2023 NATURAL COMPOSITION WALLPAPER COLLECTION

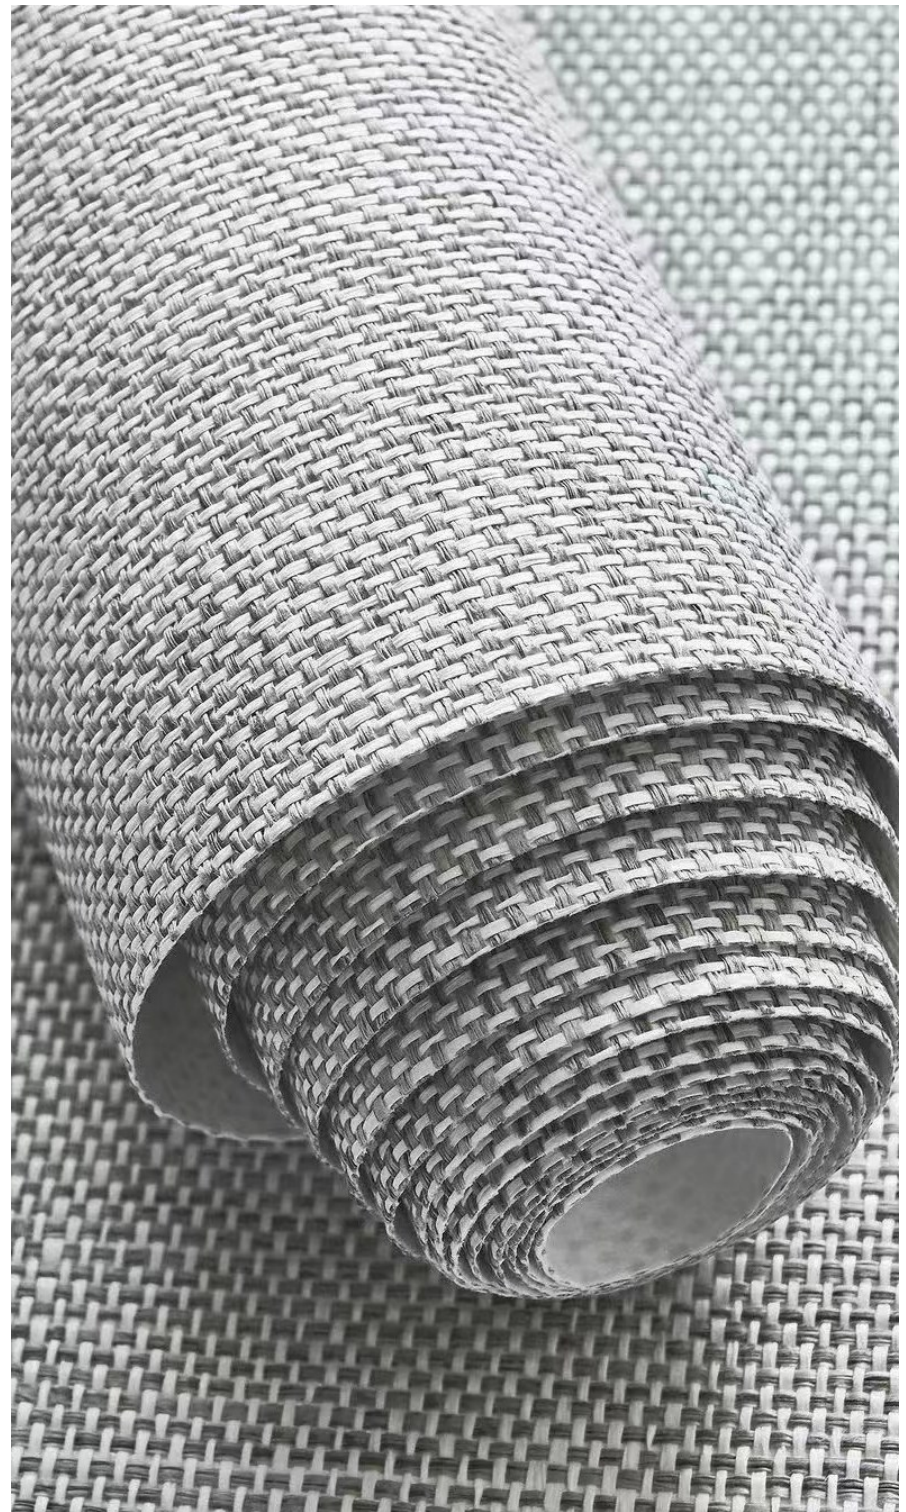

SILK I LINEN I PAPER I ABACA I HEMP I CORK I SISAL I JUTE I WOOD

CATALOG INTRODUCTION

Back to old times, the earliest textiles we used are from nature, including linen, ramie, Pueraria and other plant fiber fabrics.

