(Lifestyles of health and sustainability)
Combine Electrical Co., Limited

Combine Electrical Co., Ltd. was established in 2010. Both our management office and sales department are located in Shenzhen, while our factory (LOHAS Electrical) is located in Nantou Town, Zhongshan City.

We are specialized in designing, developing and manufacturing high-quality kitchen appliances, in particular appliances that promote a healthy lifestyle like our heavy duty commercial blenders, high-quality household blenders or our commercial soybean-milk machines. Our factory floor covers an area of 10000 square meters. We adopted a sophisticated ERP management system, and are able to run a highly advanced and lean production.

We invested in the future with our state-of-the-art production lines and testing equipment. Our factory consists of the following areas: a molding workshop including a large injection molding machine, an injection workshop and an assembly workshop with a total of more than 150 employees.

Countless improvements and continuous evolution in every aspect of our company guarantee high-quality products and smooth and reliable operations. Our altruistic business philosophy provides our customers with the best-possible service and support. We go above and beyond to meet and exceed our customers' needs and expectations.

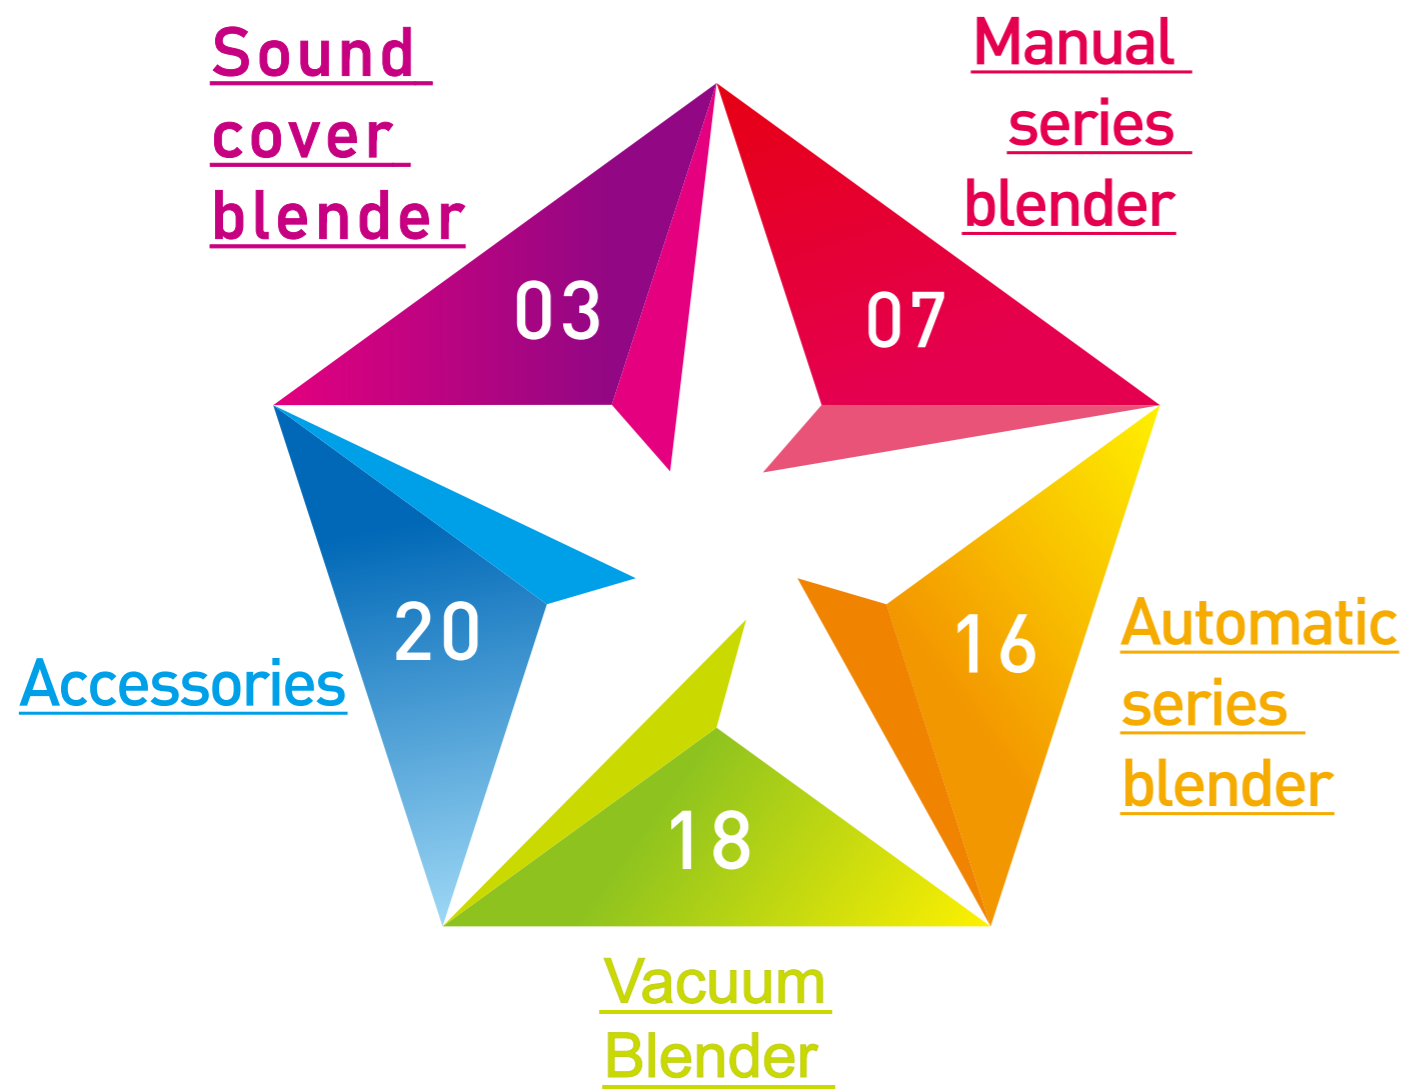

Looking back on almost 10 years of experience, we are very grateful for all our trusting customers.

Combine Electrical Co., Ltd. passed the ISO9001 and BSCI, ETL, GS, CE, CB, KC and LFGB quality certifications.

Over the past 10 years, we expanded our brand and successfully established our blenders on the following markets: United States of America, Germany, France, Canada, Sweden, Denmark, South Korea, Argentina, Russia, Thailand, Vietnam and India.

We continuously strive to move forward and access new and exciting markets and opportunities. Together, we can write a brilliant next chapter.
