

Vertical Snow Maker

直立式雪花制冰机

技术参数 Technical Data

This upright snowflake ice machine is built for commercial use, featuring a full stainless steel exterior that is sleek, corrosion-resistant, wear-proof, and durable. Equipped with a full micro-computer control system, it monitors the entire ice-making process for intelligent, worry-free operation. The machine produces fine, dense snowflake ice with excellent permeability — it quickly surrounds and cools items, delivering superior chilling performance without damaging the surface of the cooled products. It widely meets the needs of different customers, including seafood preservation, supermarket displays, and laboratory cooling. The control panel clearly indicates operating statuses such as Running, Ice Full, Water Shortage, and Malfunction, making daily management and maintenance clear at a glance while ensuring perfect protection.

Model	Ice Production	Ice Storage Capacity	Ice Shape	Power/Voltage	Size
IMS-20	20kg/24h	10kg	Irregular fine particles	280w/220v	330x470x605mm
IMS-30	30kg/24h	10kg		300w/220v	330x470x605mm
IMS-40	40kg/24h	15kg		360w/220v	400x543x720mm
IMS-50	50kg/24h	15kg		380w/220v	400x543x720mm
IMS-60	60kg/24h	25kg		420w/220v	400x510x875mm
IMS-100	100kg/24h	40kg		520w/220v	330x470x605mm
IMS-120	120kg/24h	50kg		550w/220v	330x470x605mm
IMS-150	150kg/24h	50kg		680w/220v	400x543x720mm
IMS-200	200kg/24h	80kg		1040w/220v	400x543x720mm
IMS-250	250kg/24h	80kg		1100w/220v	400x510x875mm
