

Shuhe Wellness — Premium Aged Mugwort Moxa Sticks

Product 1: 5.0 cm × 14 cm Moxa Stick

Burn Time: 90–150 minutes

Moxa Ratio: 15:1 (high-grade refined moxa wool)

Material: 3–5-year aged mugwort + selected mugwort leaves

Suitable For

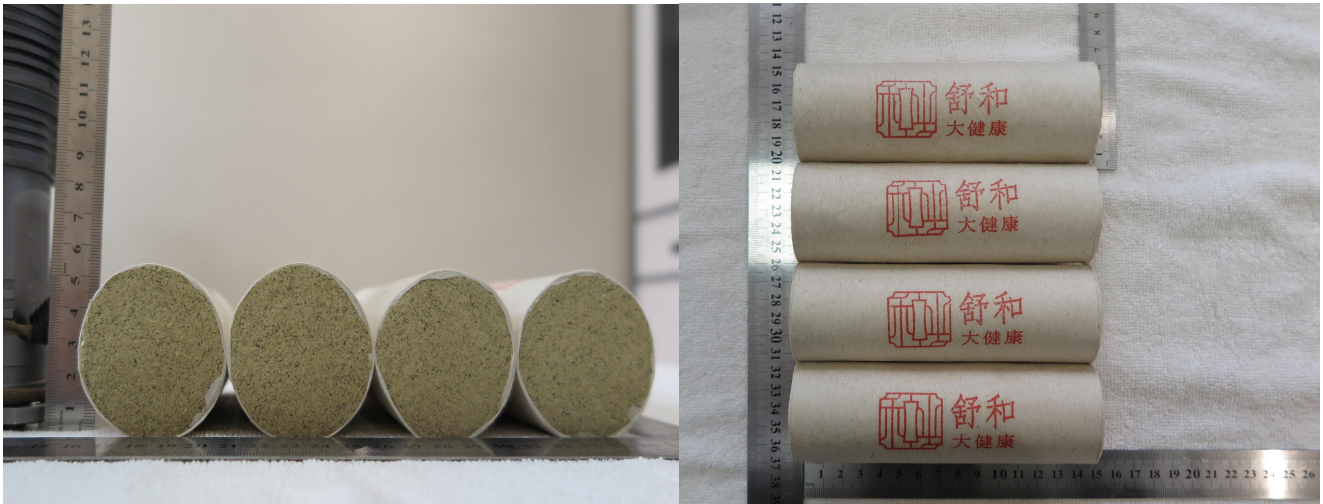

Deep, intensive conditioning — ideal for individuals with moderate-to-severe cold constitution, poor circulation, chronic fatigue, or those requiring deeper qi and blood nourishment.

Key Features

Medium to strong thermal output

Excellent penetrating warmth

More suitable for individuals with average or stronger constitutions

Product 2: 3.5 cm × 16 cm Moxa Stick

Burn Time: 60–120 minutes

Moxa Ratio: 15:1 (high-grade refined moxa wool)

Material: 3–5-year aged mugwort + selected mugwort leaves

Suitable For

Gentle daily wellness — ideal for beginners, people with sensitive constitutions, elderly

users, and those seeking mild daily maintenance.

Key Features

Soft, warm heat without irritation

Lighter smoke and more comfortable aroma

Very user-friendly and suitable for new users

S

Product 3: 6.0 cm × 10 cm Moxa Stick

Burn Time: 60–120 minutes

Moxa Ratio: 15:1 (high-grade refined moxa wool)

Material: 3–5-year aged mugwort + selected mugwort leaves

Suitable For

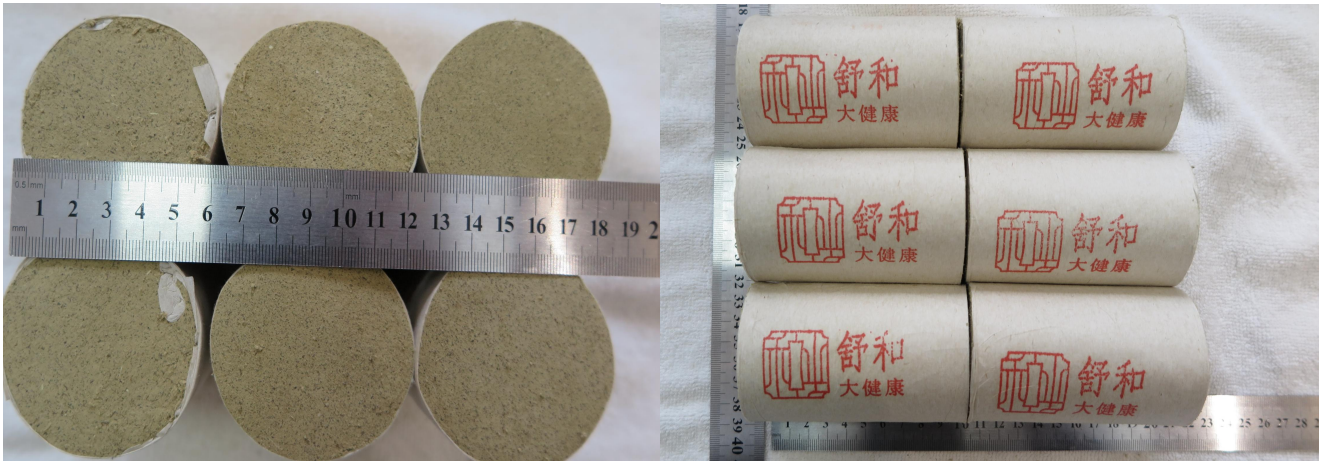

Strong, deep-penetration therapy — ideal for individuals with severe coldness, weak yang energy, or those needing powerful heat stimulation.

Key Features

Strong thermal intensity

Large heat output and deeper penetration

Commonly used in professional moxibustion treatments

General Product Advantages (Refined)

1. Long-Lasting Burn · Stable, Even Heat Release

Each moxa stick is tightly hand-rolled to ensure a consistent and stable burn.

It provides 1–2.5 hours of continuous heating, making it ideal for:

Full-body conditioning

Meridians warming

Individuals with cold and deficient constitutions

The steady warmth helps the body gradually

y build a deeper and more sustained therapeutic heat sensation.

2. Balanced Heat · Comfortable Penetration

With a 15:1 high moxa content, the stick delivers:

Warm but not harsh heat

Gentle yet penetrating energy

Reduced risk of local overheating even during prolonged sessions

This makes the experience therapeutic and comforting rather than stimulating or aggressive.

3. High Combustion Rate (Up to 95%) · Low Smoke Output

Thanks to premium aged moxa wool with minimal impurities:

Combustion is thorough and stable

Ash remains fine and compact

Smoke is soft, pure, and non-irritating

Suitable even for smaller indoor spaces or users sensitive to strong smoke.
