Company Introduction

Digah

Guangzhou House Empire Construction&Furnishing Co., Ltd. is a comprehensive and professional company integrating R & D, production, sales, installation and service with strong technical force, advanced production equipment, sound quality control system, skilled professional installation team & after sales service. We're the manufacturer with decades of experience in producing doors and windows, located in Guangzhou of China, which includes PVC glass doors and windows, aluminium glass doors and windows, metal roller shutters, polycarbonate rolling shutters, fire rated shutter and smoke curtain, insulated overhead sectional garage door and glass garage doors, industrial doors of lifting overhead door and high speed door, etc.

As a local doors and windows supplier, we had good opportunity to participate in the construction and building of our city, such as Airport of Guangzhou and Beijing, Guangzhou South Railway Station, Canton Tower and Aeon Super Mall etc. And also help to give solutions to customer's own house project. In the past decades of years, we have accumulated rich experience in production and installation. And in the meantime, we have also constantly collected various problems and questions, then reported to our rolling door production line to find the solutions and keep on always seeking for improvements. Thus, for the demand of rolling shutter doors in overseas markets, we are have enough confidence in providing customers with right and good products.

We uphold the development concepts of professional, innovative, sincere, and efficient, focusing on product characters of art, aesthetics, safety and durability, to concentrate on creating high-quality fashion life for you and sincerely provide you with a satisfactory service.

Our products are applicable to business centers, industrial and mining enterprises, large exhibition halls of science and technology, government agencies, villas, hotels, shops, malls and various of buildings. Perfect product quality, excellent after-sales service and competitive price will give you full satisfaction.

Whatever your security shutter requirements, our team will guide you to the best solution.

