Superfine blackout zebra blinds fabric

Technical parameter

Composition	100%Polyester
Width	315cm
Weight	254gsm±5%
Color fastness	grade 8
Repeat	9*6cm
Shading effect	super blackout

Water-proof、Oil-proof、Anti-fouling:
Adopting the special process treatment, AST-BL20 has thefunction of waterproof, oil-proof and anti-fouling.

High-grade quality, silky and soft:
Lmported yarm from korea which is thinner and softer, making the fabric having high definition;Colourful yarn matching makes the fabric having the feeling of silky and soft.

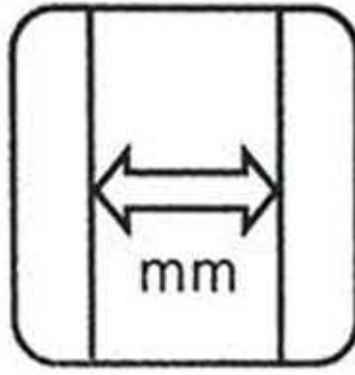

Super blackout:
Three layers of structures can blackout strong sunlight and uitraviolet light, and protect your privacy well.

Green environmental:
Passing the test of EPA,green environmntal and protecting healthy well.

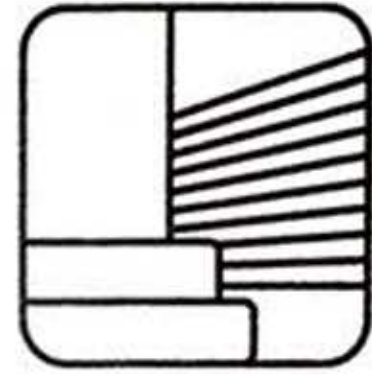

Dimming convenlently:
Dimming the light with disocation of two layers,and protecting your privacy well.

Semi-shading zebra blinds fabric

Technical parameter

Composition	100%Polyester
Width	315cm
Weight	125gsm±5%
Color fastness	grade 8
Repeat	8*5cm
Shading effect	semi-blackout

High-grade quality、 silky and soft:

Lmported yarn form korea which is thinner and softer,making the fabic having high definition;ciourful yarn matching makes the fabric having the feling of silky and soft.

Novel design:

Mixed color imitation hemp design,large circulation structure,natural soft color,better closure.

Perfect color matching:

The yarn has been tested by munsell standard observer,and the color is full and pure,perfectly combining with the base cloth.

Environmental friendly:

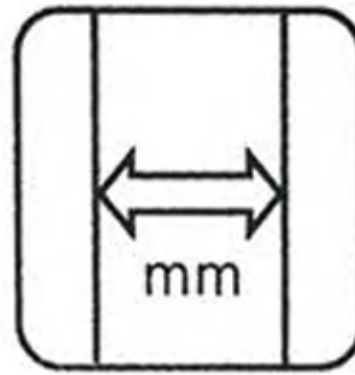

The products have been certified by many environmental protection organizations to ensure your heathy life.

Shading and energy-saving:

The fabric blocks strong light and part of ultraviolet light and rdeuces energy exchange.

Semi-shading zebra blinds fabric

Technical parameter	
Composition	100%Polyester
Width	315cm
Weight	189gsm±5%
Color fastness	grade 8
Repeat	9*6cm
Shading effect	semi-blackout

Blackout:
Thickened fabric and physical shading layer structure, strong blocking of sunlight and ultraviolet, can better protect privacy.

Black sheer design:
More precise weaving method is adopted, and black yarn is designed to make the fabric more delicate and more ornamental.

Perfect color matching:
The yarn has been tested by Munsell standard observer, and the color is full and pure, perfectly combining with the base cloth.

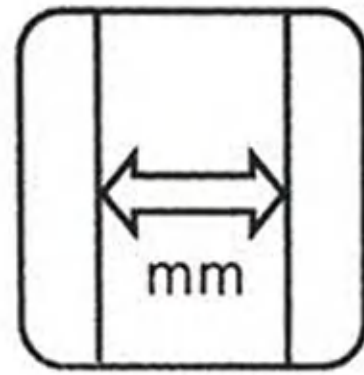

Environmental friendly:
The products have been certified by many environmental protection organizations to ensure your healthy life.

Dimming conveniently:
Popular double-layer zebra curtain structure, with multi-function dimming, protects privacy well.

Shading and energy-saving:
The fabric blocks strong light and part of ultraviolet light and reduces energy exchange.
