70HXF is designed. It is a versatile model for controlling various large lures and has excellent long-distance casting performance and a strong backbone which ensures quick response for fish bites.

MODEL	ROD LENGTH	GRIP LENGTH (mm)	# PIECES	ROD WEIGHT (g)	LINE RATING (#)	TIP DIAMETER/ BUTT DIAMETER (mm)	ROD ACTION	LURE WEIGHT (g)	LINE WEIGHT (lb)	CARBON FIBER CONTENT

⑥ Toray X45

SPINNING S68MHXF

LENGTH:2.03 | WELGHT:94G
LURE WT:5-42G | LINE WT:8-20LB

It has a rigid rod body which increases the maximum bait weight for casting and makes it more versatile, and a sensitive rod tip which can sense the moment when a fish bites, easily pierce through the upper jaw of the target fish and pull them out from the complex underwater structures.

MODEL	ROD LENGTH	GRIP LENGTH (mm)	# PIECES	ROD WEIGHT (g)	LINE RATING (#)	TIP DIAMETER/ BUTT DIAMETER (mm)	ROD ACTION	LURE WEIGHT (g)	LINE WEIGHT (lb)	CARBON FIBER CONTENT