Accordion Gate

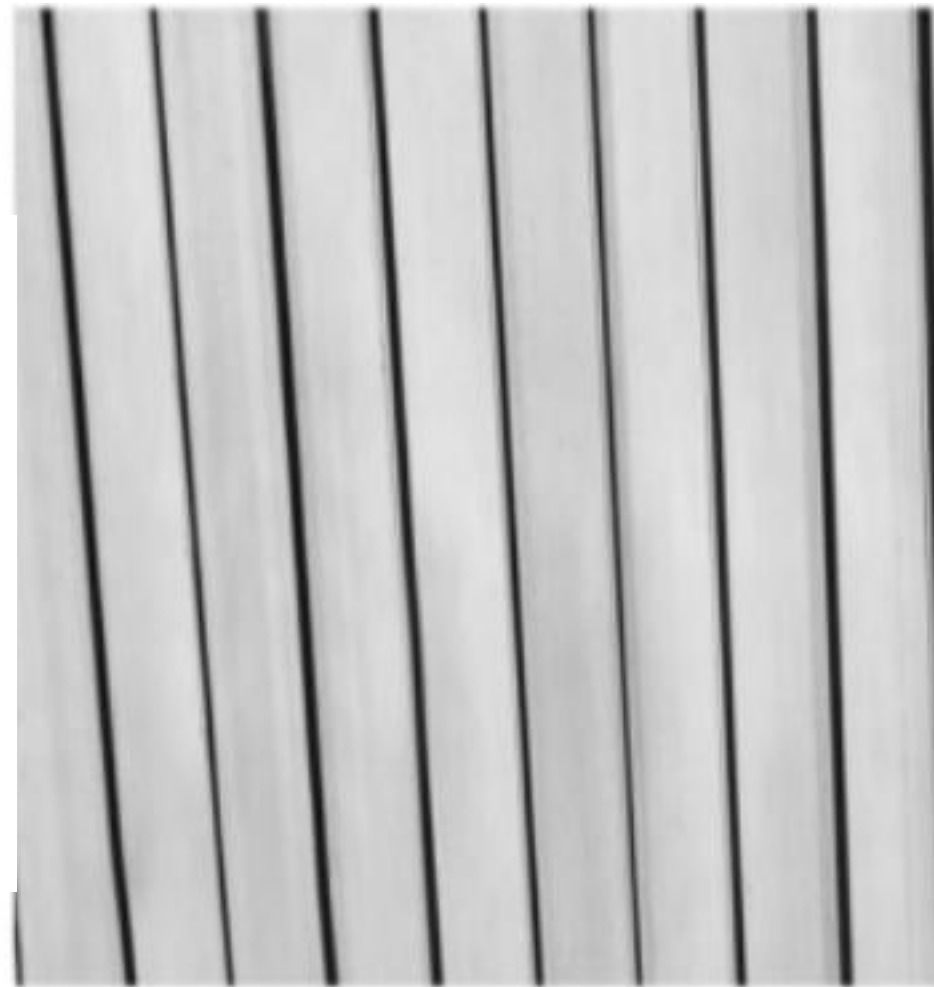

Contents:

- >3 STAINLESS STEEL SERIES
- >7 ALUMINUM ALLOY SERIES
- >10 GALVANIZED SERIES
- >14 HARMONY SEAL SERIES
- >20 ALUMINUM ALLOY FOLDING SERIES
- >25 SCREEN DOOR SERIES

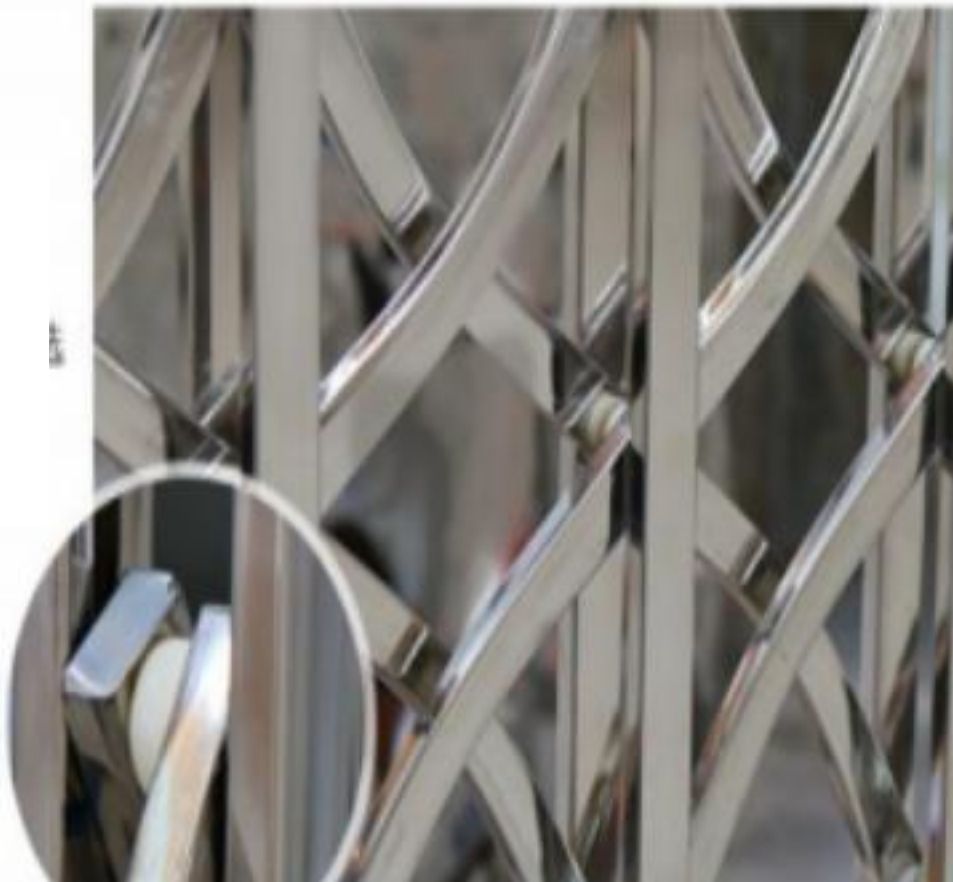

High quality stainless steel buckle. It has strong anti-oxidation, hard material, dense and wear-resistant, three-hook lock, and stronger anti-opening technology

