

RAFA Flexible Pipe with Integral Outlet

Made from reinforced PE with integral outlet and application for mainline and submainline piping solutions that are easy to install offtake fittings without leakage.

Feature

- ◆ Pre-ordered fixed outlets at a spacing as customized, easy for installation and saving labor.
- ◆ No leakage as perfect sealing between the outlets and the pipe, excellent performance for irrigation.
- ◆ Produced by reinforced PE with two layers which can be stand for higher strength.
- ◆ Silver colored for high thermal resistance, UV resistance and high chemical resistance.

Technical Data

Size	Inside Diameter (mm)	Wall Thickness (mm)	Max Working Pressure (bar)	Package (m/roll)
2"	52	0.7	1.5	100
3"	78	0.9	1.5	100
4"	102	1.2	1.5	50

*Inserted outlet is 1/2" Female Adaptor and the spacing can be made from 30-200cm as your order. Rafa pipe with two layers, outside color can be customized as your order.