Nowadays, in a growing economic with more and more buildings in cities, the need of wallpapers that are made of natural plants fiber, is increasing. Natural wallpaper is capable to bring our nature to interior, and add harmony to our working lives.

Handcrafted by artisans using only the finest materials, we offer exceptional quality and the widest selection of colors, styles, and textures. Our range of naturals includes an assortment of hemps, arrowroots, jutes, and grasses, most of them are in stock and are ready to ship.

PRODUCTION SUSTAINABILITY

ECO-FRIENDLY MATERIAL

All raw materials are renewable from nature, productions are supervised to meet the requirements on sustainability, we guarantee the production process that's socially responsible for users.

PUSH BEYOND PRODUCTION BOUNDARIES

HANDCRAFTED PRODUCTION

Our finest natural wallpaper is handcrafted by artisans using only the finest sustainable materials and are expertly laminated for ease of installation. The full collection comes in a wide array of colors, textures, and styles.

Q&A BEFORE OUTPUT

STRICT QUALITY CRITERIA

Both the different direction of the weave and the colors create an unusual depth and texture to this 100% hand-made wallcovering. We guarantee each meter of natural wallpaper goes through our strict quality check before output.

ESTABLISHED PROJECTS

TRUSTED GLOBAL PARTNERS

Each year we develop new collections that favor designers and clients. From where we began, we have contributed to well known projects around the globe with our delicate wallcovering materials.

NATURAL PLANT - SISAL

SISAL ORIGIN

Sisal is native to Mexico and is now mainly grown in Africa, Latin America, Asia and other places. Sisal plants are grown in a organic way and absorb large amounts of carbon dioxide and can survive in drought environment.

SISAL WALLPAPER

NATURAL PLANT - SISAL

SISAL GROWTH

Sisal is normally harvested when its leaves reach 0.5 – 1m long. We will remove the outer parts of the leaves and dry the inner fibers. Sisal fibers are very strong and durable, it can be biodegrade after 1 - 2 years in the ground.

NATURAL PLANT - ABACA

ABACA ORIGIN

Abaca is native to Philippines and is cultivated in small quantities in countries such as Ecuador and Guatemala. At the beginning Abaca was mostly exported at the Port of Manila, hence it is also called Manila hemp.

ABACA WALLPAPER

NATURAL PLANT - ABACA

ABACA FUNTION

Abaca fiber is round and full, its inherent of being flame retardant is the advantage that many other natural materials cannot achieve. It also has unique sound-absorbing function and can adjust the humidity for the interior.

NATURAL PLANT - LINEN

LINEN ORIGIN

Flax is one of the oldest and strongest fibers in the world. The cellulose fibers that grow within the stems of the flax plant are used in our linen fabrics. Its growth doesn't require irrigation other than natural rainfall.

RAW MATERIAL LINEN

WEAVING THE LINEN

LINEN WALLPAPER

NATURAL PLANT - LINEN

LINEN FUNTION

Linen has the characteristics of high strength and good corrosion resistance. It has good air permeability and good moisture-proof performance. It can discharge the moisture in the wall through its pores, preventing the mildew in the wall.

NATURAL PLANT – SILK

SILK ORIGIN

Silk has been favored by people throughout the ages. Silk is originated from China. More than 4,000 years ago, people were taught to raise silkworms and silk for clothes. It is a 100% renewable natural resource and a sustainable luxury product.

HEMP WALLPAPER

NATURAL PLANT - HEMP

HEMP FUNTION

Hemp's genes in the fiber are easy to adsorb water. Hemp wallpaper has excellent functions such as moisture absorption, antibacterial and antibacterial, flame retardant and heat resistance, odor adsorption, sound insulation and noise reduction.

NATURAL PLANT - WOOD VENEER

WOOD VENEER ORIGIN

The earliest use of veneer was discovered was in Egypt 4,000 years ago. Under the tropical desert climate, wood resources were tight, while the ruling class was extremely fond of precious wood, craftsmen invented the method of cutting wood into pieces.