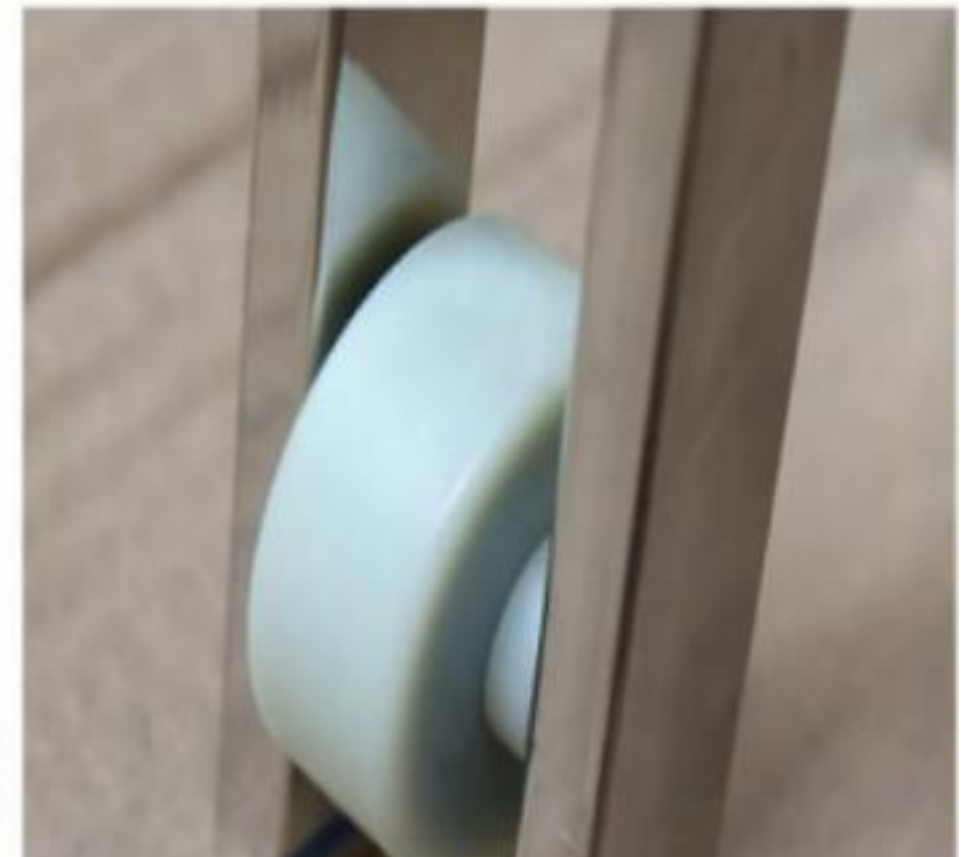

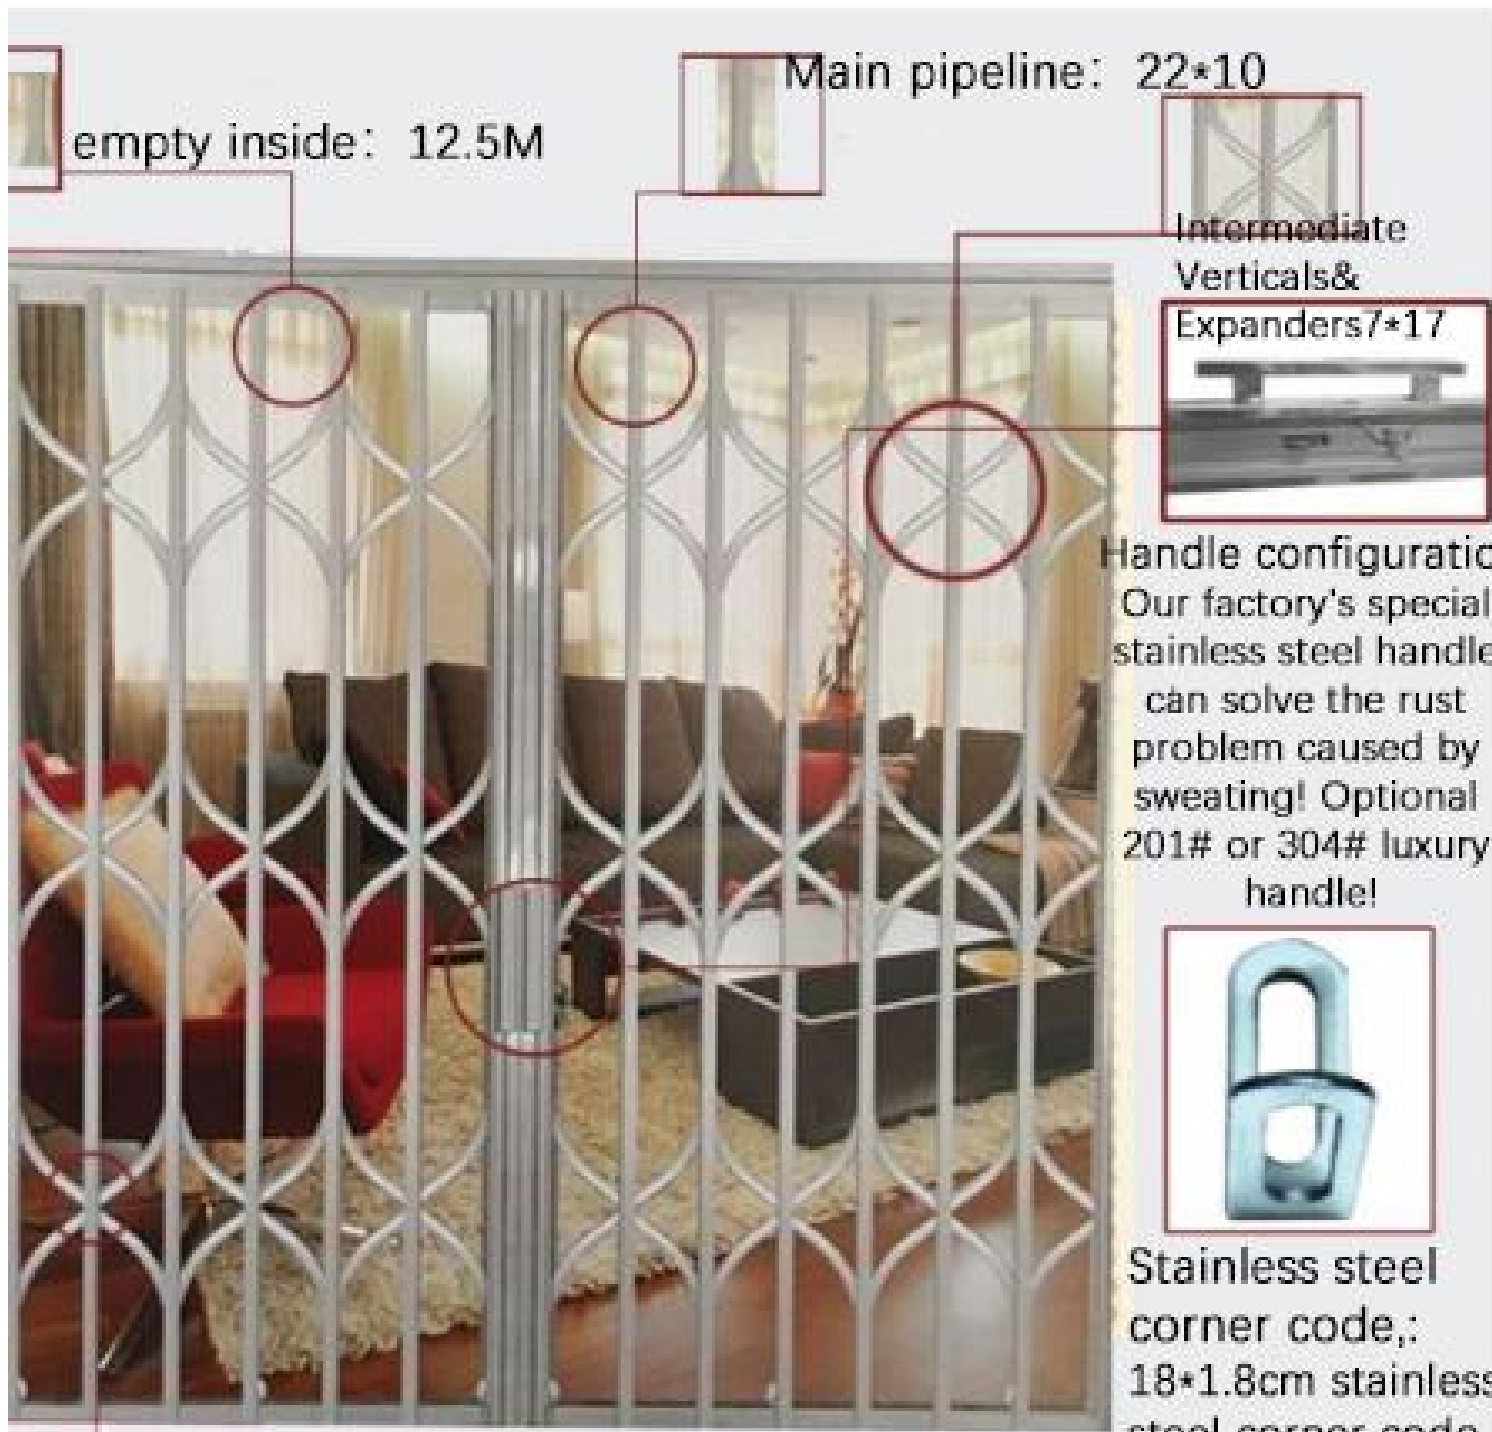

Stainless steel square tube. Stainless steel square pipe is a kind of hollow steel. It is called square pipe because the street surface is square. When it is bent, it has the same torsional strength and is lighter in weight, so it is widely used.

Stainless steel Intermediate Verticals&Expanders. Sturdy structure, long service life, optional combination of Intermediate Verticals&Expanders and pattern.

Brake roller. The upper and lower sides of the gate are equipped with rollers, which make it easier to open and prevent the gate from being pushed and pulled to wear and shorten its service life.

empty inside: 12.5M

Main pipeline: 22*10

Intermediate Verticals & Expanders 7*17

Handle configuration
Our factory's special stainless steel handle can solve the rust problem caused by sweating! Optional 201# or 304# luxury handle!

Stainless steel corner code,
18*1.8cm stainless steel corner code

Gasket:
The factory's special ABS new rubber gasket is used to replace the old and inferior film. The fixed guide rod is thickened and galvanized (guaranteed for three years), which solves problems such as door body sagging, gasket wear, and loud opening sounds after installation.

Standard roller:
off-white rubber v
wear-resistant and
easy to push

Real shooting cases:

01

Made of high quality solid flat iron.
Harder and stronger anti-theft performance.

02

Position the opening manually. Made entirely by hand. More accurate positioning and more accurate hole opening.

03

Thousands of times of hard work.
The rivets are hammered purely by hand, so they are firm and will not fall off.

04

Security and anti-theft.
The lock is delivered free of charge and adopts an old-fashioned one-word lock, which is safer and more secure.

