# ENTERPRISE PROFILE

---

Inherit the earnest family traditions of Qilu region

Over thousands of years, Qilu culture has a long - standing history. Sage Confucius and Mencius' inheritance and promotion made it vividly show a historical track of Qilu culture and family culture growing together.

Oriental YEYON, based in Qilu, from its inception, has never just focused on providing aluminum materials and glass panes. Instead, we've always had one belief: what kind of home can we create for our customers?

YEYON sunrooms are designed to build a timeless and splendid ideal home for countless families. We hope to let the Qilu family traditions, stemming from Confucianism, benefit every family. Learning from history, this is Oriental YEYON's cultural confidence in creating ideal homes.

# ENTERPRISE PROFILE

Establish a sequence in the context of thousands - year - old culture,  
Aspire to be a master craftsman of a great nation China's leading  
enterprise in high - end sunrooms

In 2009, YEYON Sunroom emerged as a diversified, international firm.  
It integrates R & D, production, processing, design, installation, and  
service of sunrooms and system windows. YEYON has won honors  
like "High - tech Enterprise", "Sunroom Enterprise Standard  
Certification", and is among the Top Ten Sunroom Brands. It's also the  
chief editor of the "Sunroom Industry Standard".

Focused on high - end sunrooms and system windows, YEYON has a  
30,000 - square - meter production base and a 6,000 - square - meter  
R & D base. With first - class intelligent production equipment, it  
invented and patented the revolutionary "Luban Lapping" process in  
the sunroom industry. This secures its technological lead and paves  
the way for the industry's future development.

Base ourselves in China  
Serve the world

Accumulatively served  
over 1,000,000 property owners

# DEVELOPMENT HISTORY

**In 2009**

YEYON Sunroom was established.

**In 2010**

Independently develop the Luban lapping process

**In 2011**

Independently develop the pre-arching process

**From 2012 to 2023**

Step out of Shandong Explore the national market

**From 2014 to 2023**

Be listed on the "Quality" program of CCTV

**In 2016**

Launch the private customized service for sunrooms

**In 2017**

Introduce a semi-automated production line for sunrooms

**In 2018**

A 30,000 - square - meter production base was completed.

**In 2019**

Won the title of High - tech Enterprise

**In 2020**

(The first) Sunroom Research Institute was established.

**In 2021**

New double exhibition halls Launched into the market

**In 2022**

Become the lead - compiling unit of the industry standards for sunrooms

**In 2023**

Launch customized solutions for featured whole - house sunrooms and doors and windows.

**In 2024**

Make a significant introduction of Shiyun Garden Sunroom

# RESEARCH DRIVING FORCE

---

- The First (National) Architectural Industry Technology Sunroom Design and Research Institute
- The first (national) architectural industry technology sunroom testing center
- 6,000-square-meter sunroom research and development base

YEYON Sunroom is committed to building a comprehensive R & D system. It has established the industry's first (national) Sunroom Research Institute and (national) Architectural Industry Technology Sunroom Testing Center, focusing on process research and development and product testing to make technological reserves for products to be launched in the next 3 - 5 years or even longer.

# QUALITY CONTROL

Exquisite craftsmanship · Impeccable quality

 **Super strong**  
wind resistance ability

 **Superior**  
Thermal insulation performance

 **Ultra-high**  
Superior Longevity in Opening and Closing Cycles

 **Excellent**  
Sealing performance

# BRILLIANT DETAILS

- Powerfully introduce international intelligent production equipment
- 0.01mm high - precision profile cutting

# ENTERPRISE HONORS

## Lead the industry standards

YEYON Sunroom strategically focuses on core technologies. It's the sole Chinese brand with sunroom enterprise standard certification and chief editor of China's sunroom industry standards.

Moreover, YEYON has amassed over 40 patents in sunroom and skylight design. It leads in the industry with professional and technological advantages in energy - efficient sunrooms, offering high sound insulation, thermal insulation, and stability.

