Building a friendly educational space to support childrens development

企业介绍

Company introduction

Based on the developmental characteristics of children

See the developmental needs of children

Support the development of children's strengths and personality

Enterprise Positioning

Haijilun (Hikey love) an integrated enterprise focusing on comprehensive solutions for children's education spaces. With 25 years of in-depth experience in the industry, we have built an integrated service system of "Space Planning + Product R&D + Project Implementation". We are committed to providing overall space solutions for kindergartens, early education centers, international educational institutions, etc., covering: kindergarten furniture, customized children's safety spaces, educational soft furnishings, and environmental system planning.

About Us

Hikeylove: Specializing in Early Childhood Education Equipment for 25 Years.

Since its establishment, we have continuously integrated cutting-edge industry theories and focused on independent R&D designs based on children's physical and psychological development needs. All materials used in our product series comply with both Chinese national standards and EU certifications. Today, we possess innovative spatial planning systems and multiple full-chain production facilities, holding 700+ patented technologies and serving 20,000+ Educational Institutions.

Committed to creating high-quality, safe, and eco-friendly early education spaces that foster environmental stimulation, we inspire children's growth.

2001 年

- Startup Stage: Focused on manufacturing children's furniture and serving regional kindergarten clients.

2010 年

- Development Stage: Established an independent design center and completed a full-range upgrade of products.

2021 年

- Standardization & Systematization Stage: Launched the 6th-generation modular learning space products, built a "child behavior development-oriented" design system.

2006 年

- Growth Stage: Expanded rapidly and formally entered domestic and international markets.

2016 年

- Brand Remodeling & Upgrade Stage: Founded the "R&D Center + Space Solution Department" and introduced the concept of "systematic space solutions".

2026 -

- Benchmarking & Globalization Stage: Deepened cooperation with benchmark kindergartens, continuously promoted product iteration and environmental protection upgrades, and strived to build a global benchmark brand in children's furniture.

Environmental protection first

We Integrate Children's Breath into Every Design

Every time we select materials, we first ask ourselves a question: How long will a child sit at this table every day? Hikeylove adheres to full-chain environmental protection from base materials to coatings, choosing only water-based paints certified by EN71 and food-grade contact materials. We believe: Environmental protection is not a gimmick, but the minimum respect for children's growth environment.

① Strictly selecting materials to ensure environmental quality from the source

② Upgrading production processes for environmental protection and practicing sustainable development

安全为本

Safety first

① Strict Material Selection: Safeguard Environmental Quality from the Source

100% coverage of environmental protection testing for materials
Process upgrades to reduce carbon emissions
Certified by the FSC Forest Certification and China Environmental Labeling Product Certification

品质至上

Quality first

① Humanized Safety Design: Comprehensive Care for Children

Adhere to international safety standards with strict quality control
Certified by the ISO 9001 Quality Management System, ISO 14001 Environmental Management System, and ISO 45001 Occupational Health and Safety Management System
Annual review and optimization of product structural safety
Self-built quality inspection laboratory with standards higher than the industry average

创新设计

Innovative design

Every Space Is a Silent Lesson

For more than 20 years, Hikeylove has become a leading brand in China's high-end kindergarten furniture and educational equipment, thanks to its outstanding performance in environmental protection, safety, and design. Looking ahead, Hikeylove will continue to uphold the tenet of "Based on Children, Seeing Children, Supporting Children", keep innovating and developing, contribute more to the early childhood education industry, and create a better growth environment for children.

We have been continuously improving the integrated design solution that combines "Space + Products + Educational Functions". To date, we have served tens of thousands of kindergartens and childcare institutions, providing differentiated support for different types of kindergartens.

① Space planning and design integrated with educational concepts

② Innovative product design that meets multi-scenario needs

Snugglee series — Suitable for Ages 0-3

Quality & Color & material

Series Philosophy | Gentle Wrapping, Premium Toddler Safety Soft-Safe

This series prioritizes safety and impact protection, utilizing a large amount of soft-padded materials to create a soft, safe, and comfortable environment for children to grow up in. The overall low-saturation color scheme of the furniture, like the first rays of warm morning sun, creates a natural and warm atmosphere.

Snugglee series

Classroom Area: **62** m²

Snugglee series

Series Introduction

Series Philosophy | Gentle Wrapping, Premium Toddler Safety Soft-Safe

We place great emphasis on the feature of "safety against collisions". Most of the furniture is mainly made of soft-padded materials, while also balancing characteristics such as easy mobility and stable sturdiness.

The exterior design respects the laws of children's physical and mental development, and is matched with a variety of low-saturation color tones. We are committed to creating a safe and comfortable interactive space for young children.

The table edge guard can prevent items from falling off.

The table legs are height-adjustable and equipped with pulleys; lifting the table from the side makes it easier to move.

Physical Sensory Integration Series

Multiple combinations. For all ages

Promotes motor skill development
Fits various spaces: classrooms, hallways, lobbies.

Snugglee series Product Features

Excellent genuine leather effect

Full pattern and fine texture, exalted, noble, elegant and natural with excellent genuine leather effect.

Comfortable with soft continuous, good touch, strong skin affinity

Products have silky skin texture, delicate velvet, comfortable with soft continuous, soft touch and strong skin affinity.

Good abrasion & scratch resistance

Good tearing, stitching, deflection & pulling strength. Perfect chemical and solvent resistance. Good light and yellowing resisting.

Multifunctional

According to the requirements of customers and confirmed by Anli, it can achieve anti-fouling, easynation, waterproof and breathable, negative oxygen ion release, antibacterial and mildew and otheldecontalfunctons to meet the needs of different customers

Excellent comprehensive performance

Products have good abrasion and scratch resistance with wyzenbeek 100 thousand times no breaking

YearsHigh Durability

Excellent acid, alkali, hydrolysis resistance, high durability with 7-15 years.

