

Company Profile

Established in 2008, the company specializes in the manufacturing of window and door equipment.

In the manufacturing industry, especially in the field of non-standard customized window and door equipment, long-term experience means a profound understanding of craftsmanship, customer needs and technological iteration. This is not only an accumulation of time, but also the building of technical barriers.

Since 2015, we have been developing the overseas market and have covered more than 100 countries in just a few years. This not only represents excellent product quality, but also shows that our after-sales service system and brand influence have reached international standards.

As a global giant in new energy vehicles, BYD has extremely high requirements for supporting equipment in factory construction. The fact that Hisena can provide full sets of window and door equipment for BYD's projects in many provinces and cities in China as well as in Brazil shows:

Our technical strength is recognized by top customers.

Hisena not only provides equipment, but also offers total solutions, including the whole process from design, production and installation to commissioning and training.

Our global service capability is verified.

We can overcome geographical and cultural barriers to provide high-quality services for international customers.

Hisena is more than a window and door equipment manufacturer. We are a high-end equipment manufacturing enterprise with profound technical accumulation, global layout capability and experience in serving world-class projects. We are an epitome of the upgrading of China's manufacturing industry from Made in China to Smart Manufactured in China, and also an outstanding representative of China Smart Manufacturing going global.