Enterprise Standard Certification for

Sunroom Patent Certification

# SUPPLY CHAIN

YEYON's Strength, Supply Chain Advantages, High - quality Resource Integration: We Keep Pace with the World

## Huajian Aluminum Industry

A domestic scientific research enterprise for aluminum alloy building profiles

## HOPPE Germany

The leading European enterprise in door and window hardware

## Sobinco from Belgium

The world's top - tier hardware brand

## CMECH from the United States

A first - class provider of door and window hardware solutions

## Jiangyin Haida

The leader in R & D and manufacturing of key rubber and plastic components

## Germany's Siegenia

A leading enterprise in high - end door and window hardware

## Thermotech from Germany

A globally renowned manufacturer of thermal barrier strips

## AkzoNobel from the Netherlands

Powder coating supplier of a Fortune Global 500 company

## **02** YEYON Product System

# HUAGAI SUNSHINE ROOM

Drawing inspiration from the past to embrace the present, and extending a warm welcome with an Eastern touch. We inherit classical craftsmanship, creating a mirror of the era through mortise and tenon joints, ultra - narrow edges, large spans, panoramic views, and advanced materials. By integrating the spatial concepts of "three lives", "four seasons", and "five senses", we infuse the sunroom space with leisurely elegance and charm.

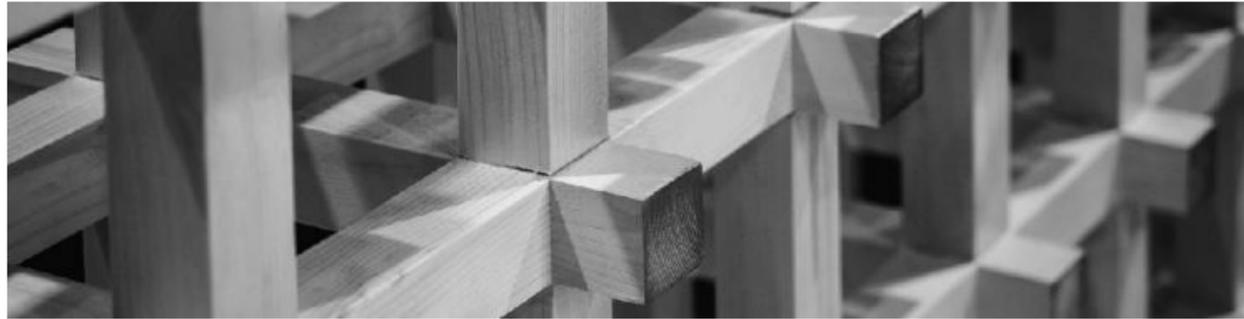

# GUOYUN SUNSHINE ROOM

Four exquisite craftsmanship techniques

---

Sunroom Invention Patent - Luban Lap - joint Process  
Patent Number: CN201821009424.4

Unique pre - arching craftsmanship

Innovative Dripping Edge Structure - Preventing Ice Formation  
Patent Number: ZL201330348485.X

Multi - cavity structure design, taking safety upgrade to a new level

# GUOYUN SUNSHINE ROOM

Six types of sunroom styles

Curved roof sunroom

double-gable-top sunroom

Gable-top sunroom

Double-sided curved sunroom

Flat-top sunroom

Special-shaped top sunroom

Mirror Lake  
series sunroom

# Jinghu-Daylighting Window Series

---

Daylighting Window

Opening methods: Electrically operated top - hung outward opening / upward flat lifting

70° large - opening daylighting window

Panoramic translational daylighting window

Opening methods: Double - door opening / Single - door opening

Daylighting window with the window sill flush with the floor

Opening method: Electrically operated top - hung outward opening

**Extra-large span  
Glass heavy-  
duty structure**

Mobile span: **8-20.8m**

Fixed span: **8-22m**

# Design concept

Harmonious coexistence with nature, making full use of natural light and the natural environment to create a comfortable and healthy indoor space for users. In the design of large-span sunrooms, it is necessary not only to maximize the introduction of natural light and improve the indoor lighting effect, but also to pay special attention to the safety and stability of the structure.

# YEYON - Extra-large Mobile Sunroom

---

Usage space: mobile roofs of sunken courtyards, open-air restaurants, hotel clubs and outdoor swimming pool projects

Opening method: Split type / Single-opening type / Fixed type

Maximum span: 22m

Profile material: 6060-T66 ultra-high precision aluminum profile [industrial-grade sandblasting treatment]

Aluminum material wall thickness: 2.0mm-4.0mm

Sealing system: Nylon brush, EDPM ethylene propylene diene monomer rubber strip, formed in one time by microwave vulcanization process.

Strength design: Balanced equal-cavity stable structure (YEYON's original galvanized steel plate corner-assembly technology)

Wind pressure resistance: Multiple arched roofs and original multi-main-beam corner-assembly technology, capable of withstanding a level 12 typhoon.

Intelligent matching: Optional 24V warm light strips and wind-rain sensing system are available.
