Leather Collection 2023 I2024

WHOLE HIDE

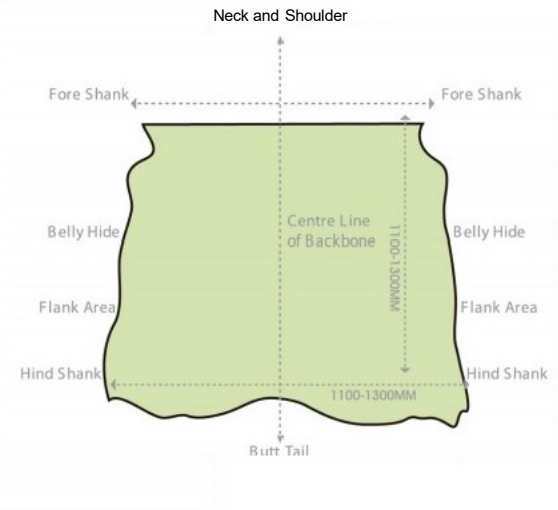

Average **WHOLE HIDE** size is between: **45-55 square feet*(SQ.FT)**

HALF HIDE

Average **HALF HIDE** size is between: **18-25 square feet*(SQ.FT)**

SADDLE

Average **SADDLE** size is between: **15-22 square feet*(SQ.FT)**

Natural characteristics:

Natural characteristics:

Natural characteristics such as growth marks, horn scratches, small healed scars, veins and irregular grain and colour structure are typical of genuine leather and thus do not constitute ground for complaints.

*Leather is a unique natural product with many highly desirable characteristics. However, each batch and color reacts differently, please check the samples and confirm the sample from the store.

Water/Wine/Coffee

The natural, pure, elegant and unique. Making this leather is a lost art in our

world today. By dyeing the leather two times not only once, the leather has time to absorb the color.

On top of this, NATURE is SCOTCHGARD treated in the drum. The slow and gentle tanning process creates a depth and richness of color

in alliance to a best possible and outstanding usability value. There is no one else willing to do this. Feel the warm and velvety touch of NATURE.