Good color fastness

High color fastness, no fading and the surface is uniform and natural.

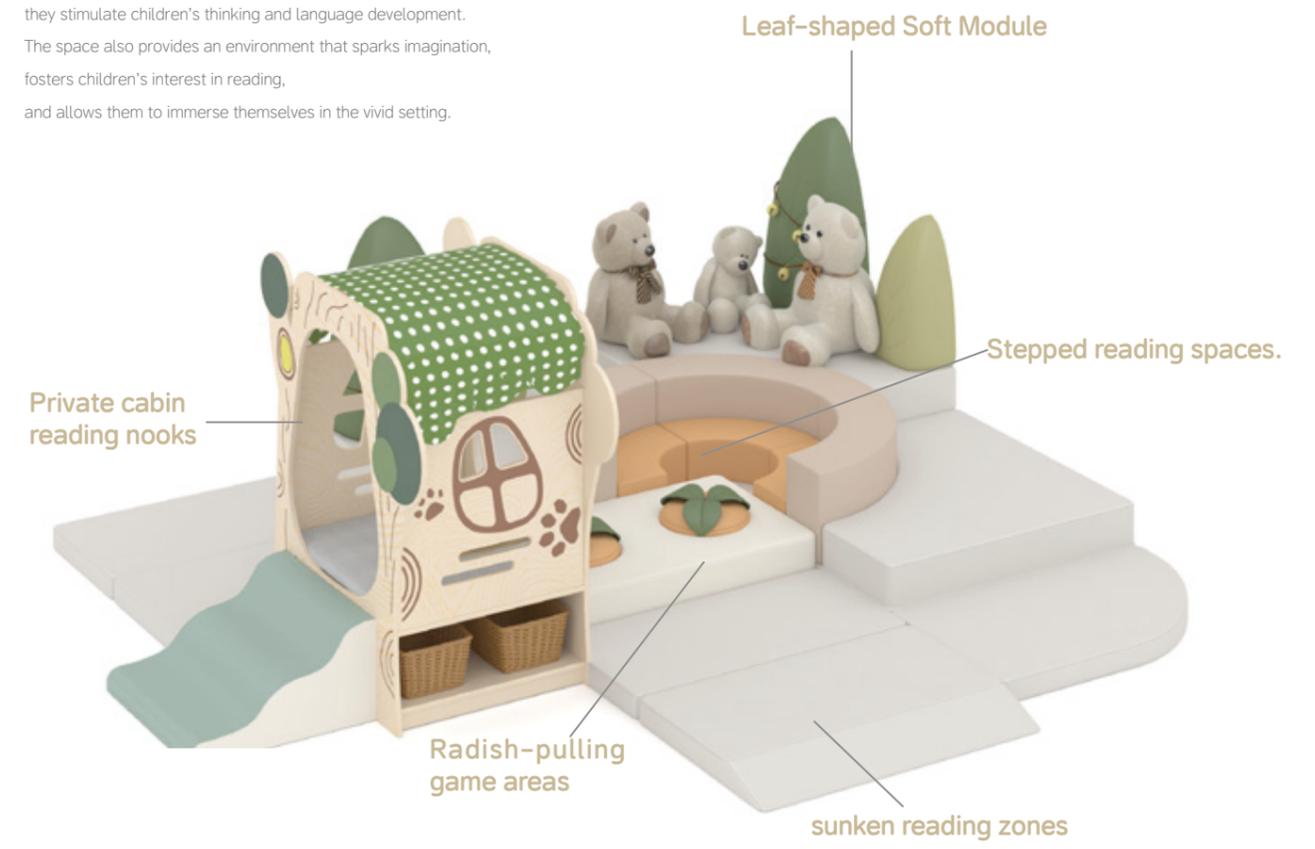

Green, Eco-friendly

Products pass the highest level oEko-TEX Standard 100 baby-use products(1st level) certification and are authorized to use international "Confidence in Textiles" symbol-. Products also pass international greenlabel certification and 150 14024 China environmental labeling certification, entirely reach or exceed international environmental protection standards such as REACH, RoHS, EN-71-3, eco-friendly and healthy.

Snugglee Series- Language Development Area

A variety of reading area combinations are available, interesting designs help children break away from the dull reading atmosphere of the past—by integrating entertainment, they stimulate children's thinking and language development. The space also provides an environment that sparks imagination, fosters children's interest in reading, and allows them to immerse themselves in the vivid setting.

Snugglee Series – Sensory Play Area

Soft Play Equipment with varying difficulty levels are configured based on the growth and development characteristics of children in different age groups. The aim is to help children improve their body control ability through systematic training

Professional Manufacturer of High-Quality Children's Cotton Quilts

Material Safety & Eco-Friendliness:
The inner filling should be made of natural, non-irritating materials compliant with Class A standards for infant products.

Softness & Skin Comfort:
The filling offers excellent breathability and moisture absorption, along with thermal insulation, providing optimal comfort across seasons.

Lightweight & Easy to Use:
Designed to be lightweight for easy carrying and handling by children, promoting independence while ensuring warmth without burden.

Easy Cleaning & Maintenance:
Suitable for frequent washing in nursery settings, the inner filling (e.g., polyester or soybean fiber) is machine washable, quick-drying, and resistant to deformation, maintaining fluffiness after cleaning.

Toddler Ladder

①.To meet children's physical development needs, a modular crawling and climbing slide was designed based on their physical characteristics.

②.A raised, transparent fence prevents falls and enhances safety. Details such as mirrors, curtains, and cork boards encourage sensory development and enhance self-awareness.
