

## Digital Children English Talking Pen and Books

6 languages learning device: English, Spanish, Chinese, Korean, French and Arabic

TP1 Talking pen reader is a functional pen which integrates languages, sounds, songs, games, recording, compare reading and downloading. It can read out when you point to the text and pictures.

## Functions of digital pen reader:

### 1. Touch and read out:

Listen to any part we like directly. We can learn through books directly as well as the pen touch and reading.

### 2. Repeating:

We can listen to the any part for times as we like.

### 3. Translation:

We can learn 5 languages: English, French, Arabic, Chinese and Korean, just touch the flags at the top of each page to choose the language we like.

### 4. Following and comparing reading:

We can check our pronunciation immediately through following and comparing function.

### 5. Recording:

Start the recording just by pressing the recording button on the pen.  
Recording whatever you want to remember in your life.

### 6. MP3 playback:

We can listen to any MP3 just by press the on/off button on the pen.  
And we can stop, play and change the previous/next piece directly.

### 7. Volume change:

We can control the volume by the button or the volume adjustment card on the book.

### 8. Download:

We can download the mp3 files by the USB line.

### Features of Audio Book:

1. Language translator: one set of books including 3 books with 5 languages: English in written and 4 translations French, Chinese, Arabic and Korean.
2. Children English learning pen: Alphabet + Numbers + conversation books + games + English nursery rhyme + Melody English songs.....

3. Including key words, sentence pattern reviewing and memory enhancing.
4. The conversations in the book are close to daily life.
5. The nursery rhymes, songs and games will make children learn easily during the entertainment.
