## 技术参数 Technical Data

The cube ice machine is specialized equipment for producing high-quality edible ice, widely found in hotels, bars, coffee and cold beverage shops, the catering industry, food processing, and ice plants. It produces ice cubes that are crystal clear, clean and hygienic, high in density, and slow to melt, effectively preserving beverage taste and food freshness for longer. Constructed with food-grade stainless steel and an advanced control system, the machine ensures the ice is safe for direct consumption while delivering efficient, stable, unattended production—making it an ideal choice for both commercial and industrial ice needs.

### 标准运行工况 Standard Working Conditions

环境温度(Ambient Temp): 25°C

电源(Power Supply): 3P/380V-420V/50Hz/60Hz

进水温度(InletWater): 18°C

给水压力(Water Inlet Pressure ): 0.1MPa~0.5MPa
