

1T-30T Tube Ice Machine

1T-30T 管冰机

技术参数 Technical Data

The tube ice produced by the industrial tube ice machine is hollow and cylindrical, featuring a clean, crystal-clear appearance, attractive shape, good air permeability, high ice density, and slow melting. With a daily ice production capacity ranging from 1 to 30 tons, the complete series can meet diverse commercial ice demands. The entire machine adopts a modular design and a fully automatic control system, paired with a food-grade stainless steel evaporator, ensuring both the hygienic safety of the ice and highly efficient, stable operation of the equipment.