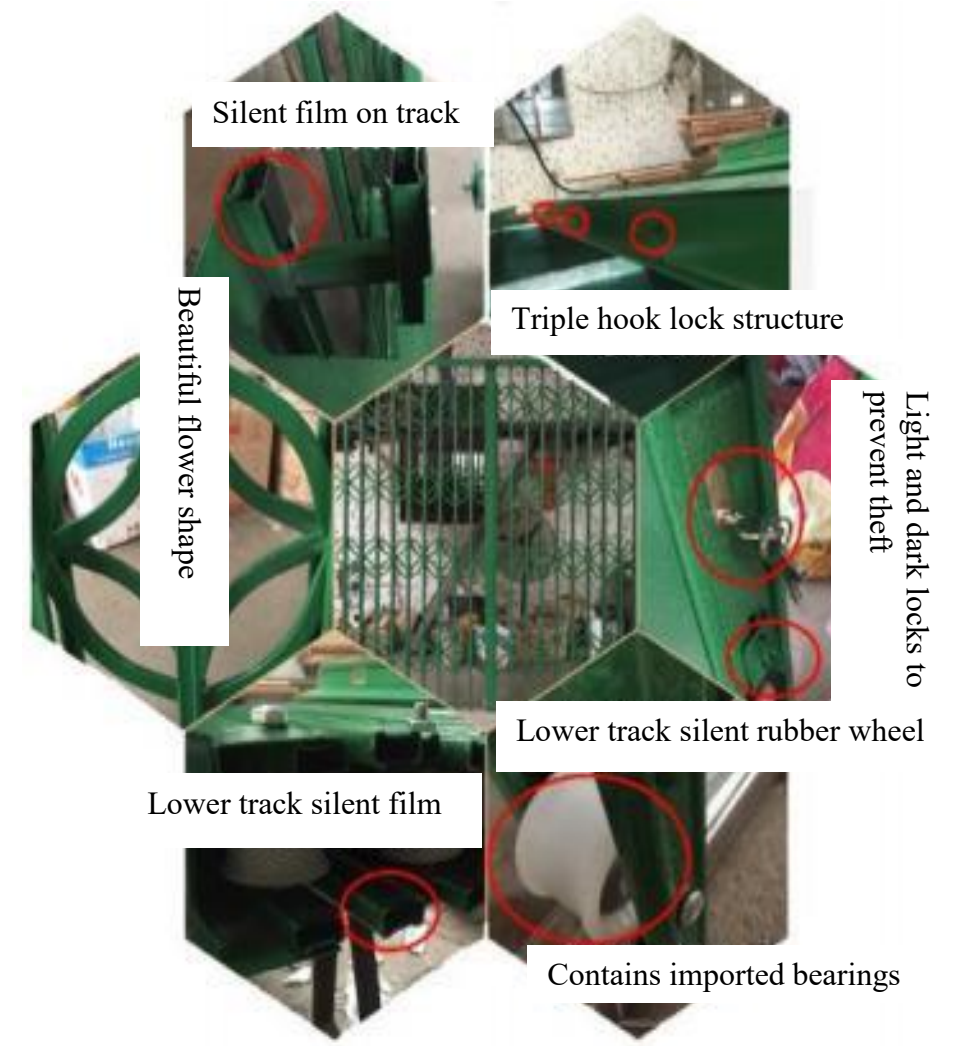

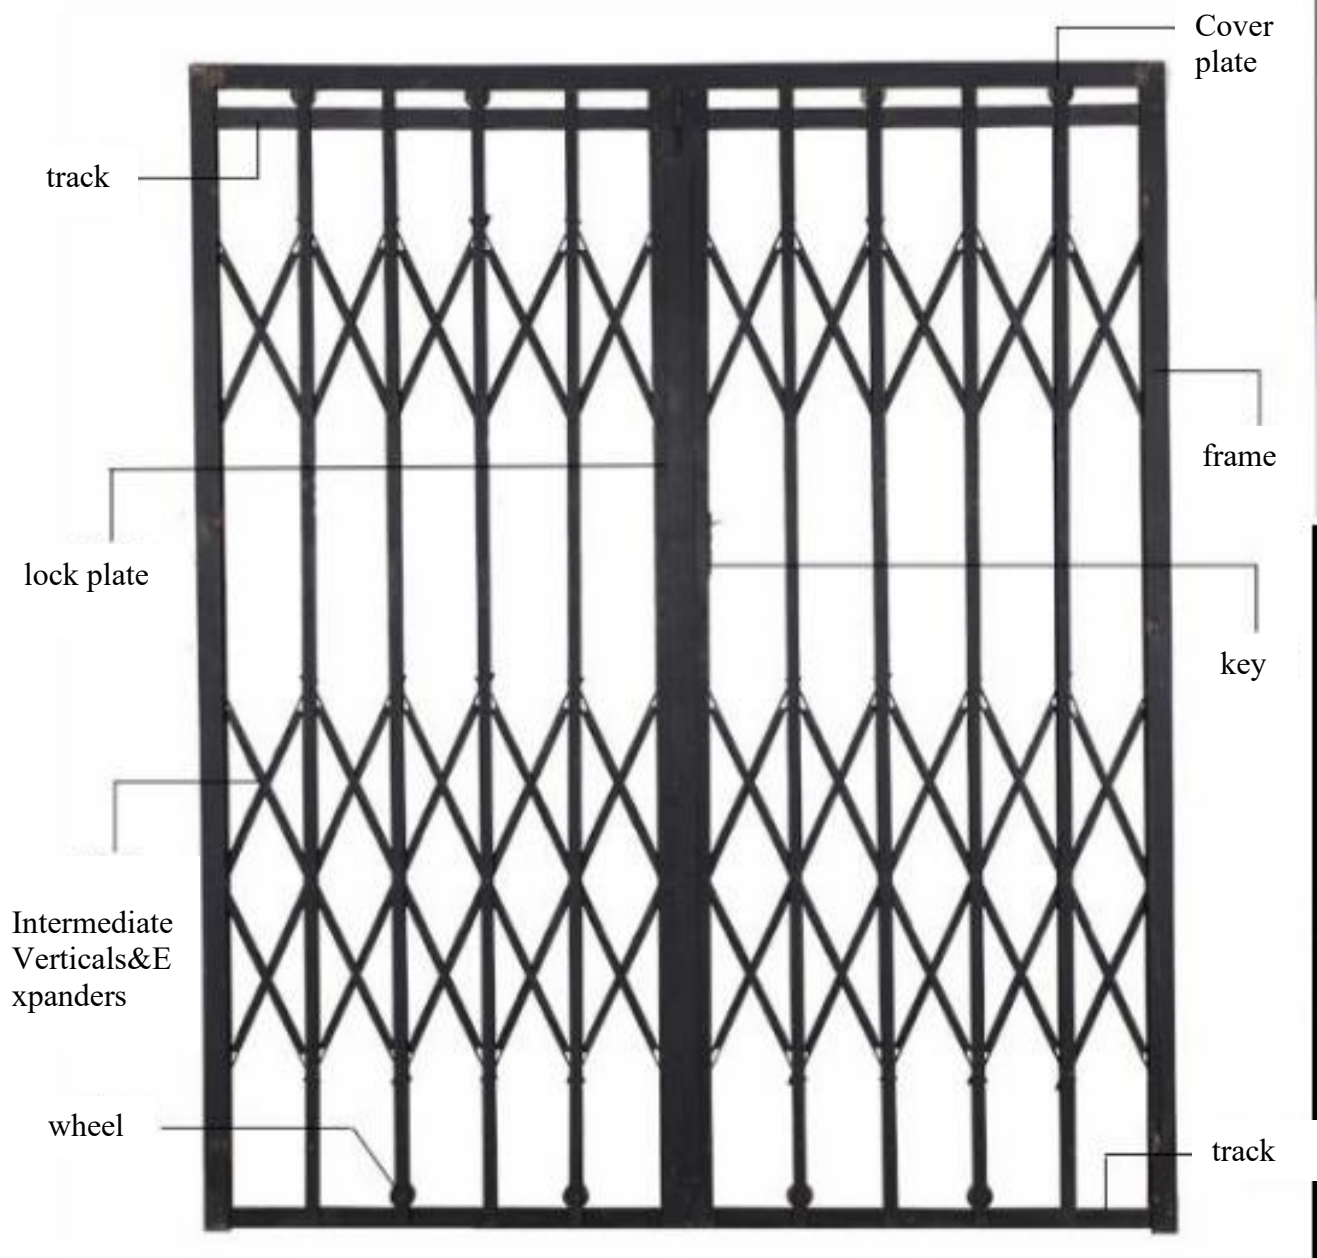

05

Push and pull light.
Bearing wheels allow you to switch without worry.

06

Layers of protection.
Use Life Insurance paint, a layer of square rust paint and a layer of surface paint to achieve the best anti-rust effect.
